1. Welcome to HP Software Support

Hewlett-Packard's Software Support team is committed to ensuring your success. This handbook provides guidelines and reference materials that will allow you to maximize your HP Software investment. It has never been quicker, easier, or more convenient for you to access our world class service.

While this handbook provides important information on almost everything you need to know about HP Software Support Services, we also want to encourage you to review our HP Software website at www.hp.com/go/software

Some restrictions may apply or processes may vary depending on your HP Software product, especially in cases of a third party software product. Any differences between products or changes to processes are highlighted on a best effort basis.

1.1 About HP Software Support

HP offers customers direct, high-quality, responsive technical support. We strive to create a support environment that provides the information you need more quickly, resulting in uptime maximization,

availability, and revenue generating potential in your environment. HP is dedicated to resolving your software product issues and helping you gain the most value possible from our product solutions.

HP Software Support brings a unique perspective built from serving thousands of HP Software customers for many years. Our Support team consists of seasoned Support engineers with skills and experience in HP Software technologies, as well as multi-platform environments. Additionally, we partner with over 60 HP Software Support Partners in 24 countries.

1.1.2 Inside Support – Our Customer Newsletter

Inside Support contains valuable information about customer successes, events and promotions, employee insights, and much more. Sign up for our quarterly customer newsletter at www.hpswssupport.com/insidesupport and click on "Subscribe to This Newsletter." By clicking on this link you will also be able to view the latest edition of the newsletter.

We offer various levels of support to fit your individual business needs:

9x5	Phone-in assistance from 8:00am to 5:00pm Monday to Friday during local business hours excluding HP holidays, patch downloads, product updates
24x7	Phone-in assistance 24 hours a day, including holidays and weekends, with prioritized support response, patch downloads and product updates
Premier	Proactive and personalized support with scalable offerings that consist of an assigned Enterprise Support Manager and/or Named Response Center Engineer, account support plan, accelerated support delivery, technical and/or business reviews as well as additional proactive and reactive features
All offerings above include web based 24x7 self solve support and HP Software Solutions Community. For more information visit www.hp.com/go/hpssoftwaresupport	
Education	HP Software Education is an innovative learning organization producing world-class training and delivering it in HP Learning Centers around the globe, private forums and virtually online. We help IT professionals extract greater value from their HP software investments, assuring they produce amazing outcomes by bringing innovation to life in the workplace.
Quickstarts	HP Software Professional Services Quickstarts accelerate time to value with packaged software deployment, upgrade and migration services, leveraging best practices developed through years of experience.

For more information on our HP Software Services offerings, please visit http://www.hp.com/go/hpssoftwaresupport/service_offerings

"HP is the leader in overall customer satisfaction for enterprise software support."

IDC Multiclient Study, Enterprise Software Support Services Customer Satisfaction and Value Study, February 2010

2. Important Reference Information

Use this page to keep track of important information specific to your licensing and support agreements with HP.

2.1 My HP Order Number

Your HP Sales Order number is the identifier used for licensing related activities.

IMPORTANT: MY HP ORDER NUMBER(S):

2.2 My Support Agreements

A Service Agreement ID (SAID) is your unique support identifier with HP. The SAID is required when contacting HP with questions and for accessing technical support. If you need to log an incident and have not received your SAID, please visit <https://support.openview.hp.com/entitlement/contracts> and select "Investigate contract" from the left hand menu. If you have an existing SAID and want to inquire about a Support contract, please log a non-technical incident at <http://support.openview.hp.com/casemanager/newincident> and select Problem category "Investigate support contract" in the pull-down menu. Both links require an HP Passport account.

IMPORTANT: MY SUPPORT AGREEMENT ID(S):

3. Managing Your Support Relationship With HP

3.1 HP Passport Account

Customers need to log into HP Passport to use various tools, for example Webware and My Updates.

3.1.1 Creating Your Account

To create a new HP Passport account, follow these easy steps:

- Go to the Software Support Online (SSO) website: www.hp.com/go/hpsoftwaresupport
- Click on "Register" at the top of the screen.
- Create a User ID and Password of your choice.
- Enter all required information.
- Please take the time to complete your entire HP profile because it is used for a variety of different HP websites. To do this, click on "Optional Contact Information".

