	PROFESSIONAL SERVICES Photogrammetry, Land Surveying	CONSTRUCTION (If applicable)

23. PROJECT OWNER'S INFORMATION

c. PROJECT OWNER City of Eloy, AZ	d. ORIGINAL BUDGET/NTE AMOUNT OF PROJECT	e. TOTAL COST OF PROJECT \$32,600
--------------------------------------	--	--------------------------------------

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and length of project)

This project involved recovering section corner monuments and right-of-way monuments to determine the alignment of 4000+/- lineal feet of Main Street in Eloy, AZ

Survey grade control was also established to support Darling Geomatics' Scanning Department who were completing an existing conditions survey along Main Street.

Combining the land surveying and 3D laser scanning efforts by Darling Geomatics, a final Existing Conditions Bas Map was prepare for use by others who are doing improvement design.

The survey department is also preparing a Results of Survey Plan for the client.

The project is on-going. Total time involved is 4 months.

This project is relevant because it supports Darling Geomatics' ability to compete boundary, right-of-way, and section line surveys and Darling's ability to produce survey controlled 3D laser scanning deliverables.

-------------------------------------	---	-----------------------------------

f BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and length of project)

– Darling Geomatics has been successfully working with Arizona State Land Department since 2010 on a wide variety of exploration drilling permits and reclamation projects. Darling has performed field work for native plants and threatened and endangered species, documented baseline conditions, written mine plans and reclamation plans, performed reclamation, overseen archaeology surveys, aerial photography, and drilling work.

The project is relevant to the ability of Darling Geomatics to work well with a State agency for over four years on a continuous basis with excellent relationships. The scope of the project to date is over \$66,000 and is still in progress.

23. PROJECT OWNER'S INFORMATION

c PROJECT OWNER Pima County Governments	d ORIGINAL BUDGET/NTE AMOUNT OF PROJECT	e TOTAL COST OF PROJECT \$40,800
--	---	-------------------------------------

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and length of project)

This project involved survey work to tie to existing horizontal and vertical control and provide the general contractor control for construction of a new 7-story Pima County Court Building and an associated parking garage in downtown Tucson, AZ.

Construction layout was provided for building control, utility installations and site improvements.

This project has been on-going since February 2012 and is nearing completion.

This project is relevant because it is an example of Darling Geomatics' ability to provide accurate survey measurements for heavy construction.
