This edition of the APC incorporates:

- Current versions of all title 41, Chapter 23 revised statutes;
- 2005/2006 title 2. chapter 7 administrative rule updates; and
- An easier intuitive format consisting of;
 - The placement of all definitions under article 1 as well as under their respective articles;
 - The creation of source selection sections under article 3;
 - The creation of sub-sections under other select articles;
 - The combining of similar topics;
 - The placement of select statutes and administrative rules placed in easy to read order (both numeric and non-numeric);

R2-7-A301 Source Selection Method: Determination Factors

- A. A state governmental unit shall use any existing Arizona state contract designated as mandatory to satisfy requirements for those materials and services covered by such contracts.

Chapter 23

Arizona Procurement Code

- B. If a state governmental unit believes that an Arizona state contract, designated as mandatory, does not satisfy its requirements, the state governmental unit may only procure the material or service from another source with the written approval of the state procurement administrator and in conformance with the applicable source selection method.
- C. The agency chief procurement officer shall determine the applicable source selection method for a procurement, estimating the aggregate dollar amount of the contract and ensuring that the procurement is not artificially divided, fragmented, or combined to circumvent the Arizona Procurement Code.
- D. The agency chief procurement officer shall not award a contract or incur an obligation on behalf of the state unless sufficient funds are available for the procurement, consistent with A.R.S. § 35-154. If it is reasonable to believe that sufficient funds will become available for a procurement, the agency chief procurement officer may issue a notice with the solicitation indicating that funds are not currently available and that any contract awarded will be conditioned upon the availability of funds.

§ 41-2541. Prequalification of contractors

Prospective contractors may be prequalified for particular types of materials, services and construction. Prospective contractors have a continuing duty to provide the director with information on any material change affecting the basis of prequalification. Solicitation mailing lists of potential contractors shall include the prequalified contractors.

§ 41-2542. Bid and contract security

The director may require, in accordance with rules adopted by the director, the submission of security to guarantee faithful bid and contract performance. In determining the amount and type of security required for each contract, the director shall consider the nature of the performance and the need for future protection to this state. The requirement for security must be included in the invitation for bids or request for proposals.

§ 41-2547. Right to inspect plant

The state may at reasonable times inspect the part of the plant or place of business of a contractor or any subcontractor which is related to the performance of any contract awarded or to be awarded by this state.

§ 41-2548. Right to audit records

- A. The state may, at reasonable times and places, audit the books and records of any person who submits cost or pricing data as provided in section 41-2543 to the extent that the

Chapter 23

Arizona Procurement Code

books and records relate to the cost or pricing data. Any person who receives a contract, change order or contract modification for which cost or pricing data is required shall maintain the books and records that relate to the cost or pricing data for five years after the completion of the contract pursuant to section 35-214.

- B. The state is entitled to audit the books and records of a contractor or any subcontractor under any contract or subcontract to the extent that the books and records relate to the performance of the contract or subcontract. The books and records shall be maintained by the contractor for a period of five years after the completion of the prime contract pursuant to section 35-214 and by the subcontractor for a period of five years after the completion of the subcontract pursuant to section 35-214.

§ 41-2549. Reporting of anticompetitive practices

If for any reason collusion or other anticompetitive practices are suspected among any bidders or offerors, a notice of the relevant facts shall be transmitted to the director and the attorney general. This section does not require a law enforcement agency conducting an investigation into such practices to convey such notice to the director.

§ 41-2550. Retention of procurement records

All procurement records shall be retained and disposed of in accordance with records retention guidelines and schedules approved by the Arizona state library, archives and public records.