HP recommends that each user of Software Support Online creates a separate HP Passport User ID under their own personal name. This helps to ensure that case incident communications are routed to the correct person.

3.1.2 Sign-In

Customers with an existing HP Passport account can sign in by clicking on "Sign-in with HP Passport" next to "Register".

If you forgot your User ID or Password or receive an error message when attempting to log in, please click on "Forgot Password" or "Forgot User ID".

Once signed into HP Passport, you can edit your profile at any time by clicking "Edit your profile" at the top of the page.

3.1.3 Linking an SAID to HP Passport

In order to access additional content, such as advanced self-solve, you will need to add your support contract's SAID.

- First log into HP Passport.
- Then click on "Check Entitlement" on the right of the Software Support Online (SSO) homepage.
- Enter the SAID provided to you as part of your HP support contract into the field, and click "Add".
- You will see any contracts that are already part of your profile.

For more information, visit the SSO tutorial: support.openview.hp.com/pdf/sso/index.html

3.2 Electronic Software Delivery

Most HP Software products are available for electronic software delivery. If you have purchased a product to be delivered electronically, your HP sales order must specify your HP Software product number with an "E" as the eighth character. For electronic software delivery or other sales order questions, please contact your HP sales representative or authorized HP partner.

3.3 Licensing Information

3.3.1 Implementation of Product – Obtaining Your Permanent License Key

Once you have purchased HP Software products, your support relationship begins with HP. Your initial set of media will be delivered to your company as either a physical shipment or an electronic delivery, depending upon the type of delivery you have selected. Many of the HP Software products are secured and you will need to request a license key in order to unlock the bits. If the product is secured, you will receive an Entitlement Certificate. If the product is unsecured you will receive a Right-to-Use Certificate.

Most HP Software products ship with an "instant on" capability to enable you to implement your product for 60 days. Upon expiration, you will be prompted to deploy your permanent license key. A license key is a string of characters that gives you access to the full functionality of the software. This license key could be tied to a specific system ID. If the product you purchased is secured by a license key, you have a number of options for retrieving the license key.

Online: www.webware.hp.com

- **Americas**
Phone: 800 326 0411 or +1 801 431 1597
Fax: +1 801 431 3654

- **Europe, Middle East and Africa**
Phone: +31 55 543 4642
Fax: +31 55 543 4645
E-mail: Europe_password@cnd.hp.com

NOTE: Your HP order number is required each time you request a license key. The HP order number can be found on your License Entitlement Certificate included in your product shipment.

Please note that third party product licensing may vary. Information on how to retrieve such license keys can be found on the License Entitlement Certificate.

The HP GlancePlus, GlancePlus Pak and other Performance Software products delivered through the HP-UX Application (DART) release media require a codeword to unlock the permanent install files from the CD or DVD media and enable the installation process. The required codeword may be requested electronically.

3.3.2 License Management

License Moves

In the event that you need to move your license to a new or different piece of equipment, you can do so easily online or through our licensing team.

- **Online at Webware:** www.webware.hp.com
- **Americas**
Phone: 800 326 0411 or +1 801 431 1597
Fax: +1 801 431 3654
E-mail: Americas_password@cnd.hp.com
- **Asia Pacific and Japan**

Ph: (within Jpn) 046 226 9260 Japanese Support
Fax: (outside Jpn) +81 46 226 9261
Fax: (within Jpn) 046 226 9261
E-mail: Asia_password@cnd.hp.com
- **Europe, Middle East and Africa**
Phone: +31 55 543 4642
Fax: +31 55 543 4645
E-mail: Europe_password@cnd.hp.com

NOTE: You will need to provide your HP order number if you contact a Licensing Center to request the license move. The HP order number can be found on your License Entitlement Certificate included in your product shipment.

For more detailed information regarding how to use HP's Webware site to obtain and manage permanent license keys, please review the Webware User Guide at www.webware.hp.com > Support > Webware User Guide.

