Attachment 1
Offer and Acceptance Form

SUBMISSION OF OFFER: Undersigned hereby offers and agrees to provide qualifications for **2018 Annual Professional Services List** in compliance with the Solicitation indicated above and our Offer indicated by the latest dated version below:

Initial Offer:	1. 1/22/18 date	SP initial	
----------------	---------------------------	----------------------	--

Tetra Tech, Inc.

Offeror company name
3822 E. University Drive, Suite 3 Address
Phoenix, Arizona 85034 City State ZIP
95-4148514 Federal tax identifier (EIN or SSN)

Scott Parsons

SP

Signature of person authorized to sign Offer	Initials
Scott Parsons, Principal Engineer Printed name and title	
Scott Parsons, Principal Engineer Contact name and title	
Scott.parsons@tetrattech.com 949-521-1439 Contact Email Address Contact phone number	

CERTIFICATION: By signature in the above, Offeror certifies that it:

1. will not discriminate against any employee or applicant for employment in violation of Federal Executive Order 11246, [Arizona] State Executive Order 2009-9 or A.R.S. §§ 41-1461 through 1465;
2. has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant in connection with the submitted offer. Failure to provide a valid signature affirming the stipulations required by this clause will result in rejection of the Offer. Signing the Offer with a false statement will void the Offer, any resulting contract, and may be subject to legal penalties under law;
3. complies with A.R.S. § 41-3532 when offering electronics or information technology products, services, or maintenance; and
4. is not debarred from, or otherwise prohibited from participating in any contract awarded by federal, state, or local government.

ACCEPTANCE OF OFFER: State hereby **accepts the initial Offer**, Revised Offer, or Best and Final Offer identified by number **ADSP018-00007887** at the top of this form, and which was dated **1/22/18** (the Accepted Offer). Offeror is now bound (as Contractor) to carry out the Work under the attached Contract, of which the Accepted Offer forms a part. Contractor is cautioned not to commence any billable work or to provide any material or perform any service under the Contract until Contractor receives the applicable Order or written notice to proceed from Procurement Officer.

State's Contract No. is: ADSP018-00007887 **The effective date of the Contract:** 1/30/18-1/30/19 **Contract awarded:** 1/30/2019

Attachment 2-A
Experience and Capacity

STATE MAY DETERMINE YOUR SUBMITTAL IS NON-RESPONSIVE IF YOU DO NOT ANSWER ALL QUESTIONS FULLY.

DEFINITIONS

Branch Office: A geographically distinct place of business or subsidiary office of a firm that has a key role on the team.

Discipline: Primary technical capabilities of key personnel, as evidenced by academic degree, professional registration, certification, and/or extensive experience.

Key Personnel: Individuals who will have major contract responsibilities and/or provide unusual or unique expertise.

Parent Company. Identify controlling company name in this field if the Firm is owned or controlled by another company.

Structure: How a business is organized to accomplish its objectives (ie, Sole Proprietor, Limited Liability Company, Cooperative, Corporation, Partnership, S Corporation). [See chart below for example:](#)

Entity Type	Structure
Corporation	S Corporation or C Corporation, or Professional Corporation
Cooperative	Cooperative
Partnership	General Partnership, Limited Partnership, Limited Liability Partnership, Limited Liability Limited Partnership
Sole Proprietor	Sole Proprietor
Limited Liability Company	Limited Liability Company or Professional Limited Liability Company

1.0 Five (5) Example Projects

List no more than five (5) example projects which best illustrate firm's qualification for this contract in the chart provided below. Select projects where multiple team members worked together, if possible, that demonstrate the team's capability to perform work similar to that required for this qualifications list contract. (NOTE: The integrity of the chart table columns shall remain unchanged, however the rows for each project may be expanded by the Offeror to accommodate the information).