§ 41-2551. Record of procurement actions

Chapter 23

Arizona Procurement Code

Article 3

PART B. COMPETITIVE SEALED BIDDING

§ 41-2533. Competitive sealed bidding

- A. Contracts shall be awarded by competitive sealed bidding except as otherwise provided in section 41-2532.
- B. An invitation for bids shall be issued and shall include a purchase description and all contractual terms and conditions applicable to the procurement.
- C. Adequate public notice of the invitation for bids shall be given a reasonable time before the date set forth in the invitation for the opening of bids, in accordance with rules adopted by the director. The notice may include publication one or more times in a newspaper of general circulation a reasonable time before bid opening. If the invitation for bids is for the procurement of services other than those described in sections 41-2513 and 41-2578, the notice shall include publication in a single newspaper or in multiple newspapers within this state. The publication shall be not less than two weeks before bid opening and shall be circulated within the affected governmental jurisdiction. The notice may also be posted at a designated site on a worldwide public network of interconnected computers.
- D. Bids shall be opened publicly at the time and place designated in the invitation for bids. The amount of each bid, and such other relevant information as may be specified by rule, together with the name of each bidder shall be recorded. This record shall be open to public inspection at the bid opening in a manner prescribed by rule. The bids shall not be open for public inspection until after a contract is awarded. To the extent the bidder designates and the state concurs, trade secrets or other proprietary data contained in the bid documents shall remain confidential in accordance with rules adopted by the director.
- E. Bids shall be unconditionally accepted without alteration or correction, except as authorized in this chapter. Bids shall be evaluated based on the requirements set forth in the invitation for bids, including criteria to determine acceptability such as inspection, testing, quality, workmanship, delivery and suitability for a particular purpose, as prescribed in rules adopted by the director. The invitation for bids shall set forth the evaluation criteria to be used, including the weighting of identified criteria. Evaluation criteria shall not be used for construction and no criteria may be used in bid evaluation that are not set forth in the invitation for bids.
- F. The correction or withdrawal of erroneous bids before or after bid opening, based on bid mistakes, may be permitted in accordance with rules adopted by the director. After bid opening, no corrections in bid prices or other provisions of bids prejudicial to the interest of this state or fair competition shall be permitted. Except as otherwise provided by rule, all

Chapter 23

Arizona Procurement Code

decisions to permit the correction or withdrawal of bids, or to cancel awards or contracts based on bid mistakes, shall be supported by a written determination made by the director.

- G. The contract shall be awarded to the lowest responsible and responsive bidder whose bid conforms in all material respects to the requirements and criteria set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder. If all bids for a construction project exceed available monies as certified by the appropriate fiscal officer, and the low responsive and responsible bid does not exceed such monies by more than five per cent, the director may in situations in which time or economic considerations preclude resolicitation of work of a reduced scope negotiate an adjustment of the bid price, including changes in the bid requirements, with the low responsive and responsible bidder, to bring the bid within the amount of available monies.
- H. The multistep sealed bidding method may be used if the director determines in writing that it is not practical to initially prepare a definitive purchase description which is suitable to permit an award based on competitive sealed bidding. An invitation for bids may be issued requesting the submission of technical offers to be followed by an invitation for bids limited to those bidders whose offers are determined to be technically acceptable under the criteria set forth in the first solicitation, except that the multistep sealed bidding method may not be used for construction contracts.
- I. If the price of a recycled paper product which conforms to specifications is within five per cent of a low bid product which is not recycled and the recycled product bidder is otherwise the lowest responsible and responsive bidder, the award shall be made to the bidder offering the recycled product. The director may adopt rules requiring a five per cent preference for other products made from recycled materials.

§ 41-2539. Cancellation of invitation for bids or requests for proposals

An invitation for bids, a request for proposals or other solicitation may be cancelled or any or all bids or proposals may be rejected in whole or in part as may be specified in the solicitation if it is in the best interests of this state. The reasons for the cancellation or rejection shall be made part of the contract file.

§ 41-2540. Responsibility of bidders and offerors

- A. A written determination of nonresponsibility of a bidder or offeror shall be made in accordance with rules adopted by the director. The unreasonable failure of a bidder or offeror to promptly supply information in connection with an inquiry with respect to responsibility shall be grounds for a determination of nonresponsibility with respect to the

Chapter 23

Arizona Procurement Code

bidder or offeror. A finding of nonresponsibility shall not be construed as a violation of the rights of any person.

