4. Resumes of Key Personnel Proposed for this Contract *(Complete one Section 4 for each key person.)*

a. NAME Jason Mikkelsen, PE, LEED AP	b. ROLE IN THIS CONTRACT Contract Manager/ Project Manager	c. YEARS EXPERIENCE	
		1. TOTAL 18	2. WITH CURRENT FIRM 4
d. LOCATION <i>(City and State)</i> Phoenix, Arizona			
e. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> BS, Civil Engineering		f. PROFESSIONAL TRAINING - REGISTRATIONS Professional Engineer (AZ #37312); ISI Envision Sustainability Professional; LEED Accredited Professional; LEED AP Building Design + Construction	
g. OTHER PROFESSIONAL QUALIFICATIONS <i>(Organizations, Awards, etc.)</i> Jason has 18 years experience and has been responsible for leading multiple teams of engineers, designers, and technicians to provide outstanding client service, prepare quality construction documents, build excellent relationships, and deliver successful projects. He has managed the design of commercial, federal, and energy-related site development projects ranging from 1 to 300+ acres, including municipal coordination, site layout, grading and drainage, site utilities, permitting, and construction administration.			

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION <i>(City and State)</i> AZDOA - State Capital Emergency Generator Evaluation and Utility Mapping, Phoenix, AZ	(2) YEAR COMPLETED	
		Professional Services 2014	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Project Manager. Obtained comprehensive information about existing emergency systems for multiple state-owned buildings in the vicinity of the State Capital campus in Downtown Phoenix, AZ as well as one other building in Phoenix, and three buildings in Tucson. Work also included existing subsurface utilities information. Fee: \$212K	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION <i>(City and State)</i> Arizona State University - Interdisciplinary Science and Technology Building 4 (ISTB4), Tempe, AZ	(2) YEAR COMPLETED	
		Professional Services 2010	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Project Manager for survey, civil design and limited construction administration for a 240,000 square foot high-rise structure that houses technology research, laboratory, and office space. Fee - \$140,000 (civil)	<input type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION <i>(City and State)</i> ASDC - Prison Complexes, Perryville, Yuma & Tucson, AZ	(2) YEAR COMPLETED	
		Professional Services 2008	Construction (if applicable) 2009
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Project Manager. Design services and support for three new prison complexes in Perryville, Yuma, and Tucson, that added an additional 4,000 inmate beds. Construction Value: \$100M	<input type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION <i>(City and State)</i> US DHS - Renovate Bldg. 680, Support contract - Federal Law Enforcement Training Center (FLETC), Glynn, GA	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) 2013
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Civil engineer for the renovation of 80,000+ SF facility adding office and storage space to support FLETC. Civil design included new parking areas, utility upgrades, and on-site drainage improvements.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION <i>(City and State)</i> Pima County - Ina Road Water Pollution, Regional Optimization Master Plan (ROMP) Lab Expansion, AZ	(2) YEAR COMPLETED	
		Professional Services 2014-Present	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Civil engineer providing site design services for the expansion of this wastewater laboratory facility, including site planning, on-site utility design, and grading & drainage improvements.	<input checked="" type="checkbox"/> Check if project performed with current firm

OTHER PROFESSIONAL QUALIFICATIONS (Organizations, Awards, etc.) Michael LaBianca has broad-based planning experience through his 25+ years of involvement on a wide range of land use planning, environmental, and public outreach projects. His experience has involved consensus building and public participation, GIS analysis in identifying opportunities and constraints in land use planning, environmental (bio-physical) assessment, suitability analyses, and parks and open space planning.					

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION (City and State) ADOT - North-South Corridor Study Environmental Impact Statement and Location/Design Concept Report	(2) YEAR COMPLETED Professional Services 2008-Present	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Project Manager for this study providing environmental services and evaluating alternatives for the proposed North-South Freeway in Pinal County from US 60 South to I-10. Alternatives include tolling and Public Private Partnerships as a potential funding source.	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION (City and State) ADOT - South Mountain Corridor Environmental Impact Statement and Location/Design Concept Report, Phoenix, AZ	(2) YEAR COMPLETED Professional Services 2010-Present	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Planning and GIS mapping for preparation of socioeconomic and land use reports for the South Mountain Transportation Draft Environmental Impact Statement. Mapped zoning, general plan, and existing land use for study area encompassing six municipalities.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION (City and State) City of Goodyear - Transportation Master Plan, Goodyear, AZ	(2) YEAR COMPLETED Professional Services 2014	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Project Manager for the Transportation Master Plan that was developed through a process that considered the strategic vision of the City of Goodyear and incorporated the regional planning efforts of the MAG.	<input checked="" type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION (City and State) ADOT - Various PARA and SATS studies, Statewide, AZ	(2) YEAR COMPLETED Professional Services 2000-Present	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Project Manager / Project Engineer / Planner for multimodal transportation plans for several fast growing Arizona communities through the PARA or SATS program of ADOT. Completed studies include Lake Havasu City, Bullhead City, Winslow, Ak-Chin Indian Community, Fort McDowell Yavapai Nation, Salt River Pima-Maricopa Indian Community, Greenlee County Trails Plan, and the Town of Snowflake.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION (City and State) Nevada DOT - Connecting Nevada: Nevada's Long Range Transportation Plan	(2) YEAR COMPLETED Professional Services 2012-Present	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Deputy Project Manager to develop a long-range visionary document for the State to help guide transportation and infrastructure investments. An important element of the study was to develop Nevada's first-ever Statewide Travel Demand Model. The study also included an initial freight assessment to identify expanded economic development in the State.	<input checked="" type="checkbox"/> Check if project performed with current firm

4. Resumes of Key Personnel Proposed for this Contract *(Complete one Section 4 for each key person.)*

a. NAME Terri Bainbridge, PE, CFM	b. ROLE IN THIS CONTRACT Drainage (Transportation) - Task Leader	c. YEARS EXPERIENCE	
		1. TOTAL 38	2. WITH CURRENT FIRM 28
d. LOCATION <i>(City and State)</i> Tucson, Arizona			
e. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> BS, Geological Engineering		f. PROFESSIONAL TRAINING - REGISTRATIONS Professional Engineer (AZ #24383) Certified Floodplain Manager	

g. OTHER PROFESSIONAL QUALIFICATIONS *(Organizations, Awards, etc.)*

Terri Bainbridge has 28 years of transportation engineering experience specifically in hydrology, hydraulics, and drainage. She has experience using HEC-RAS, HEC-2, FLO-2D, HEC-1, and other computer models, and is knowledgeable in FEMA requirements. She has been involved in a number of major projects for City of Tucson, Pima County, and ADOT and is often called upon by clients and competitors to provide drainage expertise.

