f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Scope of Services:

- Environmental planning
- Landscape architecture
- Public involvement
- Hardscape/irrigation design
- Theming
- Construction administration
- Coordination with the City's public art program

Size: 10-foot-wide, 2,100-foot-long linear concrete multi-use path

Dates: August 2013-August 2015

Logan Simpson assisted FHWA, ADOT, and the City of Tempe with environmental compliance and necessary technical resources reports for the construction of a new multi-use pathway located within a public alley between Rural Road and Kiwanis Park in Tempe.

Logan Simpson prepared a NEPA-compliant Categorical Exclusion document, completed cultural resources documentation for consultation, Section 4(f) and 6(f) documentation for consultation, an urban biological evaluation, and assisted with public outreach, including attendance at public meetings and addressing public scoping comments. The Logan Simpson designed project will improve east-west bike and pedestrian movement, safety, and connectivity within the city by providing a separated, non-motorized, ADA accessible path for bicyclists and pedestrians from Rural Road to Kiwanis Park, a major recreation destination, and to adjacent and nearby commercial employment areas. The project includes a paved path, lighting, landscaping, public art and other amenities.

The project continues Tempe's commitment to multi-modal transportation and improving upon what is already the highest percentage of bicycle commuters in the state.

The project is both a recreational amenity (linear park) and a transportation corridor making it relevant to other agencies which have similar spaces and needs.

a. TITLE AND LOCATION <i>(City and State)</i> Desert Arroyo. Mesa, AZ		b. YEAR COMPLETED	
		PROFESSIONAL SERVICES 2015	CONSTRUCTION <i>(If applicable)</i> 2015
23. PROJECT OWNER'S INFORMATION			
c. PROJECT OWNER City of Mesa	d. ORIGINAL BUDGET/NTE AMOUNT OF PROJECT \$103,802	e. TOTAL COST OF PROJECT \$1.85 million	

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Scope of Services:

- Landscape architecture
- Native plant survey/salvage
- Public involvement
- Hardscape/irrigation design
- Theming
- Construction administration
- Coordination with the school district

Size: 58-acres

Dates: July 2013-August 2015

Logan Simpson designed this 58-acre park on a parcel of native desert uplands adjacent to Zaharis Elementary School. The landscape architecture design focuses on experiencing the native desert. An existing desert arroyo was enhanced to develop an interpretive educational experience. A looped trail system and an outdoor desert classroom provides opportunities for environmental education. Additional improvements include site access, trails and interpretative signage, shaded picnic ramadas, gathering spaces, and parking. During construction, more than 115 trees were protected, along with 150 Saguaros, barrel cactus and ocotillos. The southeast corner of the property is planned for a future Maricopa County Flood Control storm water retention area as outlined in the Spook Hill Area Drainage Master Plan.

The park also offers walking paths and trails for hikers and non-motorized bikers:

- ¼ mile Botanical Walk with plant interpretative signs
- ½ mile paved Discovery Loop connecting the educational nodes
- ¾ mile Explorers Path – multiuse for hikers & non-motorized bikers

5. EXAMPLE PROJECTS WHICH BEST ILLUSTRATE PROPOSED TEAM'S QUALIFICATIONS FOR THIS CONTRACT

a. TITLE AND LOCATION <i>(City and State)</i> SR 347/Union Pacific Railroad Overpass EA. Maricopa, AZ		b. YEAR COMPLETED	
		PROFESSIONAL SERVICES 2015	CONSTRUCTION <i>(If applicable)</i>
23. PROJECT OWNER'S INFORMATION			
c. PROJECT OWNER ADOT	d. ORIGINAL BUDGET/NTE AMOUNT OF PROJECT \$216,313	e. TOTAL COST OF PROJECT \$54.9 million, estimated	

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Scope of Services:

- Environmental planning
- Public Involvement

Size: 1.5 miles long

Dates: October 2012-April 2015

Logan Simpson prepared an EA for a grade-separated crossing over the Union Pacific Railroad. SR 347 is a north-south roadway that crosses the Union Pacific Railroad in the center of the City of Maricopa. When trains pass through the city, traffic on SR 347 is stopped. The nearest alternative crossings require several miles of out-of-direction travel to reach. With growth in the area anticipated to continue, resolving congestion and train-caused traffic delays has become a high priority for the City of Maricopa, ADOT, and regional transportation officials. Ten build alternatives were evaluated and a preferred alternative was selected. The Arizona environmental planning project will require the acquisition of several properties, the relocation of the existing Amtrak station, and will include local roadway realignments and modifications. The project involved extensive public outreach meetings and continual agency coordination. The primary concerns raised by the community centered around the potential acquisition and access impacts to businesses, rerouting traffic to roads that are already congested particularly during peak hours, increased noise levels, the effects to community facilities, and the project's accommodation of bicyclists and pedestrians. The FHWA issued a Finding of No Significant Impact in March 2015.

Project Highlights:

- 34,000 vehicles a day using SR 347 compete with the 60 trains a day traveling the Union Pacific.
- The estimated \$55 million overpass project will greatly enhance traffic safety, allow better access for first responders, and alleviate traffic backups.
- The City of Maricopa is funding Phase I of the project, which is the relocation of the AMTRAK station.

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Scope of Services:

- Class III Cultural Resources Survey

Size: 11,070 acres

Dates: September 2014-April 2015

Logan Simpson performed a Class III cultural resources survey of the Brenda, Gillespie, and Agua Caliente Solar Energy Zones (SEZs), a total of 11,070 acres, located in La Paz, Maricopa, and Yuma counties. The survey was conducted to assist BLM with their obligations under Section 110 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470).

Logan Simpson identified and recorded 158 sites, including prehistoric artifacts scatters with and without features, a prehistoric village, historic roads, a historic landing strip, and a historic tank tracks associated with the nearby WWII-era Camp Horn.

Logan Simpson prepared a Class III Cultural Resources results reports to current BLM and State Historic Preservation Office standards that offered Arizona and National Register of Historic Places eligibility recommendations, as well as recommendations of project effect on these resources.

f. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT

Scope of Services:

- Landscape Architecture
- Conceptual Design Alternatives
- Construction Administration

Size: 75 acres

Dates: April 2013- September 2015

Logan Simpson completed conceptual alternatives analysis and the design development for Phase 1, including access and parking improvements, a new picnic area and dog park, and fencing, lighting, and irrigation improvements to the athletic fields.

Logan Simpson designed the city's \$2M investment in response to the community's desire to create a balance between recreational use and a neighborhood amenity. The design includes sports fields as well as picnic areas, aquatic facilities and playgrounds integrated into a natural desert environment.

The City of Avondale is enhancing the park facilities at the 75-acre Friendship Park in three phases to provide for the needs of the neighborhood, as well as community-wide activities, events, and youth sports. The City's goal is to improve facilities for revenue-generating events, such as soccer tournaments, movies, concerts, and fairs. Future phases include connections to the Aqua Fria trail system, upgrading buildings, spectator facilities, playgrounds, trails, lighting, wayfinding, and other use areas.