- B. Information furnished by a bidder or offeror pursuant to this section shall not be disclosed outside of the office of the director or the purchasing agency without prior written consent by the bidder or offeror except to law enforcement agencies.

R2-7-B301 Solicitation

2. Specifications, including:
 - a. Any purchase description, specifications, delivery or performance schedule, and inspection and acceptance requirements;

If a brand name or equal specification is used, instructions that use of a brand name is for the purpose of describing the standard of quality, performance, and characteristics desired and is not intended to limit or restrict competition. The solicitation shall state that products substantially equivalent to the brands designated qualify for consideration; and
 - c. Any other specification requirements;
 3. Terms and Conditions, including:
 - a. Whether the contract will include an option for extension; and

If a pre-offer conference is conducted, it shall be not less than seven days before the offer due date and time, unless the agency chief procurement officer makes a written determination that the specific needs of the procurement justify a shorter time. Statements made during a pre-offer conference are not amendments to the solicitation.

R2-7-B303 Solicitation Amendment

- A. An agency chief procurement officer shall issue a solicitation amendment to do any or all of the following:
 1. Make changes in the solicitation;

Chapter 23

Arizona Procurement Code

- C. The agency chief procurement officer shall open offers publicly, in the presence of one or more witnesses, after the offer due date and time. The factors need not be precise predictors of actual future costs, but to the extent possible the factors shall be reasonable estimates based upon information the agency chief procurement officer has available concerning future use.

Bid security shall be a certified check, cashier's check or surety bond.

 - D. If the invitation for bids or request for proposals requires security, noncompliance requires that the bid be rejected unless, pursuant to rules, it is determined that the bid fails to comply in a nonsubstantial manner with the security requirements.
 - E. After the bids or proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in section 41-2533, subsection F and section 41-2578 subsection F.  - 2. The amount of the bid security submitted, although less than the amount required by the solicitation, is equal to or greater than the difference between the apparent low offer and the next higher acceptable offer; or
 - 3. The bid security is inadequate as a result of correcting or modifying an offer in accordance with R2-7-B310, if the offeror increases the amount of the security to required limits within two days after notification.

Chapter 23

Arizona Procurement Code

- E. The state procurement administrator or, in the case of construction on state property, the Assistant Director of General Services, shall determine if the bid security may be released without penalty under § 41-2573(E).

1. A performance bond that is executed and furnished as required under title 34, chapter 2, article 2 or chapter 6, as applicable, in an amount equal to one hundred per cent of the price specified in the contract conditioned on the faithful performance of the contract in accordance with the plans, specifications and conditions of the contract, except that:

 - (b) For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. This bond is solely for the protection of this state. The conditions and provisions of the performance bond regarding the surety's obligations shall follow the form required under section 34-222, subsection G or section 34-608, subsection G, as applicable.

Chapter 23

Arizona Procurement Code

material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:

- (a) For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the purchasing agency, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the purchasing agency's reasonable estimate of the amount of construction that the purchasing agency believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
 - (b) For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under section 34-222, subsection F or section 34-608, subsection F, as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection A of this section shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection A of this section shall be provided only on and at the same time as execution of a contract or an amendment to a contract that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the department of insurance pursuant to title 20, chapter 2, article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of section 7-101 are satisfied.

Chapter 23

Arizona Procurement Code

R2-7-508 Performance and Payment Bonds

- A. The agency chief procurement officer shall ensure that performance and payment bonds are executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the Department of Insurance under A.R.S. Title 20, Chapter 2, Article 1 and in a format prescribed by A.R.S. § 41-2574.
- B. The contractor shall submit to the state the performance bond and the payment bond upon request of the agency chief procurement officer. If a contractor fails to deliver the required performance bond or payment bond by the designated date, the contractor's offer shall be rejected, its bid security shall be enforced, and award of the contract shall be made as prescribed in this Chapter.