For assistance with any of the licensing processes, please submit an incident at www.hp.com/go/hpsoftwaresupport/casemanager/submitcase and select non-technical/business for the type of case and Licensing as the problem category. This link requires an HP Passport account.

License Transfers

When an HP system changes ownership in the used marketplace, HP supports this transaction by permitting the transfer of software licenses for certain software products from one owner to another through HP's Software License Transfer process. This license transfer must be carried out in accordance with HP's published Software License Transfer process. For more information, visit www.hp.com/go/slt

Manage Licenses (License Tracking)

The Manage Licenses feature is part of Webware at www.webware.hp.com

The functionalities are:

- Report against any deployed licenses on behalf of your entire company/entity
- Review the inventory across all company sites
- Manage your licenses simultaneously, using the same log-in information (for example, move a license key to another server by changing IP addresses)

Reports will reflect HP Software products that require a license key deployed via Webware only. A list of applicable products is available at www.webware.hp.com

For more information on managing your HP Software licenses, please visit the Webware License Management Guide at www.webware.hp.com > Support > Webware User Guide.

[†] This guide is available in various languages.

Lost Entitlement Certificate

Your Entitlement or Right-to-Use Certificate contains your HP order number as well as HP Software products purchased. While an Entitlement or Right-to-Use Certificate is not required to request a permanent license, you should retain any certificates for your own reference and for compliance reasons. However, you must have a valid HP order number in order to request your permanent license key.

In case you lost your Entitlement or Right to Use Certificate and require a copy, please submit an incident at www.hp.com/go/hpsoftwaresupport/casemanager/submitcase and select non-technical/business for the type of case and Licensing as the problem category. If possible please also provide your HP order number.

4. Your Support Contract

In order to log a support incident, you will need to provide your Service Agreement ID (SAID) found as part of your support contract. Your SAID is a unique identifier for your support contract with HP. The SAID is printed on each contract and should be referenced whenever you are requesting technical support.

In the event that you have not yet received your support contract and SAID, you can still access technical support by calling your local phone number. For a list of local phone numbers, please visit support.openview.hp.com/contact_list.jsp

Your support contract details the HP Software products covered as well as the level of support you have purchased.

4.1 Renewing Your Support Contract

For your convenience, HP generates support contract renewal quotes approximately 90 days prior to expiration of your contract. It is important to review the renewal quote to avoid any disruption in service and support. Any questions pertaining to your quote should be directed to your HP sales representative or contract administrator. The name and contact information of your HP contracts administrator can be found on the quote. To review, revise and renew HP support contracts or to request assistance online, visit www.hp.com/go/hpsoftwaresupport/contract_maint

You will find links to Support Agreement Manager in your country, also known as Express for SMB customers and SCA for Enterprise customers and partners. The local websites also provide demos on how to use the online tool most effectively.

5. Technical Support

5.1 Logging a Support Incident

Technical support entitlement commences on the date of purchase. You can log incidents electronically or by phone. Once you have logged an incident, you will receive an incident ID within minutes. When a solution has been defined, your incident history will include the resolution; this way you can review your incident at any time and retrieve this valuable information for future reference. HP Software Support employs the Follow the Sun support model, ensuring complete coverage for our 24x7 customers.

5.1.1 Before Logging an Incident – Information Needed

- Support Agreement ID (SAID) of the contract that contains the product for which you need assistance
- Your contact information
- System information – what product is failing? Which version? What machine is the product running on?
- Problem Description – What are the expected results, What are the symptoms?
- Nature of problem – When did the problem begin? What has changed since it last functioned? Can the problem be reproduced?

5.1.2 Submitting an Incident Electronically

Logging an incident online is the most efficient and effective way of detailing your problem. Logging incidents online allows an unlimited amount of users in your environment to log the incident.

Prior to submitting incidents online, please make sure to register at Software Support Online by creating an HP Passport account. For details see section 3.1.