- Title and Locations of project or contract. For an indefinite delivery contract, the location is the geographic scope of the contract.
- Enter the year completed of the professional services (such as planning, engineering study, or design), and/or the year completed if construction. If any of the professional services or the construction projects are not complete, leave Year Completed blank and indicate the status in Brief Description of Project and Relevance to This Contract (block f).
- Project Owner or user, such as a government agency or installation, an institution, a corporation or private individual.
- Provide the original budget or not to exceed dollar amount for the project.
- Provide the Total Cost of the Project. If any of the professional services or construction projects is not complete, indicate the percentage complete and whether this project will be on budget, over or under budget.
- Brief Description: Indicate scope, size, and length of project, principle elements and special features of the project. Discuss the relevance of the example project to this contract.

Phoenix, AZ 85007

Title and Location of Project	Design Completion Year	Construction Completion Year	Project Owner	Project Original Budget (or not to exceed amount)	Total Cost of the Project	Brief Description of Project
Farm Well #2	2016	2017	City of Phoenix	\$1.2M	\$1.2M	3,600 GPM Groundwater Production Well. SR85 Landfill, Buckeye, Arizona. Permitted and assisted with the design of a 3,600 GPM groundwater production well. The well casing was 20.625 inch diameter consisting of a combination of stainless steel and high strength low alloy installed in a 30 inch diameter boring. The boring depth was 1,005 feet and casing was installed to 996 feet. This project also included a new electrical service.
Former Ted's Truck Stop, ADEQ, Quartzsite, Arizona	2013 – present	n/a	Arizona Department of Environmental Quality (ADEQ)	\$449,195.84	On-going	Tetra Tech was retained to complete corrective actions at this former fuel station where multiple releases had occurred. Corrective actions included drilling and sampling three confirmation soil borings; installing five off-site groundwater monitoring wells; installing eight ozone-spargers; constructing a remedial equipment compound; installing underground piping; connecting the new ozone-spargers to a trailer mounted ozone generator; arranging for new electric service and connecting the ozone generator to the new service panel; and providing operation and maintenance of the ozone system. Services included abandoning 43 existing remediation and groundwater monitoring wells. The new wells and remedial system were completed and made operational, the existing wells were abandoned, and one round of groundwater monitoring was completed in less than two months. Services included operating and maintaining the ozone injection system to address on-site

						<p>groundwater contamination, and injecting chemical oxidants into selected monitoring wells to address off-site groundwater contamination.</p> <p>Additional services provided on this site included decommissioning and salvaging of an unused remedial system that included a soil vapor extraction (SVE) system; an ozone injection system; a groundwater pump and treat (WTP) system; and other ancillary components such as instrumentation; plumbing, electrical and control systems; air compressor; soil/water separator; tanks; granular activated carbon; drums; and waste debris. Salvageable items were segregated and transported to a surplus property yard.</p> <p>Current services include conducting a third round of ISCO injections and periodic groundwater monitoring to evaluation contamination in groundwater.</p>
C.C. Cragin Treated Water Line Project	On-going	n/a	Town of Payson	\$2,216,473	\$2,213,208	<p>In 2009, the Town of Payson requested Tetra Tech to assist in acquisition of Stimulus Funding for research and development of the C.C. Cragin Treated Water distribution and recharge project. The new C.C. Cragin water supply would deliver 3,000 acre-feet of water during 9-months of the year, and excess supply could be used for aquifer recharge. Time for acquisition of the funding was limited, and with Tetra Tech's depth of resources and past reliability with the Town on projects, the Town contracted Tetra Tech as the agent investigating how this new water resource would work with the existing wells and distribution system. At that time, and currently, Payson's water supply is 42 active wells within the Town boundary, 12 welded steel tanks, 10 booster stations, and 25 pressure zones.</p>