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION <i>(City and State)</i> ADOT - I-19 Duval Mine Road Traffic Interchange, Sahuarita, AZ	(2) YEAR COMPLETED	
		Professional Services 2009	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Drainage Engineer. Prepared or supervised hydrologic and hydraulic analysis and design. The project improved the traffic flow and capacity of Duval Mine Road and ramps at the I-19 interchange. This project also required special cross-drainage measures and 404 permitting. An especially extensive public outreach effort was undertaken to deal with the active and assertive communities of Sahuarita and Green Valley.	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION <i>(City and State)</i> City of Tucson - Speedway Boulevard, Camino Seco to Houghton, Tucson, AZ	(2) YEAR COMPLETED	
		Professional Services 2013	Construction (if applicable) 2013
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Project Manager. The project involves reconstructing 2 miles of Speedway Boulevard to a four-lane divided urban arterial roadway with curbs and sidewalk. The project includes design of the new roadway, 12 cross drainage structures, pavement drainage, signing & marking, lighting & traffic signals, stormwater pollution prevention plans, environmental work, utility relocations including design of a joint use trench, and landscaping. Terri served as HDR's project manager, the City of Tucson's project manager, the drainage designer, and the roadway designer.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION <i>(City and State)</i> City of Tucson - Silverbell Road, Grant Road to Ina Road, Tucson, AZ	(2) YEAR COMPLETED	
		Professional Services 2014	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Project Manager for a Design Concept Report that addresses elements associated with the widening of Silverbell Road including alignment, right-of-way acquisition areas, drainage conveyance issues, an access control plan, and traffic analyses. HDR is a subconsultant on this project.	<input checked="" type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION <i>(City and State)</i> Pima County Department of Transportation - La Canada Drive, Ina to Calle Concordia, Tucson, AZ	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) 2013
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Drainage Project Engineer for a project that widened over three miles of La Canada Drive from a rural two-lane section to a four-lane urban section south of Ina Road to Calle Concorida with paved shoulders, curb and gutter, sidewalks and a public use trail. These improvements accommodate increased traffic demands in the area through 2030; improve vehicular, pedestrian, bicycle and equestrian safety; and provide a key north-south, all-weather route for residents, commuters and emergency service providers.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION <i>(City and State)</i> Pima County Department of Transportation - La Cholla Boulevard, Ruthrauff to River, Tucson, AZ.	(2) YEAR COMPLETED	
		Professional Services 2011	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Drainage Project Engineer. The purpose of the project was to widen La Cholla Boulevard to a six-lane divided roadway from Ruthrauff Road to River Road in order to improve safety, reduce congestion, improve operations and increase mobility. Ms. Bainbridge performed the hydraulic analysis (HEC-RAS) for the Rillito River. She ran the FEMA model, updated the model for existing deficiencies, and evaluated several configurations for the new bridge. She also provided quality control reviews on the drainage report.	<input checked="" type="checkbox"/> Check if project performed with current firm

4. Resumes of Key Personnel Proposed for this Contract *(Complete one Section 4 for each key person.)*

a. NAME		b. ROLE IN THIS CONTRACT		c. YEARS EXPERIENCE	
Scott Sikel, PE		Aviation/Aeronautical		1. TOTAL 25	2. WITH CURRENT FIRM 2
d. LOCATION <i>(City and State)</i> Phoenix, Arizona					
e. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> BS, Civil Engineering			f. PROFESSIONAL TRAINING - REGISTRATIONS Professional Engineer (AZ #31385)		
g. OTHER PROFESSIONAL QUALIFICATIONS <i>(Organizations, Awards, etc.)</i> Scott Sikel brings over 25 years experience in a wide variety of aviation/civil engineering-related projects ranging from large-scale international airports such as Phoenix Sky Harbor, to mid-sized airports such as Scottsdale Municipal Airport to smaller General Aviation airports such as Marana Regional and Phoenix Goodyear Airport. His technical expertise includes the preparation of construction plans and specifications, construction phasing, and construction administration. Scott has performed pavement design and drainage design and has held responsible roles during the construction phase of various projects. He understands how to take design drawings and implement those in the field during construction. As a Project Manager, he provides continuity from design through construction to ensure a quality product.					

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION <i>(City and State)</i> Taxiway B8 Reconstruction, Phoenix Sky Harbor International Airport, Phoenix, AZ	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Project Manager responsible for the preparation of construction documents for the removal and reconstruction of this taxiway. Based on the condition of the PCCP pavement, the Aviation Department elected to demolish the entire taxiway connector between Runway 8-26 and Taxiway B. This project required conducting a site survey of the project area, performing civil and electrical design, and submitting sealed construction plans and technical specifications. Work associated with this project included full depth pavement removal, PCCP reconstruction, airfield lighting, FAA status lighting, pavement grooving, pavement markings, as-built preparation, project close-out and final acceptance.	<input type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION <i>(City and State)</i> Taxiway A Intersections Improvements - Phases 2/3; Phoenix-Goodyear Airport, Goodyear, AZ	(2) YEAR COMPLETED	
		Professional Services 2011	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Design Project Manager for the last 2 phases of the Taxiway A Intersection improvements project. Responsible for preparing construction documents, and ensuring that construction was performed to the requirements of the technical specifications. This project included the preparation of construction plans for modifications to three intersections for Taxiway A at Phoenix Goodyear Airport. Phases 2 and 3 include 100% design documents and construction administration.	<input type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION <i>(City and State)</i> Miscellaneous Pavement Reconstruction, Scottsdale Airport, Scottsdale, AZ	(2) YEAR COMPLETED	
		Professional Services 2008	Construction (if applicable) 2008
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Project Manager for the reconstruction of various segments of airfield and service road pavement. The project relocated the existing service road in two separate areas as well as reconstructed the entrance connectors for 5 separate aircraft hangars (Greenway Hangars). Phased construction plans were necessary in order to reconstruct the Greenway hangars without restricting access to any hangar at any time.	<input type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION <i>(City and State)</i> Airport Improvements, Winslow-Lindbergh Regional Airport, Winslow, AZ	(2) YEAR COMPLETED	
		Professional Services 2004	Construction (if applicable) 2004
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Senior Civil Engineer responsible for the production of plans, specifications, and estimates for the reconstruction of terminal taxiways and the terminal apron; pavement preservation using crack seal and slurry seal on Runway 11/29, Runway 4/22, Taxiway A, and Taxiway B; and pavement markings. Work included performing a runway safety area (RSA) inventory and updating the ALP. Also provided assistance to the City during the bid phase and administration, inspection, staking, and close-out services during the construction phase.	<input type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION <i>(City and State)</i> Federal Transit Authority/Valley Metro Rail, Project Management Over-Site, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2010	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Local PMOC Representative. Scott was responsible for many tasks associated with procedure adherence, design review, Project Management Plan, and Safety & Security System Plan implementation. Responsibilities included continually monitoring performance and status of many of the tasks required and advised the FTA, as necessary, of any concerns or deficiencies by Valley Metro Rail.	<input type="checkbox"/> Check if project performed with current firm

