Updating Vendor Addresses

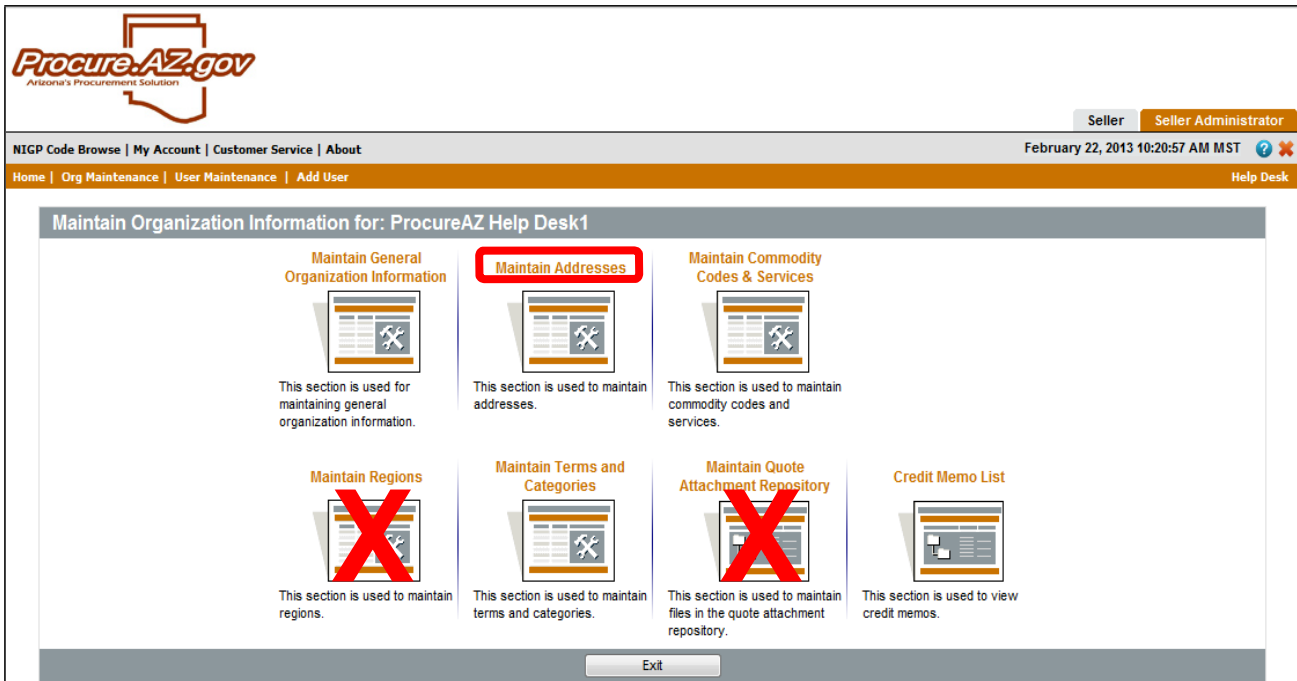

Maintain Addresses

This option allows you to edit, add, or remove the organization's various addresses that are registered within ProcureAZ. It is a good idea to periodically check your address information to make sure it lists the most current information for your company. This ensures agency buyers will always be able to get in touch with you for bid or purchase opportunities.

ProcureAZ allows you to utilize and save multiple types of addresses for your company:

- **General – Default address and contact information for the account.**
- **Bid** – Address to be reached for Bid opportunities
- **Purchase Order** – Address to be listed on POs
- **Remit** – Address for payments to be sent (must match identical to what is submitted on invoice)

In addition, you can have multiple addresses for each type (example: if you have multiple locations where POs can be sent by the State); however, you will be asked to identify a Default address for each type you create.