You are then ready to log the incident at www.hp.com/go/hpsoftwaresupport/casemanager/submitcase

When submitting an incident, please make sure to select the appropriate severity level. Severity levels and response time goals are:

Response Time Goals	Severity Level 1	Severity Level 2	Severity Level 3	Severity Level 4
9x5: Local business hours and local business days	2 hours	6 hours	8 hours	1 business day
24x7: Monday–Sunday, including all bank, public and HP holidays	1 hour with prioritized support response	4 hours	6 business hours	1 business day
Definition	Production system is down HP product is unusable resulting in total disruption of work or other critical business impact No workaround is available	Major feature/function failure Operations are severely restricted. A workaround is available	Minor feature/function failure Product does not operate as designed, minor impact on usage, acceptable workaround deployed	Minor problem Documentation, general information, enhancement request, etc

Response time goals are provided as typical initial response times to support requests. Response time goals in no way create a legal requirement or obligation for HP to always provide such response in the stated time.

For newly received Severity Level 1 incidents, HP will confirm through discussion with the customer that the incident fulfills the criteria of “production application down,” and HP reserves the right to downgrade, in case the incident does not.

5.1.3 Opening an Incident by Phone

Your support contract contains the local HP Response Center phone number. You can also go to support.openview.hp.com/contact_list.jsp to review the HP Response Center phone numbers by country. Please remember that you will be asked to provide your SAID when you log an incident.

5.1.4 Status Review

The easiest way to check the status of support incidents is by accessing HP Software Support Online. You may also call HP to request status information. Online incident logging allows you to track your incident at www.hp.com/go/hpsoftwaresupport/casemanager/submitcase > Advanced Case Search.

In order to track incidents online, you will need to create an HP Passport account and edit your profile to include the SAID(s) for your HP Software products. Please see section 3.1 for information on how to link an SAID to your HP Passport account.

The following information describes the possible status that may be assigned:

Open: Incident submitted and additional information is needed (subcategory is Callback: customer has requested a call or e-mail from the incident owner).

In progress: An HP engineer is working on the incident (subcategories are Pending customer: HP staff are waiting for the customer to respond/provide required information for incident resolution; Pending internal: The engineer assigned to the incident is waiting for additional information related to resolution from other HP entities).

Suspended: Time-based “on hold” status based on customer’s request.

Closed: The incident has been resolved or the customer could not be reached after multiple attempts to contact.

5.1.5 Incident Review by HP Software Support Duty Manager

In case of concerns regarding the progress of your incident, please contact the engineer who owns the incident to make sure it was properly prioritized based on your business situation and urgency. You may also contact the on-call HP Software Support Duty Manager:

In the U.S. and Canada:

You may contact the Duty Manager directly by following these steps:

- Call the HP Response Center at 1-800 633 3600
- Say, "Existing Case"
- Enter Case ID
- Ask for the person taking your call to engage the HP Software Support Duty Manager

Outside the U.S. and Canada:

Please call your country specific Response Center and ask for the person taking your call to engage the HP Software Support Duty Manager. Local Software Support center phone numbers can be found at support.openview.hp.com/contact_list.jsp

Please make sure to emphasize that you want to speak with an HP Software Support Duty Manager because multiple product Duty Managers exist within HP. You will need to provide your case incident ID and a brief explanation of why you wish to contact the Duty Manager. Our goal is to have an HP Software Support manager respond back to you within 2 hours after your initial request for the Duty Manager. The manager may not have an immediate solution to your problem but will work with you to understand your difficulty and to agree on a plan to address it.

6. Support Tools

6.1 Software Support Online (SSO)

Software Support Online is an online support tool that provides a fast and efficient way to access interactive technical support tools needed to manage and optimize your business.

- Online access to HP Software's large knowledgebase
- Online case submittal and tracking
- Discussion Forum
- Support Contract Management
- Information on available HP Software Services and Support offerings
- Software updates and patches
- Electronic manuals
- Obsolescence policy
- Enhancement requests
- E-Notification of new information about your HP Software products
- Latest information on HP Software Support

For information on how to navigate Software Support Online and to take full advantage of all of its features, please take a few minutes to review the online training guide at support.openview.hp.com/pdf/sso/index.html

6.1.1 Accessing Software Support Online

www.hp.com/go/hpsoftwaresupport

Software Support Online content is protected with different levels of access:

- **Public Content** – Content is readily accessible to anyone. It requires no additional authorization to access.
- **HP Passport User ID Required**  – Requires HP Passport user ID and password to access content. To establish an HP Passport account, see section 3.1. Each member of your team should create their own user ID and password.
- **Contract Required**  – Requires active software support contract and HP Passport account to access content. Linking an active contract to HP Passport can be done by following the easy steps described in 3.1.3 “Linking an SAID to HP Passport”.