§ 41-2576. Contract payment retention; partial payment

- A. Ten per cent of all construction contract payments shall be retained by this state as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor in an authorized form pursuant to rules adopted by the director. The contractor is entitled to all interest from any such substitute security.
- B. When the contract is fifty per cent completed, one-half of the amount retained or securities substituted pursuant to this section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty per cent completed, no more than five per cent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except that if at any time the state determines satisfactory progress is not being made ten per cent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- C. Any retention shall be paid or substitute security shall be returned to the contractor within sixty days after final completion and acceptance of work under the contract. Retention of payments by a purchasing agency longer than sixty days after final completion and acceptance requires a specific written finding by the purchasing agency of the reasons justifying the delay in payment. No purchasing agency may retain any monies after sixty days which are in excess of the amount necessary to pay the expenses the purchasing agency reasonably expects to incur in order to pay or discharge the expenses determined by the finding justifying the retention of monies.
- D. This state shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either

Chapter 23

Arizona Procurement Code

the state governmental unit or the contractor in relationship to the security assigned. In any instance in which this state accepts substitute security as provided in this section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

- E. Notwithstanding anything to the contrary in this section or in any other law:
1. There shall be no retention for job-order-contracting construction services contracts and the purchasing agency may elect to have no retention for construction-manager-at-risk and design-build construction services contracts.
 2. This section applies only to amounts payable in a construction services contract for construction and does not apply to amounts payable in a construction services contract for design services, preconstruction services, finance services, maintenance services, operation services or any other related services included in the contract.

R2-7-509 Conditions for Use of Substitute Security in Lieu of Retention

A contractor may submit substitute security to replace contract payment retention if:

1. The contractor requests the use of substitute security before the first progress payment;
2. The contractor submits an invoice with each progress payment in an amount of no less than 10% of the progress payment, or the contractor submits an invoice once at the beginning of the project in an amount no less than 5% of the total contract amount;
3. The interest earned on the security shall accrue to the benefit of the contractor but shall be retained by the contractor until the agency chief procurement officer has approved completion and acceptance of all work to be performed under the contract; and
4. The contractor ensures that the date of maturity of the security is after the estimated contract completion date, but no later than one year after the estimated contract completion date.

R2-7-510 The Form of Substitute Security in Lieu of Retention

If the conditions identified under R2-7-506 are met, the agency chief procurement officer shall accept a substitute security from a contractor in the form of one of the following:

1. An assignment of a time certificate of deposit by a financial institution licensed by this state;
2. Share certificates of a financial institution or credit union authorized to transact business in this state; or
3. Security issued or guaranteed as to principal and interest by:
 - a. The United States;
 - b. The state; or
 - c. Counties, municipalities, and school districts within this state.

§ 41-2577. Progress payments

Chapter 23

Arizona Procurement Code

- A. Progress payments may be made by this state to the contractor on the basis of a duly certified and approved estimate of the work performed during a preceding period of time as set by rule, except that a percentage of all estimates shall be retained as provided in section 41-2576. The progress payments shall be paid on or before fourteen days after the estimate of the work is certified and approved. The estimate of the work shall be deemed received by the owner on submission to any person designated by the owner for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this section shall be deemed approved and certified after seven days from the date of submission unless before that time the owner or owner's agent prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract. The owner may withhold an amount from the progress payment sufficient to pay the expenses the owner reasonably expects to incur in correcting the deficiency set forth in the written finding. On completion and acceptance of separate divisions of the contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to section 41-2576. No contract for construction may materially alter the rights of any contractor, subcontractor or material supplier to receive prompt and timely payment as provided under this section.
- B. The contractor shall pay to the contractor's subcontractors or material suppliers and each subcontractor shall pay to the subcontractor's subcontractor or material supplier, within seven days of receipt of each progress payment, unless otherwise agreed in writing by the parties, the respective amounts allowed the contractor or subcontractor on account of the work performed by the contractor's or subcontractor's subcontractors, to the extent of each such subcontractor's interest therein, except that no contract for construction may materially alter the rights of any contractor, subcontractor or material supplier to receive prompt and timely payment as provided under this section. These payments to subcontractors or material suppliers shall be based on payments received pursuant to this section. Any diversion by the contractor or subcontractor of payments received for work performed on a contract, or failure to reasonably account for the application or use of such payments, constitutes grounds for disciplinary action by the registrar of contractors. The subcontractor or material supplier shall notify the registrar of contractors and the purchasing agency in writing of any payment less than the amount or percentage approved for the class or item of work as set forth in this section.
- C. A subcontractor may notify the purchasing agency in writing requesting that the subcontractor be notified by the purchasing agency in writing within five days from payment of each progress payment made to the contractor. The subcontractor's request remains in effect for the duration of the subcontractor's work on the project.