Vendor Profile Maintenance

1. Click the **Maintain Addresses** icon. This will provide a list of current addresses registered for your company.

Updating Terms and Categories

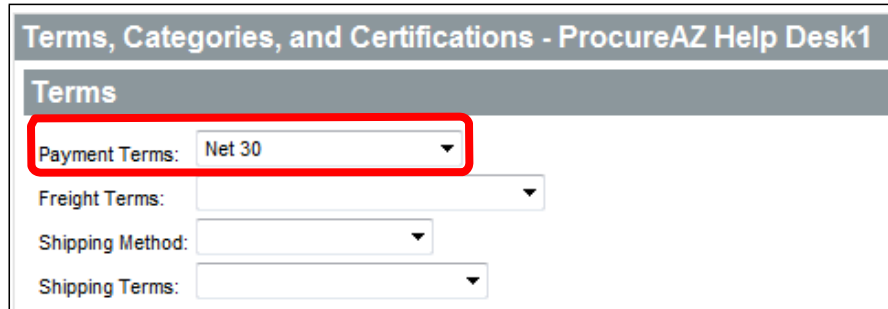

To update information you have provided the State regarding your payment terms and classifications/categories, click the **Maintain Terms and Categories** button. The State cannot send you purchase orders if this page is not filled out correctly. You are responsible for the accuracy of the information.

Vendor Profile Maintenance

Selecting Your Terms:

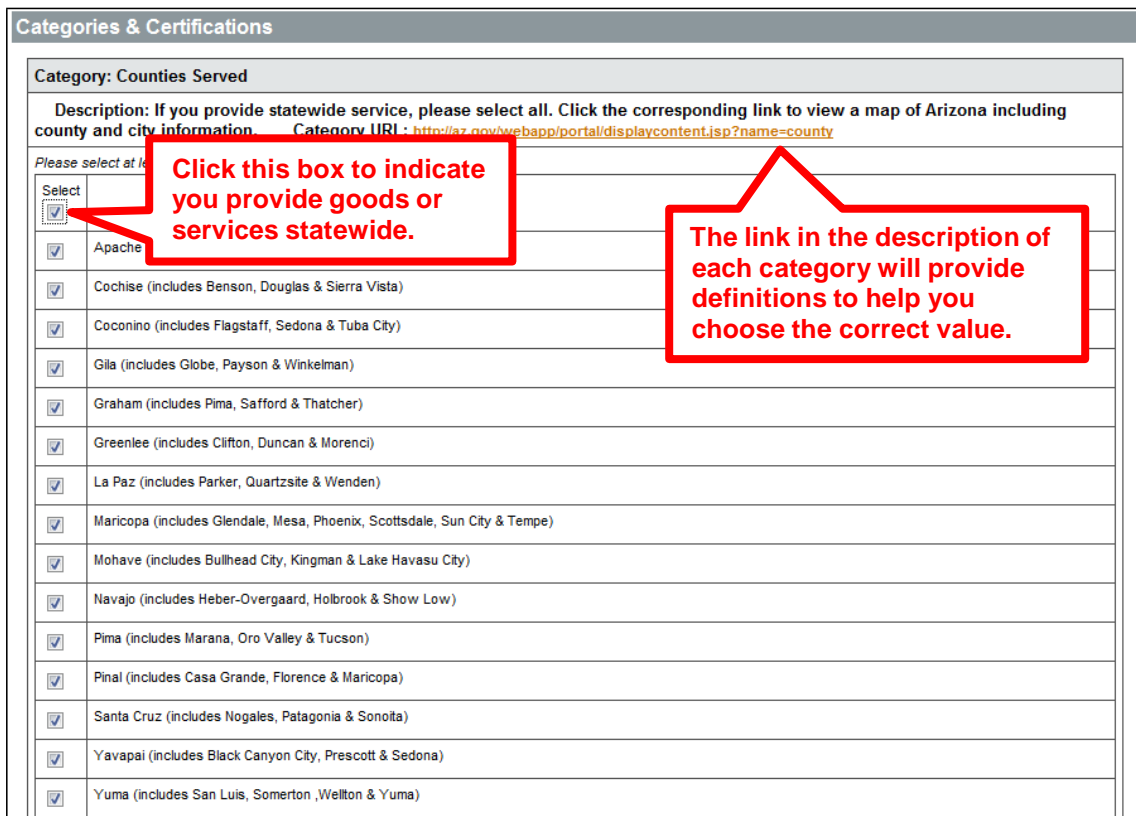

The State cannot send your business a purchase order unless you have selected **Payment Terms** from the drop-down menu in the **Terms** section. If your business does not have specific payment terms the State standard is **Net 30**. When responding to a Bid you can choose to use your default payment terms or select different ones in your quote.