4. Resumes of Key Personnel Proposed for this Contract (Complete one Section 4 for each key person.)

a. NAME		b. ROLE IN THIS CONTRACT		c. YEARS EXPERIENCE	
Chad McDermott, PE		Construction Management		1. TOTAL 24	2. WITH CURRENT FIRM 14
d. LOCATION (City and State) Phoenix, Arizona					
e. EDUCATION (DEGREE AND SPECIALIZATION) BS, Civil Engineering			f. PROFESSIONAL TRAINING - REGISTRATIONS Professional Engineer (AZ #53949) ATSSA Certified Traffic Control Supervisor		
g. OTHER PROFESSIONAL QUALIFICATIONS (Organizations, Awards, etc.) Chad McDermott has 24 years of experience in construction management in which he has been instrumental in recommending and coordinating unique approaches that incorporate innovative construction management techniques to finalize projects on schedule and within budget. He has extensive experience working on various types of projects ranging from flood control and water/wastewater treatment to transportation projects. Chad has a keen ability to utilize a partnering approach with both clients and contractors to complete projects to the satisfaction of the client. He is currently serving as the Department Manager in Arizona for HDR Construction Control Corporation.					

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION (City and State) ADOT - Temporary Technical Engineering Personnel for Construction Projects Statewide (2011-2014)	(2) YEAR COMPLETED	
		Professional Services 2011-Present	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Contract Manager. HDR provides field technical staff on an as-needed basis for ADOT-managed highway construction projects. HDR provides specific employees to supplement ADOT positions when ADOT is short-staffed, such as resident engineers, inspectors, field office administrator/managers, materials inspectors, testers, and samplers, and documentation personnel. Assignments vary from one week to two years and are in both rural and urban settings in ADOT's nine Districts.	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION (City and State) Phoenix Sky Train Emergency Repair Design & Construction Support Services at Phoenix Sky Harbor International Airport, Phoenix, AZ	(2) YEAR COMPLETED	
		Professional Services 2013	Construction (if applicable) 2013
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Construction Project Manager. HDR provided inspection services during the demolition and installation of the Phoenix Sky Train running surface expansion joint ride plates. Chad was responsible for all oversight inspection during demolition and construction, including the daily coordination of inspections, in addition to the review and approval of weekly submittal of all inspection documentation to the client. Construction consisted of the demolition and reconstruction of 305 expansion joint ride plates on approximately 2.5 miles of track from the 44th Street Station to Terminal 4. Throughout the demolition process, HDR inspectors were responsible for photo documentation of pre-demolition inspection of all the running surface expansion joint ride plates, inspecting the existing rebar, checking for voids in the concrete, inspection of all steel embeds, as well as the preparation and submittal of all demolition reports.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION (City and State) Flood Control District of Maricopa Count - Buckeye Flood Retarding Structure (FRS) No. 1 Rehabilitation, Phoenix, AZ	(2) YEAR COMPLETED	
		Professional Services 2013	Construction (if applicable) 2014
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Project Manager. This CMAR dam project is Phase 1 of the Buckeye FRS No. 1 Rehabilitation project and includes trenching up to 40 feet deep to install a three-foot wide, 14,080 foot long sand filter in the FRS to eliminate or mitigate current dam safety deficiencies and failure modes in an existing earthen flood control embankment west of Phoenix, AZ.	<input checked="" type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION (City and State) City of Scottsdale, Scottsdale / McDowell Transit Facility Construction Administration, Scottsdale, AZ	(2) YEAR COMPLETED	
		Professional Services N/A	Construction (if applicable) 2013
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Contract Manager. HDR is providing full construction administration for the City of Scottsdale streetscape projects that includes removing the existing one-bus capacity bus bays south of McDowell Road on Scottsdale Road and replacing with three-bus capacity bus bays with new shelter canopies and other features.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION (City and State) Nevada DOT - US 95 to Summerlin Parkway HOV Flyover	(2) YEAR COMPLETED	
		Professional Services 2011	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Project Manager. The project consisted of constructing an HOV lane from Northbound US 95 to Westbound Summerlin Parkway including a partial widening of Summerlin Parkway. Construction included a 12-span, 2,300' curved, steel plate girder bridge with associated spread footings, pier columns, and retaining walls. The bridge is a third level structure over the US 95/Rainbow Boulevard interchange. HDR also provided critical traffic control coordination with the adjacent contract on the US 95 widening project.	<input checked="" type="checkbox"/> Check if project performed with current firm

e. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> BS, Environmental Technology Associate of Arts, Liberal Arts/Sciences			f. PROFESSIONAL TRAINING - REGISTRATIONS Registered Professional Geologist (AZ #47555)		
g. OTHER PROFESSIONAL QUALIFICATIONS <i>(Organizations, Awards, etc.)</i> Gregg is an engineering and environmental geologist with 27 years of experience in geotechnical and environmental consulting including scope of work development, proposal preparation, site reconnaissance and field investigation, engineering and regulatory report preparation, project management, and regulatory agency liaison. His experience includes: geotechnical/geologic investigations for highways and roadways, bridges, railroads, mine sites, dams, tunnels, infrastructure, airport runways and air traffic control towers, and commercial and institutional building structures; COA monitoring, inspection, and management for dams and landfill liner systems; preparation of high-level to detailed impact and analysis documents including EIS and critical issues analyses (CIA) for transportation and alternative energy planning projects; environmental remediation and site characterization including soil and groundwater investigations for CERCLA/RCRA sites, industrial facility closures, landfills, and leaking underground storage tank sites; and, solid waste engineering including landfill siting, permitting, closure, and Subtitle D environmental monitoring.					

H. RELEVANT PROJECTS

	(1) TITLE AND LOCATION <i>(City and State)</i>	(2) YEAR COMPLETED	
		Professional Services	Construction (if applicable)
1.	ADOT - Bridge Design & Drainage On-call, Statewide, AZ	2008-Present	N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Geotechnical Investigator assisting ADOT with various bridge repair task orders through the On-call Highway Bridge and Drainage Design Services Contract. Repair work has included assessments, in-depth inspections, project assessment reports, and final design plans and specifications.		
2.	ADOT - South Mountain Corridor Environmental Impact Statement and Location/Design Concept Report, Phoenix, AZ	2010-Present	N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Engineering Geologist for the assessment of the proposed 26-mile South Mountain Freeway Corridor, which consists of completing an EIS and Location/Design Concept Report for ADOT.		
3.	ADOT - North-South Corridor Study Environmental Impact Statement and Location/Design Concept Report, AZ	2010-Present	N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Geotechnical Engineer providing environmental services and evaluating alternatives for the proposed North-South Freeway in Pinal County from US 60 South to I-10. Alternatives will include tolling and Public Private Partnerships as a potential funding source.		
4.	ADOT - I-17/SR 69 Cordes Junction Traffic Interchange, Cordes Junction, AZ	2010	2013
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Engineering Geologist who prepared the quantitative estimate of potential for scour at bridge piers using the Erodibility Index Method by Annandale, which involved determining the erodibility index for the rock mass comprising the Big Bug Creek active channel at the I-17 Bridges, and prepared the evaluation of potential for scour report for the project. The project is designed to improve the capacity, geometrics, safety, and operational characteristics of the interchange at I-17 and SR-69 (Cordes Junction). Project improvements include adding width to the existing northbound (NB) Big Bug Bridge, which is a 3-span steel girder bridge.		
5.	USACE Los Angeles District - Rio Salado Oeste (Salt River) Restoration Project, Phoenix, AZ	2009	2010
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Engineering Geologist for a large river restoration project along the Salt River in central Arizona. The project included client management, technical team management, subcontractor management, budgeting, scheduling, and project delivery. The project involves the conceptual design of water supply and distribution, habitat restoration, public and transportation access, recreation, and flood control.

