Sole Proprietor	Sole Proprietor
Limited Liability Company	Limited Liability Company or Professional Limited Liability Company

1.0 Five (5) Example Projects

List no more than five (5) example projects which best illustrate firm’s qualification for this contract in the chart provided below. Select projects where multiple team members worked together, if possible, that demonstrate the team’s capability to perform work similar to that required for this qualifications list contract. [\(NOTE: The integrity of the chart table columns shall remain unchanged, however the rows for each project may be expanded by the Offeror to accommodate the information\).](#)

- a. Title and Locations of project or contract. For an indefinite delivery contract, the location is the geographic scope of the contract.
- b. Enter the year completed of the professional services (such as planning, engineering study, or design), and/or the year completed if construction. If any of the professional services or the construction projects are not complete, leave Year Completed blank and indicate the status in Brief Description of Project and Relevance to This Contract (block f).
- c. Project Owner or user, such as a government agency or installation, an institution, a corporation or private individual.
- d. Provide the original budget or not to exceed dollar amount for the project.
- e. Provide the Total Cost of the Project. If any of the professional services or construction projects is not complete, indicate the percentage complete and whether this project will be on budget, over or under budget.
- f. Brief Description: Indicate scope, size, and length of project, principle elements and special features of the project. Discuss the relevance of the example project to this contract.

Title and Location of Project	Design Completion Year	Construction Completion Year	Project Owner	Project Original Budget (or not to exceed amount)	Total Cost of the Project	Brief Description of Project
City of Flagstaff Geotechnical Engineering, Flagstaff-Pulliam Airport Runway 3-21 Mill & Overlay and Runway Shoulder Paving, Flagstaff, Arizona	2017	2017	City of Flagstaff	\$94K (Construction Cost)	\$94K	During the design phase of this project, QT performed a project geotechnical study for the runway shoulder pavement design in accordance with the latest FAA circular 150/5320-6F. A total of 7 soil borings along the entire runway length were performed and various undisturbed samples were collected and tested in QT's laboratory in Gilbert. Field boring logs were created to reflect laboratory test results and the structural section of the runway shoulder was designed using the FAA's FARFIELD software. In addition to the geotechnical study and design, QT also performed all materials acceptance testing during construction, including performance grade (PG) binder verification testing.
FCDMC, Quality Assurance (QA) Testing, Vineyard Road Flood Retarding Structure (FRS) Rehabilitation Project, Pinal County, Arizona	N/A		Flood Control District of Maricopa County (FCDMC)	\$80M (Construction Cost)	50% complete. Under budget to date, ongoing.	In 2015, an \$80M, CMAR construction project began that will raise the Vineyard Road FRS (earthen dam) by 15 feet, nearly doubling its height and capacity. Involving highly controlled structural embankment and filter materials, the testing demand for this project is well above the norm. QT was selected by the FCDMC for this federally funded contract on the basis of qualifications, and has since provided all quality assurance and acceptance materials testing; all materials management services; and task defined construction management and inspection services, geotechnical services, construction surveying and environmental services. The material controls and project documentation demands on this project are immense. Nearly 5000 soil density tests were conducted during the first year of this multi-year, multi-phase project.

ADOT, On-Call Materials Testing Contracts, Multiple locations across Arizona	N/A	Multiple projects assigned between 2002 and 2017. All assigned projects are complete.	Arizona Department of Transportation (ADOT)	Typical assignments ranged from \$300K to \$600K for QT's professional services.	All assignments were completed within approved budgets.	Although ADOT maintains their own materials testing laboratories throughout the State, in many cases, due to short term staffing or resource shortages, they will rely upon their On-Call Materials Testing contracts for additional support. Materials Testing firms are assigned responsibility for parts of projects, entire projects, or groups of projects, depending on specific needs. ADOT's Construction & Materials Section initially selected QT in 2002 for a multi-year On-Call Contract, re-selected us for a new multi-year contract in 2006, and then re-selected us again in 2009, which remains as the current active contract. Firms are selected for this contract on the basis of qualifications and past performance, so in 2009 we were quite proud when we were advised by ADOT Engineering Consultant Services that we had been ranked No. 1 by the selection committee. As a prime consultant for the past 15 years, QT has continuously provided field and laboratory material acceptance testing and materials management services to ADOT throughout the State.
City of Phoenix, On-Call Soils and Materials Testing Contracts, Phoenix, Arizona	N/A	Multiple projects assigned between 2003 and 2017. All assigned projects complete to date.	City of Phoenix	Typical assignments had a budget of \$900K per contract period for QT's professional services.	All assignments were completed within approved budgets.	The City of Phoenix initially selected QT for their On-Call Soils and Materials Testing Contract in 2003. Because of the high quality and reliable service provided by QT, Phoenix has continued to select QT for either new or extended contracts each year since then. As of the date on this SOQ, QT has been assigned primary testing responsibility on well over 175 street, water services, parks and other types of projects.
ADOT Temporary Technical Engineering Personnel (Temp Tech), Multiple locations across Arizona	N/A	Multiple technical personnel assigned between 2003 & 2017. All assigned projects complete to date.	ADOT	Typical cumulative assignment budgets for each year ranged from \$1M to \$3M for QT's professional services.	All assignments were completed within approved budgets.	QT was awarded a prime contract with ADOT in 2003 to provide inspection and materials testing technicians for field and lab assignments on various projects. Since that time, QT has also served on eight other ADOT Temp Tech contracts. In this capacity, our technicians are assigned directly to construction offices and work

						directly for the construction Resident Engineer and other inspection staff. Between 2003 and mid-2017, QT has completed over 300 assignments through these Temp Tech contracts. While many of these assignments involved higher level inspection duties, most assignments involved QT technicians performing sampling and testing in the field, or performing laboratory acceptance testing associated with project soils, aggregates, concrete and bituminous mixtures. Several QT assignments also involved hot plant and batch plant inspection duties.