1. Click the pull down arrow next to Payment Terms.
2. Scroll to the bottom of the menu and click Net 30 to select from the menu.

Adding Users

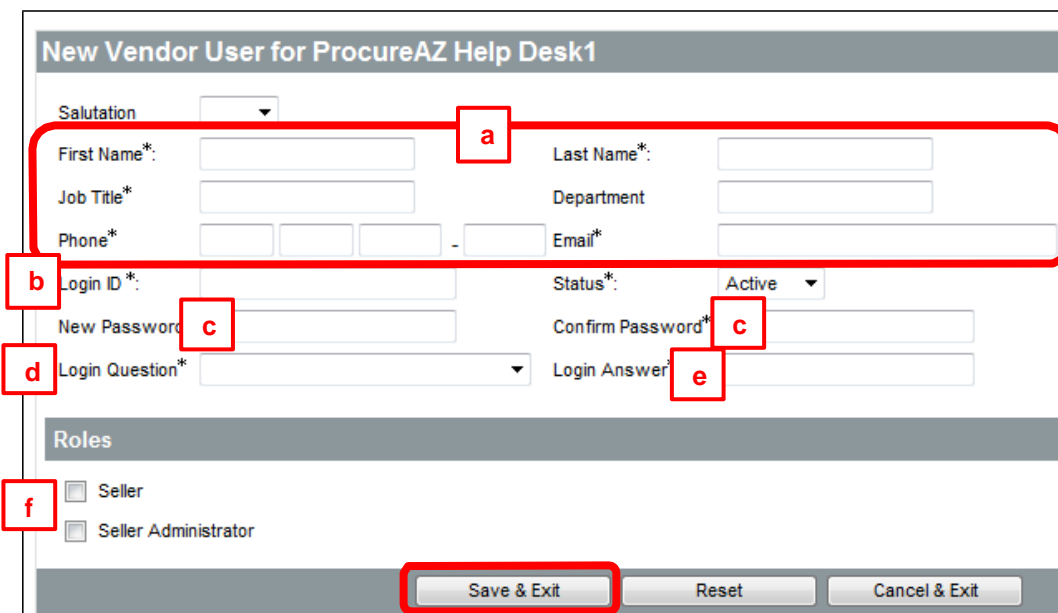

There are two ways to add a new user to an account. You can choose either **Add Users on this Account** or **Maintain Users on this Account**. In this example we will go through the steps of the **Add Users on this Account** process.

Vendor Profile Maintenance

1. Click Add Users on this Account.

2. Complete the fields listed below in the New Vendor User screen.

- a. First Name, Last Name, Job Title, Phone and Email are all required fields.
- b. Login ID – this needs to be unique throughout the entire system with a minimum of five characters (we recommend using your email address).
- c. Password and Confirm Password – **When creating a new user, use a generic password to start with.** When the user logs in the first time they will be prompted to create a new password immediately. The password needs to be at least six characters, you can use letters and numbers but no special characters (ie. !@#\$%).
- d. Login Question – Choose one of the four login questions from the pull down menu.
- e. Login Answer - Type the answer to the login question you chose.