4. Resumes of Key Personnel Proposed for this Contract (Complete one Section 4 for each key person.)

a. NAME		b. ROLE IN THIS CONTRACT		c. YEARS EXPERIENCE	
Kelly Kading, CPG		Hazmat		1. TOTAL 32	2. WITH CURRENT FIRM 11
d. LOCATION (City and State) Phoenix, Arizona					
e. EDUCATION (DEGREE AND SPECIALIZATION) BS, Geology			f. PROFESSIONAL TRAINING - REGISTRATIONS Certified Professional Geologist		
g. OTHER PROFESSIONAL QUALIFICATIONS (Organizations, Awards, etc.) Kelly Kading has 32 years of experience in hazardous materials assessment and remediation, transportation corridor assessment, NEPA coordination, and project and program management. He performs hazardous materials assessments of transportation corridor projects as well as Phase I and Phase II Assessments, up to and including recommendations for mitigation or remediation measures. He is also well versed in the preparation of NEPA documentation on sensitive transportation projects. He is knowledgeable in federal and state regulatory requirements. He serves as HDR's national leader of the Phase I Best Practices Team, and provides Phase I training to all HDR Phase I practitioners nationwide.					

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION (City and State) ADOT - Environmental On-Call	(2) YEAR COMPLETED	
		Professional Services 2006-Present	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Hazardous materials assessment for statewide environmental on-call services including a wide variety of technical studies in support of NEPA documentation. To date, Mr. Kading has managed over 100 hazardous materials studies for ADOT ranging from basic risk-analysis PISA's to intrusive PSI investigations in support of litigation. He has also assisted ADOT with preparation and refinement of internal standards and protocols for the performance of hazardous materials investigations.	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION (City and State) ADOT - SR 30 (formerly SR 801) East DCR/EA, SR 303L to SR 202L, Phoenix, AZ	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Hazardous materials assessment providing engineering and environmental documents for the proposed SR 30 freeway between SR 303 and SR 202L, which is approximately 26 miles long, in the southwest part of the Phoenix Valley traversing 5 local jurisdictions. Specific tasks include the preparation of a Corridor Alternative Selection Report (ASR), three System Interchange Selection Reports, a Location/Design Concept Report (L/DCR), two Environmental Assessments (EA), and 30% preliminary engineering documents. Hazardous materials analysis included assessment of all potential corridors for constraints related to hazardous materials releases.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION (City and State) ADOT - Transportation Enhancement and Scenic Roads On-Call, Statewide, AZ	(2) YEAR COMPLETED	
		Professional Services 2006-2010	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Hazardous materials assessment for on-call services contract including a wide variety of technical studies in support of NEPA documentation. Kelly has managed hazardous materials studies ranging from basic risk-analysis PISA's to intrusive PSI investigations in support of litigation.	<input checked="" type="checkbox"/> Check if project performed with current firm

4. Resumes of Key Personnel Proposed for this Contract *(Complete one Section 4 for each key person.)*

a. NAME Melissa M. Farling, FAIA, LEEDap	b. ROLE IN THIS CONTRACT Principal-in-Charge (Architect)	c. YEARS EXPERIENCE	
		1. TOTAL 27	2. WITH CURRENT FIRM 1.25
d. LOCATION <i>(City and State)</i> Phoenix, Arizona			
e. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> Masters of Architecture, BArch, BArts in Architecture		f. PROFESSIONAL TRAINING - REGISTRATIONS Arizona Architect # 30771	

g. OTHER PROFESSIONAL QUALIFICATIONS *(Organizations, Awards, etc.)*
 Melissa is well-known for her commitment to quantify the behavioral and physiological impacts of architecture, and applying those findings to environments ranging from correctional to educational facilities. She is a Fellow of the AIA, co-chairs the AIA's Academy of Architecture for Justice Research Committee, and is an active member of the AAJ Sustainable Justice Committee and the Advisory Council for the Academy of Neuroscience for Architecture. Melissa was one of the principal investigators on a National Institute of Corrections funded study that examined the impacts of views of nature on stress in a jail intake area. Her 27-year career includes serving as a project manager or director on complex, small- to large-scale public projects. A valuable resource for the industry, Melissa has been published internationally in professional journals, magazines and books. She has embraced her career as a mission to improve people's attitudes, spirits and even mental health, particularly when it comes to health care, justice and civic projects.

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION <i>(City and State)</i> ASU, Arizona Center for Law & Society, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2016 (2014 by Farling)	Construction (if applicable) Summer 2016
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE New \$93M Arizona Center for Law & Society will provide students and faculty an important connection with the existing Arizona legal community. The 260,000SF, six-story building, houses the Sandra Day O'Connor College of Law, the ASU Alumni Law Firm and the law library. It includes a broad range of state-of-the-art classrooms and meeting spaces. Melissa's role was Project Manager from pursuit through program verification and design through construction documents while at Jones Studio.	<input type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION <i>(City and State)</i> ASU, Physical Sciences Building C Wing Remodel, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2015	Construction (if applicable) 2015
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE This \$1.9M renovation was designed to convert 2 existing labs spaces into 2 new lab spaces for a newly hired researcher. This change included the design of a new HVAC supply and lab exhaust system for the entire floor. This renovation also included 2 new office spaces. Principal-in-Charge for the project was Melissa Farling.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION <i>(City and State)</i> Maricopa Downtown Court Tower, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2012 (2007 by Farling)	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE The Maricopa County Downtown Court Tower, a 695,000 SF, 16-story facility, boasts a variety of technologies designed to improve efficiency and meet the rapidly increasing backlog and growing needs of our justice system. The building was Maricopa County's single largest project with a total cost of approximately \$335 million. Materials were selected to convey respect and dignity while being highly durable and low-maintenance. Completed on schedule in 2012, the project has received LEED Gold level certification. Melissa was Project Manager from pursuit through programming and schematic design while at Gould Evans.	<input type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION <i>(City and State)</i> Arizona State Hospital: New Civil and Adolescent Behavioral Health Facility, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2002 (1999 by Farling)	Construction (if applicable) 2002
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE The design and program of the new 200,000 sf Arizona State Hospital, a 220-bed hospital, represented a new paradigm in mental health care philosophies. The state's enlightened approach to treatment demanded safe and secure, therapeutic building and landscape environments. Completed in 2002, the \$35 million project was the State's first design-build project. The project was honored with a National Design-Build Institute of America Merit Award in 2004 and a Valley Forward Association Crescordia Award for Public Works in 2003. Melissa served as Project Manager from proposal through competition and construction documents while at Gould Evans.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION <i>(City and State)</i> City of Tempe Police Main Building Security Entry & Modifications, Tempe, Arizona	(2) YEAR COMPLETED	
		Professional Services 2004	Construction (if applicable) 2004
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Design-Bid-Build, 12 months design, 16 months construction, 3,800 SF, \$1.6 Million. New secure "front door" for the City's Main Police/Courts complex. Secure single point of entry for the users, reconnects 3 floors of courts building interior and Police entry to new exterior plaza, multi-tiered security buffer for the building complex.	<input checked="" type="checkbox"/> Check if project performed with current firm