Chapter 23

Arizona Procurement Code

- D. Nothing in this chapter prevents the contractor or subcontractor, at the time of application and certification to the owner or contractor, from withholding such application and certification to the owner or contractor for payment to the subcontractor or material supplier for unsatisfactory job progress, defective construction work or materials not remedied, disputed work or materials, third party claims filed or reasonable evidence that a claim will be filed, failure of a subcontractor to make timely payments for labor, equipment and materials, damage to the contractor or another subcontractor, reasonable evidence that the subcontract cannot be completed for the unpaid balance of the subcontract sum or a reasonable amount for retention that does not exceed the actual percentage retained by the owner.
- E. If any payment to a contractor is delayed after the date due interest shall be paid at the rate of one per cent per month or a fraction of the month on such unpaid balance as may be due.
- F. If any periodic or final payment to a subcontractor is delayed by more than seven days after receipt of periodic or final payment by the contractor or subcontractor, the contractor or subcontractor shall pay the contractor's or subcontractor's subcontractor or material supplier interest, beginning on the eighth day, at the rate of one per cent per calendar month or a fraction of a calendar month on such unpaid balance as may be due.
- G. Notwithstanding anything to the contrary in this section, this section applies only to amounts payable in a construction services contract for construction and does not apply to amounts payable in a construction services contract for design services, preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.

§ 41-2578. Procurement of specified professional and construction services; definition

- A. Architect services, assayer services, construction-manager-at-risk construction services, design-build construction services, engineer services, job-order-contracting construction services, geologist services, landscape architect services and land surveying services shall be procured as provided in this section except as authorized by sections 41-2535, 41-2536 and 41-2537.
- B. This state shall provide notice, in accordance with rules, of each procurement of professional services or construction services specified in this section and shall award contracts on the basis of demonstrated competence and qualifications for the type of professional services or construction services pursuant to procedures prescribed in this section.
- C. In the procurement of these professional services or construction services pursuant to this section:

Chapter 23

Arizona Procurement Code

1. For procurement of professional services if the contract is for professional services by an architect or architect firm and the contract amount is two hundred fifty thousand dollars or less or is for professional services by a person or firm other than an architect and the contract amount is five hundred thousand dollars or less, the director shall encourage persons or firms engaged in the lawful practice of the profession to submit annually a statement of qualifications and experience. The director or the head of the purchasing agency shall initiate an appropriately qualified selection committee for each procurement, which may include one or more contracts, in accordance with rules adopted by the director or purchasing agency. The selection committee shall evaluate current statements of qualifications and experience on file with the director or purchasing agency, together with those that may be submitted by other persons or firms regarding the procurement. If possible, the selection committee shall conduct interviews with at least three persons or firms regarding the procurement and the relative methods of furnishing the required services and, if possible, shall select, in order of preference and based on criteria established and published by the selection committee, a separate final list for each contract being procured of at least three of the persons or firms deemed to be the most qualified to provide the services required. The selection committee shall base the selection of each final list and the order of preference on demonstrated competence and qualifications only. The purchasing agency and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this paragraph, including the selection of the persons or firms to be interviewed, the selection of the persons and firms to be on a final list, in determining the order of preference of persons and firms on a final list or for any other purpose in the selection process. For each contract for professional services included in the procurement, the procurement officer shall enter into separate negotiations for the contract with the highest qualified person or firm on the final list for the contract. The negotiations shall include consideration of compensation and other contract terms that the procurement officer determines to be fair and reasonable to this state. In making this determination, the procurement officer shall take into account the estimated value, the scope, the complexity and the nature of the professional services to be rendered. If the procurement officer is unable to negotiate a satisfactory contract with the highest qualified person or firm on the final list for the contract at a price and on other contract terms the procurement officer determines to be fair and reasonable to this state, the procurement officer shall formally terminate negotiations with that person or firm. The procurement officer may undertake negotiations with the next most qualified person or firm on the final list for