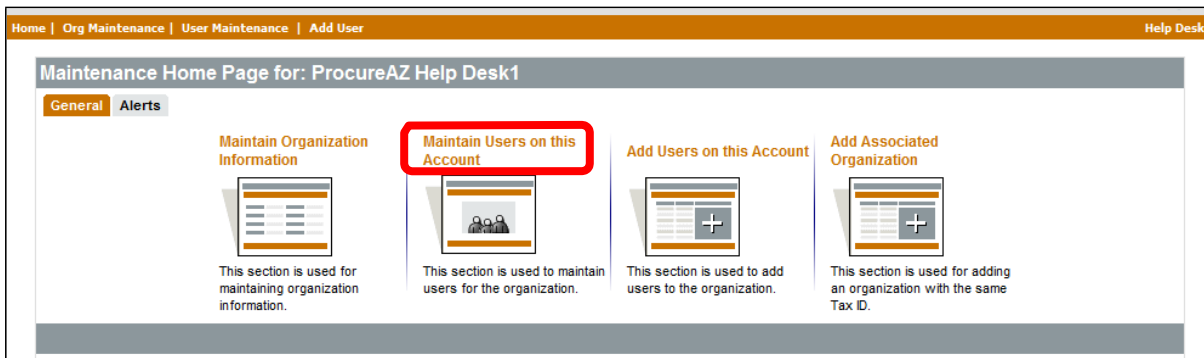

Vendor Profile Maintenance

- f. Select one or both ProcureAZ roles for the user. The **Seller** role allows the user to respond to open bids and manage purchase orders. The **Seller Administrator** role allows the user to update profile information.
- 3. After all required fields have been entered click the **Save & Exit** button to return to the **Maintenance Homepage**.

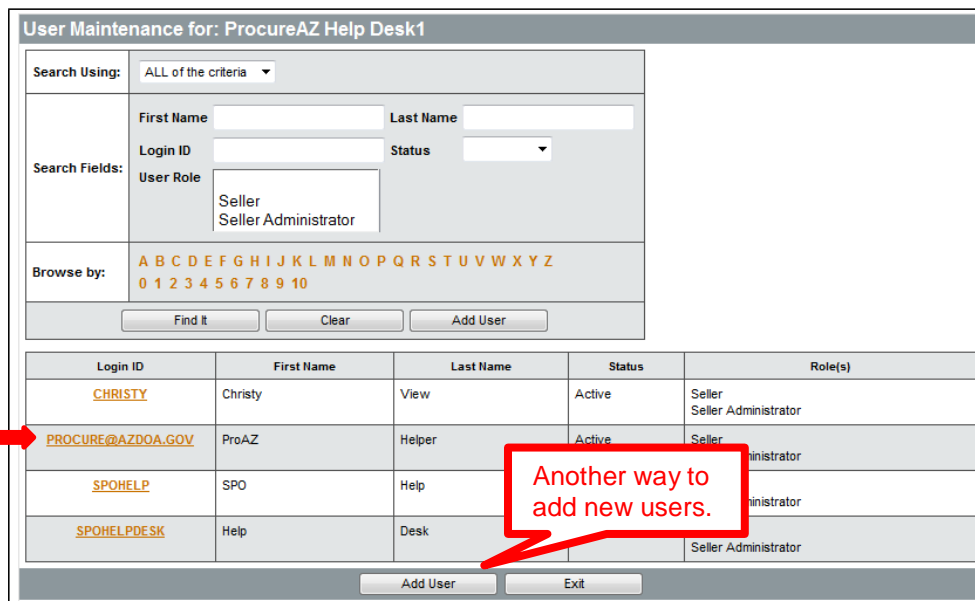

Maintaining Users

Maintain Users on this Account, enables you to determine what users are already set up in the system and to edit their information, including passwords, when necessary. To edit the user settings use the following steps:

- 1. Click **Maintain Users on this Account**.