4. Resumes of Key Personnel Proposed for this Contract *(Complete one Section 4 for each key person.)*

a. NAME		b. ROLE IN THIS CONTRACT		c. YEARS EXPERIENCE	
Tom Perica AIA, LEED AP BD+C		Sr. Project Manager (Architect)		1. TOTAL 21	2. WITH CURRENT FIRM 5
d. LOCATION <i>(City and State)</i> Phoenix, Arizona					
e. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> Bachelor of Science Architecture			f. PROFESSIONAL TRAINING - REGISTRATIONS Arizona Architect # 47308		

g. OTHER PROFESSIONAL QUALIFICATIONS *(Organizations, Awards, etc.)*
 Tom's experience is in the architectural design and planning of civic, educational, healthcare, and federal facilities. He is highly involved in the development from planning, design, and schematics through construction documentation and construction administration by performing as a Project Manager. His responsibilities include evaluation of existing and proposed systems, plan and specification development, architectural design, project management, program management, quality assurance and quality control reviews. He has extensive experience in budget management and codes. Tom is an active member the AIA Academy of Architecture for Justice and recently was the chair and organizer of the 2015 annual conference for the group. He is devoted to delivering superior design and excellent customer service to both owners and stakeholders in design and construction projects. His diverse experience as designer, planner, architect, project manager, and program manager give him a unique perspective and skill set. He believes the position of all members of the team must be taken seriously and dealt with in an honest respectful manner so that a truly collaborative working environment is created.

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION <i>(City and State)</i> Maricopa Downtown Court Tower, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Tom was the Design Program Manager and Owner's Representative for the Maricopa County Downtown Court Tower, a 695,000 SF, 16-story facility, boasts a variety of technologies designed to improve efficiency and meet the rapidly increasing backlog and growing needs of our justice system. The new facility allows for speedier trials, thereby cutting down higher jail costs. Tom was Program Manager from schematic design through completion of construction. He led several urban design and graphic way finding studies for the County tied to the Court Tower project. Size: 695,000 SF, Cost \$335 Million, LEED Gold	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION <i>(City and State)</i> Maricopa County Sheriff's Headquarters and 911 Call Center, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) 2014
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Tom was part of the owner's representative, program management team for this 125,000 SF building and was responsible for: Management of the design professionals, architects and engineers on behalf of the owner. Coordination and work with county agencies, design professionals, and construction manager to facilitate timely delivery of the building. Review of design professional payment applications with approval recommendation to owner. Review and recommendations on design professional additional services proposals. Size: 125,000 SF, Cost: \$93 Million	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION <i>(City and State)</i> GSA Southwest Region 7, Albert Armendariz Sr., U.S. Federal Courthouse El Paso, Texas	(2) YEAR COMPLETED	
		Professional Services 2004	Construction (if applicable) 2011
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Courts Planner and Space Programmer. Tom led the space programming interviews and compiled the program document, used for building design. He also led schematic and design development of courtrooms, courtroom mock-up implementation, and design document review for prime architect. Responsible for accessibility in the courtroom and within the court set. Size 239,600SF, Cost: \$96 Million	<input type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION <i>(City and State)</i> Southern Nevada Healthcare System Department of Veterans Affairs Las Vegas, Nevada	(2) YEAR COMPLETED	
		Professional Services 2016	Construction (if applicable) 2017
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Tom is responsible for project management and design over sight from concept design through construction documents. The size is 21,000sf with a budget of \$5.2 Million. Managed multidiscipline team of architects, interior designers, medical and equipment planners, and engineering disciplines. Size: 21,000 SF, Cost: \$5.2 Million	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION <i>(City and State)</i> New York State Supreme Court Appellate Division Third Department, Albany, New York	(2) YEAR COMPLETED

a. NAME Steven Leight, PE, CxA		b. ROLE IN THIS CONTRACT Senior Commissioning Agent		c. YEARS EXPERIENCE	
				1. TOTAL 24	2. WITH CURRENT FIRM 25
d. LOCATION (City and State) Phoenix, Arizona					
e. EDUCATION (DEGREE AND SPECIALIZATION) Bachelor of Science, Engineering Mechanics			f. PROFESSIONAL TRAINING - REGISTRATIONS AEE Certified Energy Management Professional (EMP); Certified Commissioning Authority (CxA); Professional Engineer, Arizona, No. 29633; Professional Engineer, Wisconsin, No. 30908		
g. OTHER PROFESSIONAL QUALIFICATIONS (Organizations, Awards, etc.) Steve has over 24 years experience in analysis of energy efficiency and problem solving in existing buildings, as well as quality assurance/commissioning experience in new construction. In existing buildings, this experience includes performance of detailed energy analysis using energy simulation software, development of long-term energy master plans for large, multiple-facility organizations, and development and construction management of large-scale energy efficiency improvement projects. Steve has used his experience in existing buildings to provide quality assurance and commissioning for new construction projects including hospitals, casinos, civic buildings and educational facilities. Steve is a member of the AABC Commissioning Group's Energy Management Professional committee, and assisted in development of a certification program and standard for approaching energy conservation in existing buildings.					

