Insight
6820 South Harl Avenue
Tempe, AZ 85283

To Whom It May Concern:

In regard to your request for verification, Insight is an authorized reseller of Nuance products in the corporate, government and education markets. The Insight sales organization is able to offer both box product and licensing procurement options to their customers. Insight can choose the lowest cost option available at that time to obtain the products, whether that means obtaining the products through distribution or directly from Nuance.

Nuance does not perform a formal ranking of its certified partners, however, Insight is third place in terms of sales to Nuance among Nuance's managed partners. Nuance invests in account management for six resellers and Insight is included in that list.

Lastly, our two companies have long engaged in co-branded marketing activities geared toward educating end users of the productivity gains resulting from the deployment of Nuance software. As a result, our business relationship goes full circle from training Insight employees, to educating customers, to ensuring quality customer service for those customers who choose to purchase Nuance software.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jordan Michael". The signature is fluid and cursive, with a large initial "J".