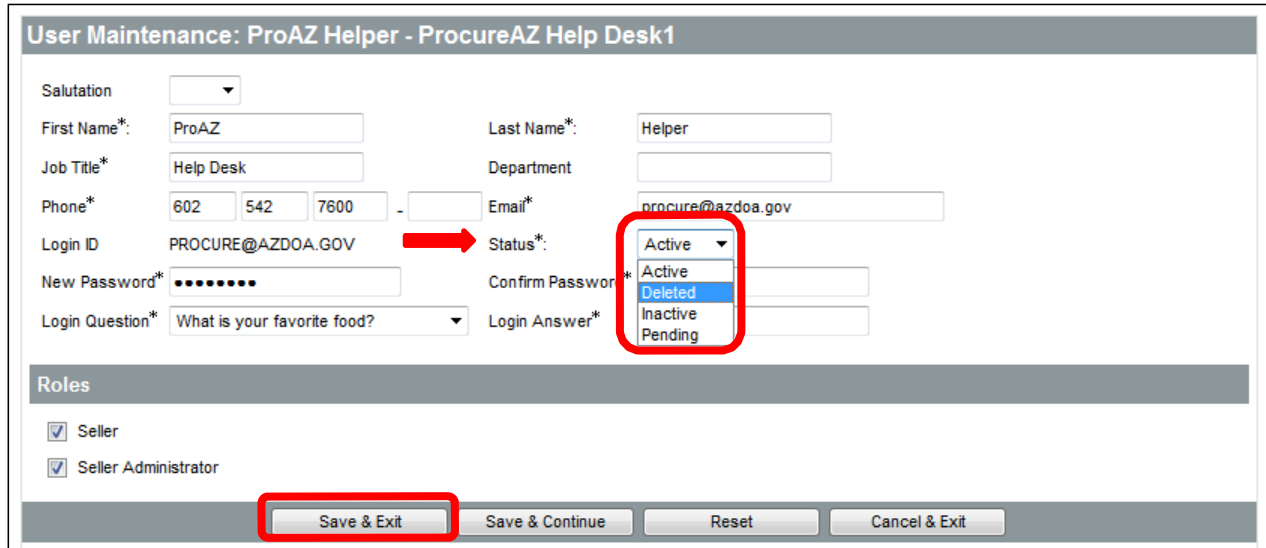

- 2. Click the Login ID of the user you want to edit in the Login ID Column.

Vendor Profile Maintenance

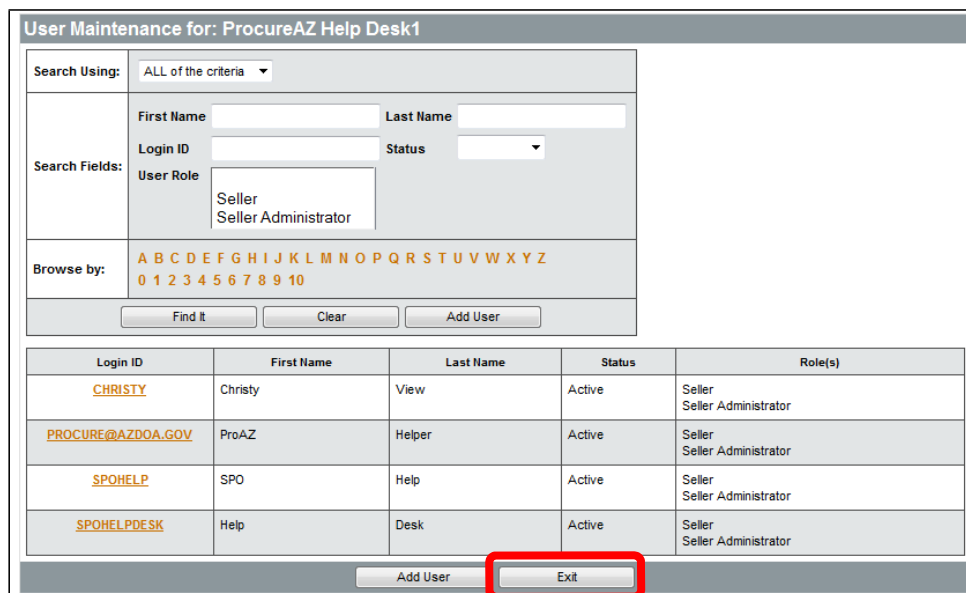

3. Edit the data as needed (refer to the Adding a New User section for an explanation of the fields required).

4. To disable a user click the pull down menu and choose Deleted. This disables the user from accessing ProcureAZ, but does not remove them from the user listing or the system.