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION <i>(City and State)</i> Desert Diamond Casino, West Valley Resort , Glendale, Arizona	(2) YEAR COMPLETED	
		Professional Services 2015	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Lead Commissioning Authority. Provided construction and acceptance phase commissioning services for a new 140,000 square foot casino in Phoenix's west valley. Services involved planning and testing for electrical generation and emergency power systems, air handling, central plant, control systems, communication systems, and fire alarm/fire protection systems. All systems were tested and accepted by the owner prior to the scheduled opening date.	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION <i>(City and State)</i> Arizona State University Interdisciplinary Science and Technology (ISTB) Building 4 , Tempe, Arizona	(2) YEAR COMPLETED	
		Professional Services 2009	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Commissioning Project Manager. LEED Enhanced and Fundamental Commissioning encompassed the design, construction and operations of this 300,000 SF, 8-story lab/classroom building. Systems commissioned included mechanical, plumbing, light and daylighting controls, lab exhaust and make-up air systems and compressed air.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION <i>(City and State)</i> Phoenix Sky Harbor Airport Energy ASHRAE Level II Energy Audits, Phoenix, Arizona	(2) YEAR COMPLETED	
		Professional Services 2015	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Lead Energy Auditor. Project involved ASHRAE Level II Energy Audits in 14 buildings on the Sky Harbor Airport Property, including two terminal buildings, two fire stations, a police station, and various administrative buildings. Site inspections were performed, pertinent measurements were taken, and energy calculations performed to determine the most cost-effective energy conservation projects.	<input type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION <i>(City and State)</i> VA Palo Alto Polytrauma and Blind Rehabilitation, Palo Alto, California	(2) YEAR COMPLETED	
		Professional Services 2013	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Commissioning Agent. Provided design phase commissioning reviews along with construction phase commissioning for the mechanical, electrical, plumbing, site utilities and building automation systems in the 100,000 SF addition to the Palo Alto campus. Challenges on the project included providing commissioning to VA standards with limited contractor participation. HDR worked closely with VA resident engineers to ensure specification requirements were being met and documented to ensure a fully functional facility.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION <i>(City and State)</i> Coconino County Courthouse, Flagstaff, Arizona	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Cx Project Manager. Retro-commissioning services on the air systems & heating hot water system to establish a baseline document for the County to use to improve operation & energy efficiency. The team began the process with a complete building air balance of the terminal units, air handlers & exhaust fans. Part of the assessment involved establishing a current energy model to determine current operating efficiency & possible solutions to reduce operating costs. Also reviewed sequence of operations of all mechanical systems & provided recommendations for improved system performance.	<input checked="" type="checkbox"/> Check if project performed with current firm

	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Mechanical Engineer for the renovation of the Pentagon Wedge 2. The Pentagon work incorporates AT/FP criteria, security criteria and was designed and constructed with sustainable design measures and has received LEED certification.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION (City and State) National Renewable Energy Laboratory, BSCL, Golden, Colorado	(2) YEAR COMPLETED	
		Professional Services 2004	Construction (if applicable) 2005
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Mechanical Engineer for \$650,000, 3,000 SF renovation housing high temperature accuracy (+/- 0.5°C) Biotechnology, Metrology Labs and Research Labs in an operational research facility. All work was completed without adverse impact to ongoing research.	<input checked="" type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION (City and State) Ajo Border Patrol Station, U.S. Army Corps of Engineers, Fort Worth IDIQ, Why, Arizona	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Mechanical Engineer: Provided Red Team Review of mechanical document preparation for this project, which was performed under a Fort Worth District ECSO IDIQ. Project included full architectural and engineering services for a \$26 million, 55,200 SF Border Patrol Station. The project achieved LEED Gold designation.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION (City and State) Tucson Border Patrol Sector Headquarters, U.S. Army Corps of Engineers, Fort Worth IDIQ, Tucson, Arizona	(2) YEAR COMPLETED	
		Professional Services 2007	Construction (if applicable) 2008
	(3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE Mechanical Engineer. \$27 million project that consists of four buildings on a small campus with an existing 23,000 SF Border Patrol Station. Buildings include a 60,000 SF two story Administration Building, a 15,000 SF Detention Building, a 34,000 SF Facilities Maintenance Building and a 35,000 SF Vehicle Maintenance Building all served by a central utility plant.	<input checked="" type="checkbox"/> Check if project performed with current firm

4. Resumes of Key Personnel Proposed for this Contract *(Complete one Section 4 for each key person.)*

a. NAME Alan Moore, PE	b. ROLE IN THIS CONTRACT Energy Task Order Manager	c. YEARS EXPERIENCE	
		1. TOTAL 21	2. WITH CURRENT FIRM 16
d. LOCATION <i>(City and State)</i> Phoenix, Arizona			
e. EDUCATION <i>(DEGREE AND SPECIALIZATION)</i> Bachelor of Science, Electrical Engineering		f. PROFESSIONAL TRAINING - REGISTRATIONS Professional Engineer (AZ, CA, NV)	
g. OTHER PROFESSIONAL QUALIFICATIONS <i>(Organizations, Awards, etc.)</i> Alan has extensive government sector project experience that includes a range from small renovations to large facility expansions to complete system assessments and conceptual programming. His experience has given him insight into providing significant utility capacity boosts while interfacing with existing systems and maintaining overall operations and uptimes. He has practical knowledge of Federal design standards such as the UFC system and PG-18-15 along with the ability to quickly learn and adapt other client-specific criteria. His experience with these standards along with FAR contracting requirements has strengthened his effectiveness with leading design teams for many recent complex projects. Alan has worked with numerous agencies to provide Emergency Power integration, needs assessments, design support, and agency compliance.			

H. RELEVANT PROJECTS

1.	(1) TITLE AND LOCATION <i>(City and State)</i> <i>Veterans Affairs, Western Region IDIQ</i>	(2) YEAR COMPLETED	
		Professional Services 2013	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE VAMC Tucson & VAMC Prescott – Electrical System Survey & Analysis. Role: Quality Control Manager Scope included 1.5M square feet of facility space, in 110 buildings, over two campuses, and was delivered in 7 months. Deliverables consisted of a complete short circuit and coordination study including voltage drop calculations and ground fault analysis on the entire electrical system(s) (both normal and emergency) at each VAMC. Updated one-lines and cost estimates for corrective and non-compliant work were also required.	<input checked="" type="checkbox"/> Check if project performed with current firm	
2.	(1) TITLE AND LOCATION <i>(City and State)</i> <i>Ajo Border Patrol Station U.S. Army Corps of Engineers, Fort Worth IDIQ, Why, Arizona</i>	(2) YEAR COMPLETED	
		Professional Services 2012	Construction (if applicable) 2012
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Electrical Lead: Provided day-to-day oversight of electrical document preparation for this project, which was performed under a Fort Worth District ECSO IDIQ. Project included full architectural and engineering services for a \$26 million, 55,200 SF Border Patrol Station. Mr. Moore provided services on the project that included programming through Commissioning. The project achieved LEED Gold designation.	<input checked="" type="checkbox"/> Check if project performed with current firm	
3.	(1) TITLE AND LOCATION <i>(City and State)</i> <i>El Paso Maintenance Facility, U.S. Army Corps of Engineers, Fort Worth IDIQ, El Paso, Texas</i>	(2) YEAR COMPLETED	
		Professional Services 2010	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Electrical Lead: Provided day-to-day oversight of electrical document preparation for this project, which was performed under a Fort Worth District ECSO IDIQ. Project included full architectural and engineering services for a \$15 million, 32,272 SF Maintenance Facility. The project achieved LEED Silver designation.	<input type="checkbox"/> Check if project performed with current firm	
4.	(1) TITLE AND LOCATION <i>(City and State)</i> <i>AzDOA State Capital Mall Generator / Utility Survey Project, Phoenix, Arizona</i>	(2) YEAR COMPLETED	
		Professional Services 2014	Construction (if applicable) N/A
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Electrical Lead: Project included assessment of generators and associated emergency power distribution for 22 buildings primarily at the Capital Mall. Buildings uses ranged from administrative facilities to a data center. The project provided as-built connection diagrams and reports detailing issues recorded along with suggested corrective measures and cost estimates.	<input checked="" type="checkbox"/> Check if project performed with current firm	
5.	(1) TITLE AND LOCATION <i>(City and State)</i> <i>Banner Health, Cardon Children's Medical Center, Mesa, Arizona</i>	(2) YEAR COMPLETED	
		Professional Services 2009	Construction (if applicable) 2009
	(3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE Electrical Engineer. Cardon Children's Medical Center was built and designed "through the eyes of a child" and focuses on neighborhoods using various themes to create calmness and a serene environment for patients, caregivers and their families. Private patient rooms, with ample family space and patient amenities, create a safe environment conducive to healing. Family lounges, interactive play areas, kitchens and laundry rooms help create a home away from home.	<input checked="" type="checkbox"/> Check if project performed with current firm