						Tetra Tech was authorized to hire consultants and prepare bid documents in accordance with WIFA and Federal Guidelines to investigate the recharge capacity of certain wells, developing them if necessary, providing reports of the effort along with other separate bids to develop additional wells, and drill wells. That responsibility included analysis of the chemistry involved in such recharge operations, and the monitoring of other wells during the recharge testing. Those operations were conducted without affecting the Town's ability to serve residents.
Buckeye Flood Retarding Structure Rehabilitation Project	On-going	On-going	Flood Control District of Maricopa County	\$2,000,000	\$4,600,000 (increase based on approved change orders)	Tetra Tech is currently under contract with the Flood Control District of Maricopa County to provide design and construction services for Buckeye FRS No. 1, a 7-mile long NRCS assisted dam that provides flood protection for the Town of Buckeye and surrounding agricultural area.
ASRAC Contract, Multiple Sites in Arizona	2000-on-going	n/a	Arizona Department of Environmental Quality (ADEQ)	\$8,100,000	\$8,100,000	Water Quality Assurance Revolving Fund (WQARF) Sites; Early Response Actions (ERAs), Remedial Investigations (RIs), Feasibility Studies (FSs), Preliminary Remedial Action Plans (PRAPs), Records of Decision (RODs), Remedy Design and Implementation, and Community Involvement Services, Arizona. Since 2000, Tetra Tech has been the prime contractor on the ASRAC contract for the Arizona Department of Environmental Quality (ADEQ) WQARF (i.e., State Superfund) Program. Major individual sites under contract include the 7 th Street and Missouri WQARF Site in Phoenix, Highway 260 and Johnson Lane WQARF Site in Pinetop Lakeside, 20 th and Factor WQARF Site in Yuma, AZ; Park-Euclid WQARF Site in Tucson, AZ; Western Avenue WQARF Site in Goodyear, AZ; Payson PCE WQARF Site in Payson, AZ; and the Tonto and

---	--	---

<p>Describe person's experience in performing services like those that are to be assigned:</p>	<p>United Technologies Corporation, Puente Valley Operable Unit. Remedial Design and Remedial Action for the PVOU shallow zone remedy. Responsible for the design and implementation of 1,500 gpm extraction system that includes 10 extraction wells, over 3 miles of pipeline in the public right-of-way, advanced oxidation, granular activated carbon, and ion exchange.</p> <p>Carrier Corporation, City of Industry, California. Operating and maintaining an integrated groundwater extraction system and soil vapor extraction system. Implemented cost saving measures that have resulted in savings of approximately \$200,000 per year including reducing sampling frequency, eliminating onsite carbon regeneration system, reducing labor, and discontinuing operation of a UV oxidation vapor treatment system.</p> <p>Los Angeles Unified School District, Los Angeles, California. Removal Action to support the construction of Central Regional Elementary School No. 16. A total of approximately 2,100 tons of soil were excavated and transported offsite for disposal as RCRA hazardous waste and non-RCRA hazardous waste. Approximately 75 post-excavation bottom confirmation samples and 200 sidewall confirmation samples were collected and analyzed for lead and arsenic to confirm that DTSC-approved remedial action objectives had been achieved. The DTSC issued a No Further Action Letter approving school construction after reviewing the Removal Action Completion Report.</p> <p>Los Angeles Unified School District, Los Angeles, California. Remedial Action Plan and Remedial Design Document for Central Regional Middle School No. 7. The DTSC-approved remedial action included excavation of approximately 100,000 cubic yards of VOC-impacted soil, post excavations soil-matrix and soil vapor confirmation sampling, and contingent soil vapor extraction. The RAP, which was approved by the DTSC, included a sampling and analysis plan, quality assurance project plan, health and safety plan, design drawings, engineering specifications, and an operations and maintenance plan.</p> <p>ARCO Transportation Services Company, Long Beach, California. Design and construction of a remediation system for soil and groundwater impacted by more than 100,000 gallons of gasoline from a transportation pipeline release. Free product with apparent thickness of up to 25 feet was measured on the groundwater. Conducted vapor extraction pilot tests and a feasibility study to evaluate the best technologies for controlling plume migration and remediating the site. Designed and obtained permits for an integrated remediation system utilizing pneumatic pumps and vapor extraction. The free product was pumped to a 2,000 gallon above ground storage tank (AST). Extracted vapors were destroyed by a thermal oxidizer.</p>

ADSP018-00007887

Description:
2018 Professional Services List

Arizona Department of
Administration
State Procurement Office
100 N 15th Ave., Suite 201
Phoenix, AZ 85007

Describe person's
experience in performing
services like those that
are to be assigned:

Mr. Hearn is an Arizona Registered Geologist with five years' experience in environmental consulting. Technician has extensive experience in numerous drilling and sampling methods, and has performed numerous groundwater monitoring well installation, developing and sampling events. The technician is skilled in site characterization, UST removal, tailings characterization, remediation system installation, and numerous sampling methods for soil, water, and soil vapor. This technician has an excellent track record of site safety and subcontractor oversight, and has aided in project planning and reporting.