Note: IT Resource Center (ITRC) User IDs cannot be used to submit or track a support case on this site.

6.1.2 Software Support Online Tutorial

Please take the time to watch the SSO Tutorial at support.openview.hp.com/pdf/sso/index.html

The tutorial assists HP customers in the effective use of this self-service support website. It provides information on HP Passport, case manager, self-solve knowledge search, patches, product manuals and updates.

6.1.3 Self-Solve Knowledge Search

HP’s self-solve knowledge search provides immediate, easy-to-use recommendations from HP knowledge sources and technical forums. This tool is available 24x7 online to assist you and your staff in finding information needed to resolve software issues. With an improved user-friendly interface and advanced search options, you can get to the information you need even faster.

6.1.4 My Updates – Software Update Portal

My Updates replaced Software Update Manager for HP Software products.

HP Software Support customers can download the latest version of software from My Updates. You will need your HP Passport log-in and Support Agreement Identifier (SAID) to access My Updates. My Updates can be accessed from the SSO portal at www.hp.com/software/updates

Advantages of My Updates include:

- Direct access using a single sign-on to the portal from Software Support Online (at www.hp.com/go/hpsoftwaresupport > Downloads or directly through www.hp.com/software/updates).
- Easy download of the latest software version under support.

- Access to all available software update versions.
- Accessible by multiple persons.

Support customers can tie their support agreement identifiers (SAID) to their HP Passport profile. Please see section 3.1 on how to do so.

SAIDs will be listed in the users view at My Updates under “select an SAID”. Further information on My Updates can be found in the frequently asked questions section of the My Update portal.

Customers can also register for HP Alerts to receive proactive email notifications of product updates, obsolescence, and migration information. This can be done at www.hp.com/go/driversignup

6.1.5 Patches

Search and download the latest patches: support.openview.hp.com/selfsolve/patches

This link requires an HP Passport account.

Sign up for email patch notification at support.openview.hp.com/enotification/main

6.1.6 Security Bulletins

Customers can report security issues directly to HP by following three easy steps:

- Go to www.hp.com
- Select “Contact HP / Customer Service” under “Customer Support” in the bottom right corner
- Select “Report a Software Security Issue” in the upper left corner
- Fill out the form and click “Submit” to report potential security vulnerabilities to the HP Software Security Response Team (SSRT).

To sign up for Security Bulletins, go to support.openview.hp.com/security_bulletins.jsp

6.1.7 Manuals

Search and download the latest manuals: www.docs.hp.com

6.1.8 HP Software Support Lifecycle Information

HP Software is committed to providing the highest level of customer care throughout the product lifecycle. This includes enabling you to determine future strategies for your software investments as supported products and versions reach maturity. For an overview of the most current HP Software product obsolescence policy as well as an overview of end of support announcements, please visit: support.openview.hp.com/prod-sppt-lifecycle/index.jsp

Once you subscribe to HP Alerts and select the products you wish to be notified about; you will receive email updates on end of support announcements and migration options available. HP Alerts can be found at <http://www.hp.com/go/driversignup>

6.1.9 Non-Technical Incident Logging

Non-technical incident logging provides you with the opportunity to ask questions that are non-technical in nature. This could relate to using our website, general licensing, or your support contract. Please log such questions at www.hp.com/go/hpsoftwaresupport/casemanager/submitcase

Select the non-technical case radio button on the right hand side of the website and indicate the general category of your question. Once submitted, an HP representative will be in contact with you regarding your incident status.