Engineering Services for the State Capital Emergency Generator	2014	N/A

23. PROJECT OWNER'S INFORMATION

c. PROJECT OWNER	d. ORIGINAL BUDGET/NTE AMOUNT OF PROJECT	e. TOTAL COST OF PROJECT
Arizona Department of Administration	\$212,000	\$212,000

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(include scope, size, and length of project)*

HDR was selected by the Arizona Department of Administration (ADOA) to provide engineering services for the State Capital Emergency Generator Evaluations and Utility Mapping project. The project involved two tasks, described below.

TASK 1 – EMERGENCY SYSTEMS AND GENERATOR EVALUATIONS

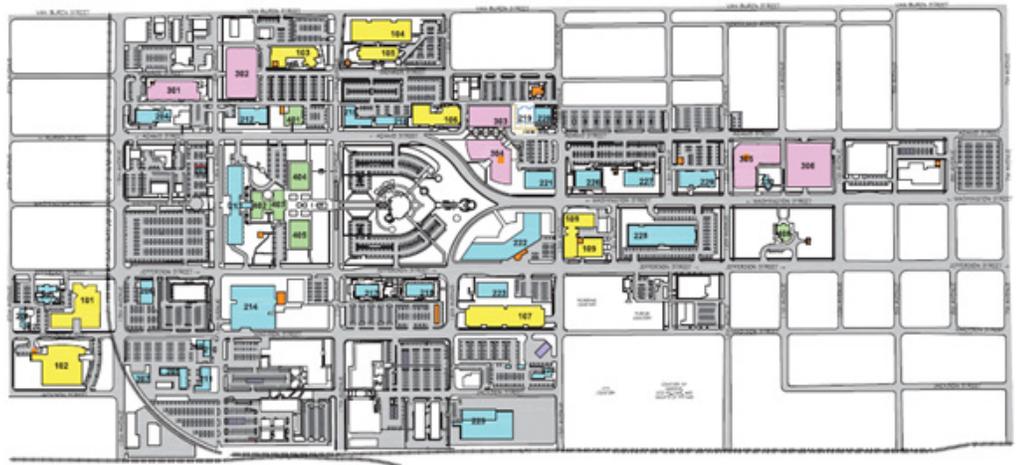

HDR obtained comprehensive information about existing emergency systems for multiple state-owned buildings in the vicinity of the State Capital campus in Downtown Phoenix, AZ as well as one other building in Phoenix, and three buildings in Tucson, AZ. The assessment

started at the generators for the particular buildings and extended inwards to the listed buildings to develop an internal system mapping. The purpose of the generator assessment(s) is to provide a current picture of the health of the building generators. This information could then be used moving forward by AZDOA personnel to determine upgrade, replacement, subtraction, or rewiring needs.

Internal mapping of the emergency systems was intended to provide a system connection diagram indicating quantity and sizing of internal emergency system equipment. AZDOA would use this information to further study any deficiencies noted at the time of the survey, as well as develop a full understanding of the types of loads being served by these existing systems. This information could once again be used to determine future projects centered around expansion, consolidation, or replacement of existing systems.

TASK 2 – UTILITY MAPPING

HDR obtained comprehensive information about existing subsurface utilities on state-owned properties in the vicinity of the State Capital campus in Downtown Phoenix, AZ. HDR worked with AZDOA staff and qualified subconsultants to perform data collection, staff interviews, site visits, on-site locating/designating, and mapping of existing utilities as identified by ADOA.

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(include scope, size, and length of project)*

During the past 12 years, we have completed hundreds of assignments under this contract involving a full range of environmental services to support pre-design, design, and post-design activities throughout Arizona. This includes providing environmental determinations, categorical exclusions, environmental assessments, and supporting documents for the environmental clearance of highway projects. Activities include scoping, budgeting, data inventory and analysis, and document preparation. Project components include Sections 401, 402, and 404 permits; cultural resources; protected and sensitive status plants and animals; land ownership; socioeconomic impacts; hazardous materials assessments; public outreach; and noise and air quality. Coordination is typically required with a variety of stakeholders including tribal governments, Arizona Department of Agriculture, Arizona Game and Fish Department, State Land Department, and Bureau of Land Management.

23. PROJECT OWNER'S INFORMATION

c. PROJECT OWNER	d. ORIGINAL BUDGET/NTE AMOUNT OF PROJECT	e. TOTAL COST OF PROJECT
City of Phoenix	\$3,000,000	\$3,000,000

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and length of project)

The City of Phoenix has 260 miles of 42-inch or larger water transmission mains; approximately 150 miles are composed of prestressed concrete cylinder pipe (PCCP). In 2003, the city initiated a program to inspect its PCCP. The program has provided useful information for assessing, and at times rehabilitating, portions of pipe. However, high priority pipes were not assessed because of the difficulties arising from shutdowns and deployment of inspection equipment. HDR was selected to conduct assessment of the highest priority 32 miles of the city's PCCP, including 10 separate pipelines throughout the city's water transmission system.

Scheduled for completion in 2014, the project entails execution, shutdown and startup plans (partial and full); data collection through monitoring, external and internal inspection; analysis of data; and recommendations for each pipeline. HDR developed a plan for performing the condition assessment on each of the pipelines, using subconsultants for electromagnetic assessment, mortar petrographic analysis, and wire metallurgy analysis as appropriate for collecting data for determining the condition of and future recommendations for each pipeline.

HDR provided electromagnetic (EMAG) survey, pipe-to-soil potential assessment, transient pressure monitoring, pipe continuity testing, internal visual/sounding inspection, soil sampling, and pipe dissection.

The city also wanted the project to yield an inspection and assessment protocol to guide its staff in continuing pipeline assessments in the future. To assist the city in this endeavor, HDR is providing the city's staff with hands-on training in shutdown/startup planning, visual/sounding inspection, pipe dissection, and transient pressure monitoring as they inspect some of the pipelines.