NOTE: The **Login ID** cannot be edited. If the user needs a new login ID you will need to start from scratch and follow the instructions for adding a new user.

5. Click the **Save & Exit** button when you are finished.

Login ID	First Name	Last Name	Status	Role(s)

Add Associated Organization

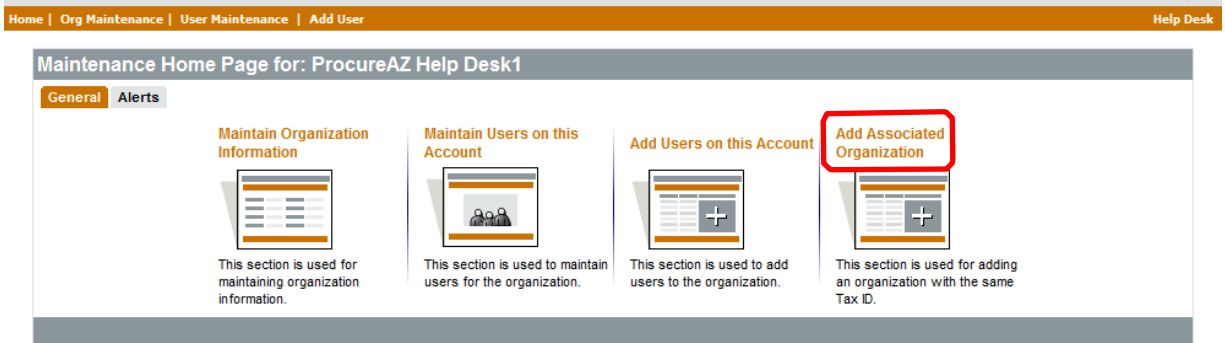

Each vendor that registers with ProcureAZ must have a unique tax identification number. If your organization does business under multiple names, or has subsidiaries and/or divisions that utilize the same tax ID but operate under completely separate circumstances, you may want to register each of these DBAs or subsidiaries or **DBAs** separately. Then each subsidiary can receive and manage solicitation opportunities, contracts and purchase orders within ProcureAZ specific to them. In order for each of these DBAs or subsidiaries to have standalone vendor records in ProcureAZ using the same tax ID, follow the instructions provided below.

- If an affiliated entity has registered within ProcureAZ with the tax ID that you have attempted to register with, then please contact them and have them follow the instructions provided within this guide, which will allow you to register with the same tax ID.
- The same user account cannot have access to multiple vendor profiles within ProcureAZ. If you need to be able to login on behalf of different vendor records, you will need to setup a different ProcureAZ account for each one. A step-by-step registration guide is available at <https://spo.az.gov/contractor-resources/procureaz-resources-for-vendors> on the State Procurement Office website.

In order to start the DBA registration process, a user from the original vendor account with the Seller Administrator role will need to send out an email with a DBA registration link.