Chapter 23

Arizona Procurement Code

the contract in sequence until an agreement is reached or a determination is made to reject all persons or firms on the final list for the contract.

2. For professional services if the contract amount is more than two hundred fifty thousand dollars for professional services by an architect or architect firm or five hundred thousand dollars for professional services by a person or firm other than an architect and for all construction services, the purchasing agency shall follow the procedure prescribed in this paragraph and paragraphs 3, 4, 5, 6, 7, 8, 9 and 10 of this subsection. Notwithstanding paragraph 1 of this subsection, for professional services otherwise subject to paragraph 1 of this subsection, the purchasing agency may elect to follow the procedures prescribed in this paragraph and paragraphs 3, 4, 5, 6, 7, 8, 9 and 10 of this subsection. The director or head of a purchasing agency shall initiate an appropriately qualified selection committee for each request for qualifications in accordance with rules adopted by the director. If procuring professional services, the purchasing agency shall determine the number and qualifications of the selection committee members. A selection committee for the procurement of construction services shall not have more than seven members and shall include at least one person who is a senior management employee of a licensed contractor and one person who is an architect or an engineer who is registered pursuant to section 32-121. These members may be employees of the purchasing agency or outside consultants. Outside contractors, architects and engineers serving on a selection committee shall not receive compensation from the purchasing agency for performing this service, but the purchasing agency may elect to reimburse outside contractors, architects and engineers for travel, lodging and other expenses incurred in connection with service on a selection committee. A person who is a member of a selection committee shall not be a contractor under a contract awarded under the procurement or provide construction, construction services, materials or services under the contract. The selection committee shall:
 - (a) Evaluate the statements of qualifications and performance data that are submitted in response to the purchasing agency's request for qualifications.
 - (b) If determined by the purchasing agency and included by the purchasing agency in the request for qualifications, conduct interviews with at least three but not more than five persons or firms as specified in the request for qualifications regarding the professional services or construction services and the relative methods of approach for furnishing the required professional services or construction services, except that if multiple contracts are being procured under a single request for qualifications, the number to be interviewed shall be at least three and not more than the number of contracts plus two.