6.1.10 HP Discussion Forum

Customers can participate in discussion forums with other HP Software customers through the Discussion Forum link. The HP Support Forum is an online community for peer-to-peer technical support and knowledge sharing. Like-minded professionals gather to exchange knowledge, best practices, and experience. Information on the discussion forums can be found at forums.itrc.hp.com/ > Management software and system tools or directly at forums11.itrc.hp.com/service/forums/familyhome.do?familyId=121

6.1.11 Support Matrices

Support matrices provide you with an overview of compatibility of HP Software products with certain operating systems of other software products: <http://support.openview.hp.com/sc/supportmatrices.jsp>. Access to support matrices requires an active support contract.

7. HP Software Solutions Community

The HP Software Solutions Community combines social media technologies with established HP customer communication channels to create a single virtual meeting place where you can get information and interact with your peers and HP Support experts.

Everything you need to get the most out of your HP solutions and support

- Services, support, and education
- Interaction with your peers
- Access to HP experts
- Blogs, events, articles, and more
- Powerful search capabilities

Familiar resources in a dynamic new context

- As we phase out the HP Customer Connection program, subscribers are encouraged to join the HP Software Solutions Community.
- In addition to contact with other HP software users, you'll have a link between your formal support via HP Software Support Online and the dynamic interaction of the customer community at large.
- The Management Software forums will continue to exist and, in June 2011, these ITRC forums will migrate to the new community platform. This will provide you with both current and archived forums in one place.

To join in the discussions, visit www.hp.com/go/swcommunity

8. Enhancement Requests

Enhancement requests (ERs) are handled with different response procedures than technical incidents. HP Software Support staff, product development teams and marketing departments review each request for feasibility. Although HP cannot guarantee that every request will result in an enhancement, we consider the business case for each request very carefully because these requests help us improve our products. Enhancements that are accepted are in general released with the creation of a new version of our software.

If you do have an enhancement request that is critical to your environment and has an important business impact by not having the feature, you may start the Business Escalation Process. This process can only be initialized by your sales representative, as the financial impact of not having this feature needs to be clearly stated.

To log all other enhancement requests please visit www.hp.com/go/hpsupport. Once on the main Software Support Online page, select "Submit an enhancement request" listed in the shortcut menu. Please note that an active support contract is required.

You can track the status of an enhancement request at Software Support Online by using the advanced search and entering the Enhancement Request (ER) number. You can register your email address for an ER and receive proactive emails as the ER progresses through the development process.

9. Extending Your Support Offering

HP Software offers a breadth of support offerings that will assist you in optimizing your HP Software environment. HP Software Support programs help you achieve the highest Return on Investment for your HP Software. Our staff augments your staff to best manage HP Software in your IT environment. Maximize your return, improve and maintain continuity, stability, and performance.

For more information on all of our Support offerings, please visit www.hp.com/go/hpsoftwaresupport/support_options.

Delivery of support is governed by HP Software Support's datasheets and your individual support agreement with HP (collectively, the "Agreement"). To the extent there are any differences between the Agreement and this handbook, the Agreement shall govern.

* Does not include NRCE assistance

With HP Software Premier Support you can choose from a Named Response Center Engineer (NRCE) and/or an Enterprise Support Account Manager (ESM).

You can further customize Premier Support by having additional team days.

10. Additional HP Software Services Offerings

We want to help you unlock the full value of your HP Software investment! Please make sure that you review our complete set of service offerings, which include Support, Software-as-a-Service and Professional Services. In case of any questions related to our offerings, contact your HP Sales Representative or HP Software Authorized Partner. You may also visit www.hp.com/go/hpsoftwaresupport/support_options for more information.

10.1 Education Services

Make the most of HP Software with training from HP at www.hp.com/software/education

10.2 Consulting

HP Professional Services provides best practice experience and productized services, exclusively focused on HP Software across the landscape of IT initiatives. Professional Services mentors, trains and enables you to align business outcomes with your investment and trust in HP's Software. For more information please visit the BTO Consulting website at www.hp.com/go/BTOprofessionalservices or our IM Consulting website at www.hp.com/go/IMprofessionalservices

10.3 Software-as-a-Service (SaaS)

HP Software-as-a-Service (SaaS) provides a pre-deployed infrastructure over a secure Internet connection, as well as 24x7 support for select HP Software Business Technology Optimization (BTO) products. You achieve your desired business outcomes more quickly while minimizing risk and reducing IT complexity. <http://saas.hp.com>

11. Appendix

11.1. Support Contract Sample

The HP Software support contract usually contains multiple pages. The first page provides high-level information about your account and various contact information. Please make sure that your contact information is always up to date. The second and any following pages go into details as to what HP Software products are part of your support contract.