Attachment 3-E Israel Boycott Form

All materials submitted as part of a response to a solicitation are subject to Arizona public records law and will be disclosed if there is an appropriate public records request at the time of or after the award of the contract. Recently legislation has been enacted to prohibit the state from contracting with companies currently engaged in a boycott of Israel. To ensure compliance with A.R.S. §35-393.01. This form must be completed and returned with the response to the solicitation and any supporting information to assist the State in making its determination of compliance.

As defined by A.R.S. §35-393.01:

1. "Boycott" means engaging in a refusal to deal, terminating business activities or performing other actions that are intended to limit commercial relations with Israel or with persons or entities doing business in Israel or in territories controlled by Israel, if those actions are taken either:
 - (a) In compliance with or adherence to calls for a boycott of Israel other than those boycotts to which 50 United States Code section 4607(c) applies.
 - (b) In a manner that discriminates on the basis of nationality, national origin or religion and that is not based on a valid business reason.
2. "Company" means a sole proprietorship, organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, limited liability company or other entity or business association, and includes a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate.
3. "Direct holdings" means all publicly traded securities of a company that are held directly by the state treasurer or a retirement system in an actively managed account or fund in which the retirement system owns all shares or interests.
4. "Indirect holdings" means all securities of a company that are held in an account or fund, including a mutual fund, that is managed by one or more persons who are not employed by the state treasurer or a retirement system, if the state treasurer or retirement system owns shares or interests either:
 - (a) together with other investors that are not subject to this section.
 - (b) that are held in an index fund.
5. "Public entity" means this State, a political subdivision of this STATE or an agency, board, commission or department of this state or a political subdivision of this state.
6. "Public fund" means the state treasurer or a retirement system.
7. "Restricted companies" means companies that boycott Israel.
8. "Retirement system" means a retirement plan or system that is established by or pursuant to title 38.

All offerors must select one of the following:

- X My company **does not** participate in, and agrees not to participate in during the term of the contract a boycott of Israel in accordance with A.R.S. §35-393.01. I understand that my entire response will become public record in accordance with A.A.C. R2-7-C317.
- My company **does** participate in a boycott of Israel as defined by A.R.S. §35-393.01. :

By submitting this response, proposer agrees to indemnify and hold the State, its agents and employees, harmless from any claims or causes of action relating to the State's action based upon reliance on the above representations, including the payment of all costs and attorney fees incurred by the State in defending such an action.

Attachment 5-A
Confidential Information Designation

All materials submitted as part of a response to a solicitation are subject to Arizona public records law and will be disclosed if there is an appropriate public records request at the time of or after the award of the contract. Recognizing there may be materials included in a solicitation response that are proprietary or a trade secret, a process is set out in A.A.C. R2-7-103 (copy attached) that will allow qualifying materials to be designated as confidential and excluded from disclosure. For purposes of this process the definition of "trade secret" will be the same as that set out in A.A.C. R2-7-101(52).

Complete this form return it with your Offer along with the appropriate supporting information to assist State in making its determination as to whether any of the materials submitted as part of your Offer should be designated confidential because the material is proprietary or a trade secret and therefore not subject to disclosure.

STATE WILL NOT CONSIDER ANY MATERIAL IN YOUR OFFER "CONFIDENTIAL" UNLESS DESIGNATED ON THIS FORM.

Check one of the following – if neither is checked, State will assume that as equivalent to "DOES NOT":

<input checked="" type="checkbox"/>	This response DOES NOT contain proprietary or trade secret information. I understand that my entire response will become public record in accordance with A.A.C. R2-7-C317.
<input type="checkbox"/>	This response DOES contain trade secret information because it contains information that: <ol style="list-style-type: none"> 1. Is a formula, pattern, compilation, program, device, method, technique or process, AND 2. Derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; AND 3. Is the subject of efforts by myself or my organization that are reasonable under the circumstances to maintain its secrecy.

NOTE: Failure to attach an explanation may result in a determination that the information does not meet the statutory trade secret definition. All information that does not meet the definition of trade secret as defined by A.A.C. R2-7-101(52) will become public in accordance with A.A.C. R2-7-C317. State may make its own determination on materials in accordance with A.A.C. R2-7-103.

If State agrees with Offeror's designation of trade secret or confidentiality and the determination is challenged, the undersigned hereby agrees to cooperate and support the defense of the determination with all interested parties, including legal counsel or other necessary assistance.

By submitting this response, Offeror agrees that the entire Offer, including confidential, trade secret and proprietary information may be shared with an evaluation committee and technical advisors during the evaluation process. Offeror agrees to indemnify and hold State, its agents and employees, harmless from any claims or causes of action relating to State's withholding of information based upon reliance on the above representations, including the payment of all costs and attorney fees incurred by State in defending such an action.