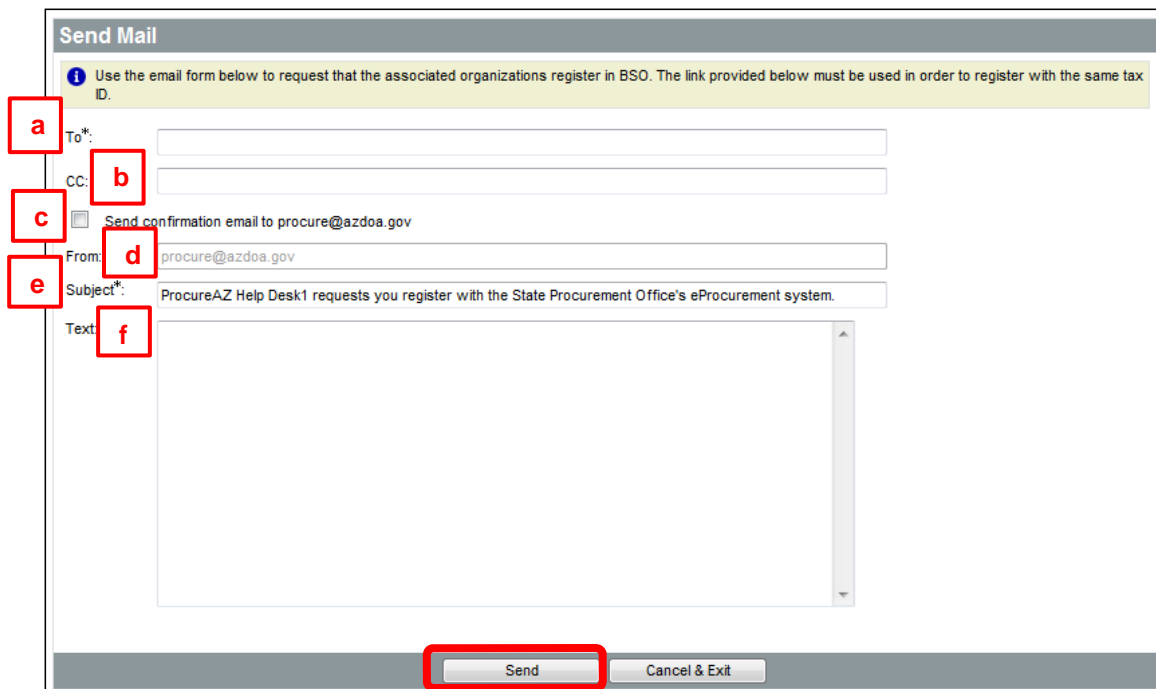

Sending a DBA Registration Link

1. Click **Add Associated Organization** from the Seller Administrator Maintenance Homepage.

Vendor Profile Maintenance

2. The **Send Mail** screen will appear. Complete the following fields:
 - a. **To** – The email addresses of the individuals that will receive this email.
 - b. **CC** – The email addresses of additional individuals that should receive this email.
 - c. **Send confirmation email to (your email address)** – When checked, an email will be sent to the sender confirming that the email was sent and listing the recipients.
 - d. **From** – This will automatically contain the sender's email address and cannot be edited.
 - e. **Subject** – The subject of the email that will be sent. This field is automatically populated.
 - f. **Text** – The body of the email that will be sent. Although not shown, this automatically populates with a standardized message, which cannot be changed, if you choose to type additional information in this field the text will appear *before* the standard message.

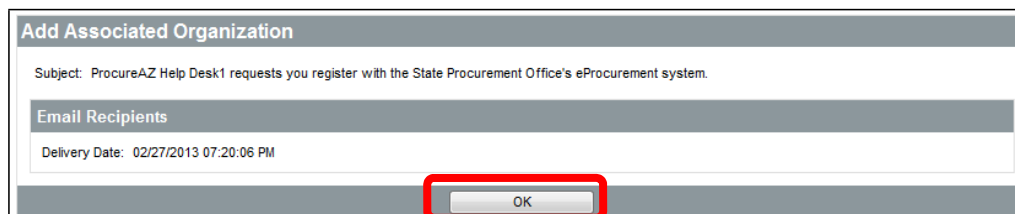

The screenshot shows the 'Send Mail' form with the following fields and their corresponding labels:

- a**: To* field
- b**: CC field
- c**: Send confirmation email to procure@azdoa.gov
- d**: From field (pre-filled with procure@azdoa.gov)
- e**: Subject* field (pre-filled with ProcureAZ Help Desk1 requests you register with the State Procurement Office's eProcurement system.)
- f**: Text field

The **Send** button is highlighted with a red box at the bottom of the form.

3. Click the **Send** button when you are finished filling out all the fields. You will receive confirmation the email was sent.

- A. Company name should reflect the name of the DBA Organization. The field is automatically filled out with the company name on the original account. It should be edited so buyers can recognize it as different from the parent organization.
- B. Vendor Legal Name and Tax ID # fields are auto-populated with data from the original account. The data needs to remain identical to the original account information; therefore it must not be changed.

Use the step-by-step registration guide available at <https://spo.az.gov/contractor-resources/procureaz-resources-for-vendors> on the State Procurement Office website to complete the DBA registration.
