Re: Contract Keywords

The State Procurement Office is pleased to announce that keywords have been added to all active contracts in APP, enhancing searchability and accessibility for all users. Thank you to everyone who contributed to this valuable initiative!

Moving forward, please remember to add relevant keywords to your contracts during the creation process. A helpful QRG detailing how to add/edit contract keywords is attached for your reference.

If you have any questions, please reach out to the APP Help Desk at app@azdoa.gov or give us a call at 602-542-7600.
