Al,

He don't have letters of authorization, but what normally works for customer is our partner locator.
If you do an advance search for En Pointe, you'll show up as a partner

Hi James,

Hope all is well.

En Pointe technologies is working right now on the bid for WSCA Solicitation , and we need a current letter or "certificate" stating that En Pointe Technologies is an authorized reseller of "Check Point" and mentioning the Partnership status as well.

Your prompt response will be highly appreciated.

Warm Wishes!

Regards,