- (c) After any interviews, in order of preference, based on the criteria and the weighting of the criteria included in the request for qualifications, select a final list for each contract of three of the persons or firms the selection committee deems to be the most qualified to provide the professional services or construction services and, in the case of a contract that will be negotiated under subsection E of this section, rank the three persons or firms on the final list in order of preference. The selection committee shall base the selection of the final list and the order of preference on demonstrated competence and qualifications only. If the request for qualifications solicited multiple contracts, the selection committee shall select a separate final list for each contract, except that if multiple contracts are being procured and if the request for qualifications specified that all of the multiple contracts will be awarded to a single contractor, the selection committee may select a single final list for all of the multiple contracts. If only two responsible and responsive persons or firms respond to the request for qualifications or if persons or firms withdraw from the procurement process so that there are only two responsible and responsive persons or firms remaining in the procurement process, the purchasing agency may elect to have the selection committee proceed with the procurement, including interviews and the final list, with those two persons or firms or the purchasing agency may readvertise pursuant to this subsection as the purchasing agency deems necessary or appropriate. If only one responsive and responsible person or firm responds to the request for qualifications or if persons or firms withdraw from the procurement process for a contract or multiple contracts to be negotiated under subsection E of this section so that only one responsive and responsible person or firm remains in the procurement process, the purchasing agency may elect to proceed with only one person or firm in the procurement process and may award the contract or contracts to a single person or firm if the purchasing agency determines in writing that the fee negotiated pursuant to subsection E of this section is fair and reasonable and either other prospective persons or firms had a reasonable opportunity to respond or there is not adequate time for a resolicitation. If a person or firm on the final list withdraws or is removed from the procurement process and the selection committee determines that it is in the best interest of the purchasing agency, the selection committee may replace that person or firm with another person or firm that submitted qualifications and that is selected by the selection committee as the next most qualified.

4. A purchasing agency may procure multiple contracts under a single request for qualifications procurement process under this subsection or, for job-order-contracting construction services or design-build construction services, under a single request for qualifications and request for proposals procurement process under this subsection and subsection F of this section. Each of the multiple contracts for professional services must have a term not exceeding five years and may continue in effect after the five year term for professional services on projects commenced within the five year term.
 6. For job-order-contracting construction services, a purchasing agency may procure multiple contracts using a single request for qualifications solicitation under this subsection or using a single request for qualifications and request for proposals solicitation under this subsection and subsection F of this section.

Portions of the specific single project shall be allocated to separate contracts.
 8. If only two persons or firms that the selection committee determines are qualified respond to the request for proposals pursuant to subsection F of this section or if one of the three persons or firms on the final list drops out of the selection process pursuant to subsection E or F of this section so that only two of the persons or firms on the final list remain, the purchasing agency, as the purchasing agency deems necessary or appropriate, may elect to proceed with the procurement process with the two persons or firms or elect to readvertise pursuant to subsection C of this section.
 2. If only one responsive and responsible person or firm responds to the request for qualifications for a contract or multiple contracts to be negotiated under subsection E of this section or if persons or firms withdraw from the procurement process so that only one responsive and responsible person or firm remains in the procurement process, the purchasing agency may award the contract or contracts to a single person or firm if the purchasing agency determines in writing that the fee negotiated pursuant to subsection E of this section is fair and reasonable and either other prospective persons or firms had a reasonable opportunity to respond or there is not adequate time for a resolicitation.
- E. For each contract included in the request for qualifications, the procurement officer shall enter into separate negotiations for the contract with the highest qualified person or firm on the final list for that contract determined pursuant to subsection C of this section for the professional services or construction services. However, if the request for qualifications is for multiple contracts and specifies that all of the multiple contracts will be awarded to a single contractor, there may be a single negotiation for all of the multiple contracts. The negotiations shall include consideration of compensation and other contract terms that the officer determines to be fair and reasonable to this state. In making this decision, the procurement officer shall take into account the estimated value, the scope, the complexity and the nature of the professional services or construction services to be rendered. Notwithstanding the other provisions of this paragraph, an unsuccessful final list offeror may elect to waive the stipulated fee. If an unsuccessful final list offeror elects to waive the stipulated fee, the purchasing agency may not use ideas and information contained in the offeror's proposal, except that this restriction does not prevent the purchasing agency from using any idea or information if the idea or information is also included in a proposal of an offeror that accepts the stipulated fee.

- G. To the extent that the offeror designates and the purchasing agency concurs, trade secrets and other proprietary data contained in a proposal remain confidential.
- H. A purchasing agency may cancel a request for qualifications or a request for proposals or reject in whole or in part any or all submissions of qualifications or proposals as specified in the solicitation if it is in the best interest of the purchasing agency. The purchasing agency shall make the reasons for cancellation or rejection part of the contract file.