Insitu Chemical Oxidation: Oversaw re-development of groundwater monitoring wells and subsequent injection of Persulfox® oxidizing agent for the purpose of continuing remedial activities at the site.

Soil Gas Sampling: Performed a subsurface survey of soil gas contamination using Membrane-Interface probe technology. Oversaw direct-push rig operation, sample point locating, MIP logging, worksite health and safety, and maintained detailed field logs.

Well Installation and Sampling: Responsible for the field oversight of groundwater monitoring well installations and groundwater sampling. Oversaw air-percussion drill rig operation, well installation, lithologic logging, sample collection, worksite health and safety, and maintained accurate and detailed field logs.

Soil Investigation: Staff geologist responsible for field oversight of air-percussion drill rig operation, soil-gas sample collection using simulprobe, groundwater sample collection, lithologic logging, field note maintenance, and site health and safety.

Phase I Environmental Site Assessments: Staff Geologist responsible for conducting Phase I Environmental Site Assessment (ESA) site reconnaissance activities for several developed properties. Responsible for documentation of field observations, photos, and reporting requirements.

UST Removal and Investigation: Oversaw removal of USTs located at 14 former fueling facilities. Responsible for excavation and safety oversight, soil sampling, project documentation and liaising with fire marshal during UST removal.

Soil Investigation: Performed Site characterization of metals contamination using direct-push drilling method and x-ray fluorescence sampling technology. Field activities included maintaining detailed activity logs and providing oversight for subcontractors

Insitu Chemical Oxidation: Provided oversight during drilling, construction and installation of injection wells using the sonic drilling method. Field activities included maintaining detailed lithologic descriptions and activity logs, and providing oversight and documentation of multiple drill rigs and work sites to construct an injection-well grid for the purpose of fracturing an aquifer-impending layer in an ongoing remediation project.

UST Site Assessments: Conducted UST release investigation assessments at fueling facilities. Field activities included soil borings and monitoring well

Description:
2018 Professional Services List

Arizona Department of
Administration
State Procurement Office
100 N 15th Ave., Suite 201
Phoenix, AZ 85007

Describe person's
experience in performing
services like those that
are to be assigned:

Soil Vapor Extraction and Groundwater-Pump and Treat Systems Operation; Central and Camelback WQARF Site in Phoenix, Arizona. Responsible for the operation and maintenance of the SVE and GW-Treatment systems. Required duties included monitoring systems, recording field data, reporting changes and making modifications to optimize efficiency; environmental sampling (groundwater, soil, soil-vapor and process-gases); preventative maintenance (oil changes, belt adjustments, and general housekeeping), repairs to piping and fittings and basic electrical wiring and controls trouble-shooting. Additional duties included oversight of groundwater monitoring well installations; installation of passive soil-gas samplers for soil surveys; installation of soil-vapor wells and connection to existing system; conducting air-quality performance testing; preparing groundwater sampling and well installation reports for final review.

UST Removal; Contracting Facility, Glendale, Arizona. Project involved the removal of two 20,000-gallon USTs, dispensers and associated product piping. Oversight duties included excavation, triple-rinsing and inerting tanks; removal of tanks, backfilling, compaction and surface prep for asphalt completion. Responsible for use of field monitoring equipment and screening excavated soil; communicating concerns to PM when contaminated soil encountered; data and photo documentation; soil sampling under USTs and product piping and deeper depths where contamination was identified; sample handling and delivery to lab; prepared scaled sampling locations diagram for report.

Well Installation and Sampling; 7th Street & Missouri Avenue Remedial Investigation Site; Phoenix, Arizona. Responsible for the field oversight of three groundwater monitoring well installations and groundwater sampling. Duties included utilities locating; characterizing/logging boring cuttings; obtaining simual-probe vapor samples at discrete intervals; well construction and developments; IDW handling, sampling and disposal. Additional duties included coordinating and conducting GW-sampling events that included wells located in the city ROWs requiring lane closure permits; obtaining permits to discharge into designated city sewers; maintaining accurate and detailed field logs.