Project Highlights

- Condition assessment of PCCP, 42-inch diameter and larger
- Developed city's large pipe inspection and assessment program
- Provided specialty inspection services for prioritized pipes

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and length of project)

HDR has been working on various ASU on-call projects since 2013. Listed below are the on-call projects:

PHYSICAL SCIENCES BUILDING - C WING REMODEL / ASU
 \$1,900,000 renovation of 2,500 SF design to convert 2 existing labs spaces into 2 new lab spaces for a newly hired researcher. This change included the design of a new HVAC supply and lab exhaust system for the entire floor. This renovation also included 2 new office spaces. Completed February 2015.

PHYSICAL SCIENCES BUILDING D-WING REMODEL / ASU
 \$1,100,000 renovation of 1,100 SF to convert two existing lab spaces into one new lab space for a newly hired researcher. It also includes the renovation of 5 office spaces. Currently in CDs and scheduled for completion in spring 2016.

PHYSICAL SCIENCES BUILDING - C WING STUDY/ ASU
 A conceptual study to determine the cost and extent of the renovation of 2,500 SF required to convert two existing labs spaces into 2 new lab spaces for a newly hired researcher. This change included the design of a new HVAC supply and lab exhaust system for the entire floor. Completed in 2013.

ISTB-4 LER DOOR ADDITIONS/ ASU
 300 total SF new install of fire rated double doors in the 3rd, 4th, and 5th floor linear equipment rooms. This allowed the owner to split the current laboratories control area into two separate control areas. Completed in Aug 2015, for \$85,000.

ISTB-4 SATELLITE DISH ADDITION/ ASU
 Structural analysis and electrical design required for a new satellite dish that was installed on the roof top of ISTB 4. Completed in the fall of 2015 for \$42,000.

PHYSICAL SCIENCES BUILDING – A WING STUDY/ASU
 Study to evaluate a series of desired alternate use modifications for the basement, 1st and 2nd floor areas of the Physical Sciences Building A-Wing totaling 20,000 SF. Completed in 2013 for \$36,000.

HEALTH AND WELLNESS/ ASU
 Program and fit-out design for the renovation of an 18,500 SF college of nursing to consolidate their exercise and nutrition spaces into the first and second level of the ABC building. Completed in 2013, \$2,330,000

ISTB-4 TI MODIFICATIONS/ ASU
 Renovation of 20,000 SF of multiple wet and dry laboratories to accommodate new research needs prior to occupying new lab spaces. Completed in 2013, \$1,900,000

ISTB-4 CLEANROOM VALVES UPGRADE/ ASU
 Removal of 18 VAV boxes to be replaced with 18 Phoenix valves to give the cleanroom more flexibility. Completed in Apr 2014 for \$130,000.

ISTB-4 CONTROL VALVE ADDITION/ ASU
 Design of a hydronic control valve to be installed in the basement to help increase the level 7 mechanical room chilled water return pressure due to a lack of pressure supplied by the campus chilled water system. Scheduled for completion in 2015 for \$21,000. CDs are complete and awaiting for cooler weather to take system down. Anticipated completion early 2016

Pima County	\$11,000,000 new construction / \$5,000,000 addition	\$11,000,000 new construction / \$5,000,000 addition

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (include scope, size, and length of project)

HDR was selected to design the new Wastewater Department Analytical Chemistry Lab to replace outdated facilities that no longer met federal guidelines and requirements. Based on the success of this project, HDR was direct selected for the next contract with the same owner to design the addition project that provides additional space for the county and lease space used by University of Arizona research departments. These U of A laboratories provide replacement facilities for the U of A's Environmental Research Lab, and create cutting edge labs dedicated to water quality research.

40,000 SF New Construction of meeting spaces, multi-function meeting rooms for public off hours, administration areas and 20,000 SF analytical Chemistry Laboratory for Pima County Wastewater.

20,000 SF Addition containing Laboratory, High Bay Research, lobby, and administrative areas to be shared by Pima County and the University of Arizona

6. ADDITIONAL INFORMATION

a. PROVIDE ANY ADDITIONAL INFORMATION YOU FEEL MAY BE NECESSARY TO DESCRIBE YOUR FIRMS QUALIFICATIONS. (ATTACH ADDITIONAL SHEETS AS NEEDED.)

Together, anything is possible.

At HDR, we believe that the way we work can add meaning and value to the world. That ideas inspire positive change. That coloring outside the lines can illuminate fresh perspectives. And that small details yield important realizations. Above all, we believe that collaboration is the best way forward.

So while we are most well-known for delivering architecture and engineering services—for adding beauty and structure to communities through high performance buildings and smart infrastructure—we provide much more than that. We create an unshakable foundation for progress because our multidisciplinary teams also include the firepower of archaeologists, economists, builders, analysts, artists and scientists.

Our 10,000 employees, working in 225 locations around the world, push open the doors to what’s possible each and every day. This is where great begins.

HDR has been serving Arizona clients since 1959 and we have 210 professionals working from three primary locations in the State. We are consistently ranked by Engineering News-Record among the top engineering and environmental firms and were ranked as the No. 1 Engineering Firm in the Phoenix Business Journal’s 2014 Book of Lists. We are well known as an on-call architectural/engineering consulting firm in Arizona. We are currently providing services for about 30 on-call contracts for a variety of disciplines throughout the State. These on-call services are provided for federal, state, and local governmental agencies. We are very familiar with the specific needs of on-call contracts through providing similar services under multiple on-calls for Arizona agencies, including the Arizona Department of Transportation (ADOT); the cities of Tucson, Scottsdale, Mesa, Tempe, Yuma, Avondale, Goodyear, Glendale, and Phoenix; Pinal County; Pima County; Flood Control District of Maricopa County (FCDMC); and Maricopa County Department of Transportation (MCDOT), among others.

We have extensive experience with contracts that require performance of multiple, simultaneous task orders. Our assembled team will review each request, visit the site (as appropriate), review available data such as record plans and/or operations data, and develop an action plan for the work. In doing this up front, scope and technical questions can be raised, recommendations for improving the scope of work can be made, and a preliminary cost estimate can be developed. Upon receipt of Notice-to-Proceed, we will immediately initiate the work effort. We recognize that the successful delivery of multi-disciplinary projects demand close coordination and communication between you and the task order team.

Our greatest asset is our people. For this contract, we have customized a team to leverage the knowledge and experience of our technical resources to effectively meet your goals. Most of our team members have a long history with our organization, creating a stable leadership core to guide long-term strategies and daily operations. We also have tremendous global resources available to assist local staff, as requested, to meet your needs.

Our depth of staff enables us to meet the wide range of possible technical and schedule requirements. We look carefully at our existing project commitments as we develop our team organization to ensure that the personnel selected for each project will be available to proceed without delay. HDR has a proven and effective project controls system that assists each project manager in being proactive with regard to communications, schedule, budget, and quality control.