If a support contract is a renewal support contract, and is no longer covered by the upfront payment as part of the license purchase, the following two pages (in our example below pages three and four), will then go into payment details. Our example does not include pricing and, therefore, no payment information is listed.

1. Customer address and contact information – states where contract is being sent

Support Account Overview

AMP ID: 0339477440
Special Terms and Conditions No:

Customer Address:
Mr. Contactperson
1234 Contactperson Street
Mount Laurel NJ 08054-4635

Hewlett-Packard Address:
HEWLETT-PACKARD COMPANY
8000 Foothills Blvd MS 5638
ROSEVILLE CA 95747-5638

Customer Contact:
Mr. Contactperson

Taxes have been added at current rate, however, tax rates will be those in effect at the time of invoicing.
Total price includes all additions, deletions, warranties, discounts and adjustments if applicable.

9. This page will state the payment schedule for the particular support contract

Payment Schedule as of 12/17/2007

Applicable tax to be added to the invoice.

11.2 Frequently Asked Questions and Answers

<http://support.openview.hp.com/faq.jsp>

Question: What is an SAID or Service Agreement ID?

Answer: The HP SAID is an identifier for your support contract with HP.

Question: Why does a customer need an SAID?

Answer: An SAID is required for access to secured pages of HP's Software Support Online (SSO) portal. An SAID is also needed for incident logging via SSO as well as over the phone.

Question: Where can I find my SAID?

Answer: Your SAID can be found as part of your HP support contract. If you have not received your support contract or you cannot find your SAID, please visit support.openview.hp.com/entitlement/contracts and select "Investigate contract" from the left hand menu.

Question: What is HP Software Support Online (SSO)?

Answer: HP Software Support Online is a fast, efficient way to access interactive technical support tools and account information for your HP Software solutions. With Software Support Online, you have around-the-clock online access to the information and tools used by HP Software support experts, such as the knowledge database for troubleshooting and product information. SSO also provides the capability to manage your account with access to information and tools for licenses, updates, and patches.

Question: Does user contributed information get posted to SSO's knowledge base?

Answer: User contribution may be considered for possible enhancement of our knowledge base.

Question: How can I set my own search preferences for incident searches?

Answer: We are currently not offering a personalized search memory.

Question: What is the response time for a logged incident?

Answer: Response times vary depending on your level of support and severity level.

Question: How do I find out my HP Order Number?

Answer: Your Entitlement or Right-to-Use Certificate contains your HP order number as well as HP Software products purchased. While an Entitlement or Right-to-Use Certificate is not required to request a permanent license, you should retain any certificates for your own reference and for compliance reasons. However, you must have a valid HP order number in order to request your permanent license key.

Question: I can no longer find my License Entitlement Certificate. What can I do?

Answer: Please log a non-technical incident at www.hp.com/go/hpsoftwaresupport/casemanager/submitcase > Submit a new case > Non-technical/business > Problem Category > Licensing. Please enter Entitlement Certificate copy request in the case title.

Question: There are multiple websites within HP, such as ITRC and Webware, etc. Are there any plans to combine these websites?

Answer: No. Currently we do not have plans but will take this into consideration.

Question: I have only one corporate e-mail account, but would like to create additional HP Passport log-ins. Should I use my personal accounts?

Answer: No. We recommend you acquire an additional company e-mail address or have a team member create a log-in.

Question: Do I need to enter the SAID into HP SSO with spaces?

Answer: No. SSO will automatically delete the spaces.

Amazing Outcomes Assured.
For HP Software Support
that's more than a tag line;
it's a commitment to put our
customers' success first.

We know Support Services
is an important factor in the
decision to adopt a software
solution. The goal of every
HP Software Support
employee is to deliver a
'wow' experience every time,
and help customers realize the
full value of their investment
in HP Software Solutions.

**Aileen Allkins, Vice President,
HP Software Support**