Remedial Investigation and Groundwater Sampling; Whiting Bros #23 Site, Winslow, Arizona. Project involved reviewing historical site data and site reconnaissance for locating groundwater wells. Duties included conducting preliminary GW-sampling; utilities locating and field marking drilling locations; oversight for investigative soil-probes, collected soil and soil-vapor samples used to delineate area to excavate and remove contaminated soil; post excavation GW-sampling; installed eight vapor pins inside site building and five shallow soil-probes outside building for vapor intrusion monitoring; maintained detailed field logs of all activities.

Installation of New Landfill Cells; South Yuma County Landfill, Yuma, Arizona. Project involved Construction Quality Assurance (CQA) oversight for the installation of three new landfill cells in an active solid waste disposal facility. Responsibilities included analyses of project documents and diagrams;

<p>Resume:</p>	<p>List filename</p>

	Request for Qualifications Solicitation No. ADSP018-00007887 Description: 2018 Professional Services List	Arizona Department of Administration State Procurement Office 100 N 15th Ave., Suite 201 Phoenix, AZ 85007
---	--	---

4	Name: Mekaela Bennett	How long with company?	6 years
	Current position in company:	How long in position?	6 years
	Position for the Services:	How much of time will be dedicated to the Services?	20%
	What primary functions will be assigned? Field assessments, report writing, project engineering.		
	Describe person's experience in performing services like those that are to be assigned: Underground Storage Tank Removal, ADEQ, Arizona. Performed oversight of underground storage tank removal at various sites in Arizona. Completed related confirmation sampling beneath product lines and storage tanks. Monitor Well Installation and Sampling, ADEQ, Douglas, Arizona. Completed oversight of monitor well drilling and installation at the previous Fuentes Auto in Douglas, Arizona. Three wells were constructed and classification of soils was performed. Upon completion wells were purged and sampled. Environmental Monitoring and Mitigation, Former Mines in Patagonia and Casa Grande, Arizona. Staff Engineer responsible for environmental monitoring of three different mine sites for the Asarco Trust. Responsibilities included bi-monthly site visits to ensure all environmental controls were functioning properly, removal of hazardous waste, stormwater monitoring, waste rock and soil sampling, SWPPP preparation and compliance. Exploration Drilling and Project Feasibility, Holbrook, Arizona. Staff Engineer responsible for performing drill core logging as well as soil classification of test pits for project feasibility studies. Test pits were excavated to refusal by a backhoe as far as twelve in depth. Classification was performed as every changing soil interval. Safford Mine Lone Star Noise and Vibration Study, Safford, Arizona. Conducted blasting noise and vibration analysis to establish baseline conditions. Baseline conditions were used predict noise and vibration that would result from blasting associated with mining of the proposed Lone Star open pit copper mine. Aquifer Protection Permit Quarterly Ground Water Monitoring, Marana, Arizona. Monitored depth to water and obtained groundwater samples from monitoring well network of 23 compliance wells to support compliance with an Aquifer Protection Permit for a large operating copper mine. Phase I Environmental Site Assessments, Various Locations, Arizona. Staff Engineer responsible for conducting Phase I Environmental Site Assessment (ESA) site reconnaissance, historical research, and records review for developed and undeveloped properties. Responsible for documentation of field observations, photos, and reporting requirements.

5	Name: Jonathan Elslager	How long with company?	13 years
	Current position in company:	How long in position?	13 years
	Position for the Services:	How much of time will be dedicated to the Services?	20%
	What primary functions will be assigned? Hydrology, Hydraulics, and Sediment Transport		
	Describe person's experience in performing services like those that are to be assigned: Over the past decade, Jon has gained considerable experience in the analysis and design of water resource and flood control projects including channels, energy dissipaters, chute spillways, dams, levee design and certification, scour and sediment transport studies, hydrology reports, and FEMA submittals. Mr. Elslager's background is in the utilization of computer/numerical modeling techniques to determine solutions to complex engineering problems in the areas of hydrology, hydraulics, and sediment transport. He is familiar with an array of methods for hydrologic and hydraulic analysis, including one-dimensional and two-dimensional computational software programs. Mr. Elslager's proficiency in numerous hydrology, hydraulic and sediment transport software programs combined with the added proficiency in the use of Geographic Information Systems and Computer Aided Design and Drafting software allow for the graphical integration of numerical modeling results for incorporation into various planning and design documents. Jon has supervised development of FEMA submittals, H&H reports, sediment transport and geomorphic studies, and development of plans and project specifications. Mr. Elslager has extensive experience in a wide variety of settings throughout the U.S., including the East Coast, Mid-West, Pacific Northwest and Southwest regions.□

