Re: Offshore Data Provision Important Notice: Please Review

Our Risk Management team, Compliance team, and Homeland Security would like to remind state agencies that terms like the Offshore Data provision should only be revised (a) at the contract (not task/purchase order) level and (b) after review by Homeland Security (to assess state data security risks) and Risk Management (to ensure that the insurance coverage under the contract is sufficient to cover increased risks to the State).

For questions regarding data security, including any changes to offshore data term, please contact Homeland Security at GRC@AZDOHS.gov

- For Risk Management assistance, please contact James.Abdo@azdoa.gov
- For Compliance needs, please contact SPOCompliance@azdoa.gov
- For IT Procurement needs, please contact JohnRedHorse@azdoa.gov

Thank you,

SPO Compliance
