Wesley Bolin Plaza Memorial Park at the Arizona State Capitol is the location of a new memorial erected in Phoenix, Arizona honoring the 1,902 men and women of Arizona that sacrificed their lives in WWII. Two gun barrels will flank Mediterranean Blue steel pylons bearing dogtag-style placards with the names of the fallen soldiers on them. The color was chosen to match that of the exterior of the USS Arizona. The nine pieces of the structure, representing the 9 minutes of the sinking of the USS Arizona, will be arranged in a design to give the feeling of the vessel's silhouette.

Providing milestone cost estimating services for a new Veterans cemetery facility for Northern Arizona. Site access from the public way will be shared with Camp Navajo. The master plan process will determine the maximum internment capacity of this site as well as all other features of this site, including but not limited to: entry features, roads, utilities and parking infrastructure, an avenue of flags, an assembly area, full casket gravesites in pre-place crypts, committal service shelter, columbarium niches and in ground cremains burial sites, memorial walk, administration and public information buildings, public restroom, maintenance building and service yard, irrigation system and carillon tower. The master plan shall determine appropriate quantities sufficient enough to support a ten year projection of burial needs. The master plan and design development will include all appropriate engineering and Architect/Engineer disciplines and an estimate of construction cost. Initial funding for design is provided from the operating budget of ADVS; construction will be funded by the United States Department of Veteran Affairs, subject to availability and approval of the design. The anticipated funding date for construction is the Federal Fiscal Year beginning October 1, 2013. The cemetery will require new service for water, waste water, electrical, natural gas and communication, all currently available to the site. Criminal Background checks will be required for all personnel working on this project.

Rider Levett Bucknall is a leading professional advisory firm providing clients with independent, unbiased, expert advice and management for all aspects of feasibility, cost and time of major construction projects, from project conception and site acquisition to final completion and commissioning. Established in 1785, Rider Levett Bucknall is a truly global practice with more than 100 offices around the world. The success of these offices has made Rider Levett Bucknall one of the most widely experienced construction cost consulting and quantity surveying firms in the world.

Our North American headquarters is in Phoenix, Arizona we have 3,000 staff worldwide. Although we are a multinational firm spread across the globe, we fully understand that one of the keys to a successful project is centered around building individual relationships to align the project team's goals with the client's needs. Through our seamless operation between offices, the relationships built on any project can be leveraged anywhere around the world.

The depth and breadth of our construction management, cost consultancy, and advisory services reflects a deep seated commitment to delivering superior customer service and solutions which help our projects and our clients succeed. Rider Levett Bucknall has significant depth of resources for a variety of projects both nationally and internationally. One of our key market strengths is providing independent, expert advice on construction costs, budget planning, project management and transition planning services for the healthcare market.

In the past 227 years, Rider Levett Bucknall has successfully delivered construction project advisory services throughout the world. However, the story of our experience in providing the services outlined under this contract is not simply reflected in our track record but the real project successes lie in the local communities that we've affected by providing them with the proper tools, management principles, communications practices and administrative oversight they need to turn their planned visions into reality.
