100 North 15th Avenue, Suite 201
Phoenix, AZ 85007

Dear Ms. McGovern,

Hoike Networks, Inc. DBA Framework 21 ("Company") was formed in early 2001 by a team of talented, and experienced business and technology professionals who have provided leading software and IT solutions and services to more than 100 clients in the public sector, higher education, financial services, healthcare and insurance. The Company is wholly owned by Tradewind Capital Group, a private investment group founded in 1993 and with over \$100M in assets.

We believe our experience working with state and local government, private business and federal government as a software value-added reseller makes us an excellent partner for the State of Arizona and the WSCA Participating Entities. We have a firm commitment to our clients' success by providing them value added services and products. As part of that commitment, we requested and received special approval for non-standard discounts from Oracle Corporation enabling us to provide better value to WSCA Participating Entities.

We look forward to working with the State of Arizona and WSCA. Please feel free to contact me should you have any questions or comments regarding this Response. Thank you for your time and consideration.

Best regards,

Riki Fujitani
President