---	--	---

6	Name:	Douglas Lantz, PhD, PE, PH	How long with company?	20 years
	Current position in company:	Hydraulic Engineer/Principal Project Manager	How long in position?	29 years
	Position for the Services:	Hydraulic Engineer	How much of time will be dedicated to the Services?	20%
	What primary functions will be assigned?	Hydraulics		
	Describe person's experience in performing services like those that are to be assigned:	<p>Doug Lantz has 29 years of applied project experience in hydrologic/hydraulic analysis and design for flood control and environmental restoration projects. He has developed engineering solutions and designs for interconnected detention basins; overflow spillways; levees and embankments; flood control channels; rock, soil cement, and bio-engineered bank protection; dam rehabilitation; dam removals; stream restoration; fish passage; and wetlands. He has extensive experience with computerized hydrologic, hydraulic, and sediment models including HEC-1, HEC-HMS, SITES, WinDAM, TR-55, TR-20, WinTR-20, UNET, HEC-2, HEC-RAS (steady and unsteady), FLO-2D, SAM, BREACH, FLDWAV, HEC-FFA, HEC-SSP, HEC-FDA, and the Advanced Interconnected Channel and Pond Routing Program (ADICPR) and has prepared detailed documentation for hydrology, hydraulics, sediment transport, and design. Mr. Lantz has prepared construction documents that include contract drawings, specifications, quantity estimates, cost estimates, design reports, permitting, and O&M manuals. Mr. Lantz has worked on several large multi-purpose restoration projects and dam rehabilitation projects that have required in-depth analysis of the hydrologic, hydraulic, geomorphic, and sedimentation characteristics in the existing and post-project conditions.</p> <p>Prior to joining Tetra Tech, Mr. Lantz was a civil engineer for the Flood Control Engineering Division, Pima County Department of Transportation and Flood Control District, Tucson, Arizona. He was responsible for hydrologic/hydraulic analysis and design of drainage and flood-control projects including levees, multiple interconnected detention basins, channels, and bank protection. His experience included development of engineering solutions to complex flood-control problems; preparation of construction details using AutoCAD; computation of quantities and cost estimates, completion of hydrologic and hydraulic analyses using computerized methods such as HEC-1, TR-20, HEC-2, WSPRO, and the Advanced Interconnected Channel and Pond Routing Program; and writing comprehensive technical reports and appendices for hydrology, hydraulics, and design. □</p>

7	Name: Scott Estergard	How long with company?	6 years
	Current position in company:	How long in position?	6 years
	Position for the Services:	How much of time will be dedicated to the Services?	10%
	What primary functions will be assigned? Federal Water Resource Policy Ecosystem Restoration, Flood Risk Management, US Army Corps of Engineers, Environmental Impact Assessments, and NEPA		
	Describe person's experience in performing services like those that are to be assigned: Mr. Estergard has over 20 years of experience in water resource planning and environmental impact assessment. His expertise includes detailed knowledge of aspects of plan formulation and Federal water resource policy with focus in ecosystem restoration and flood risk management. He has led interdisciplinary study teams working with local communities and stakeholder groups to develop, evaluate, and recommend solutions to water resource problems. He has extensive knowledge of developing planning reports of varying types and complexities – Initial Appraisals, Reconnaissance Reports 905(b), Feasibility Reports, Post Authorization Change Documents, Preliminary Restoration Plans, and Technical Decision Documents and is certified as having completed the USACE Planning Community of Practice requirements as an Expert Planner. For 14 years prior to joining Tetra Tech, Mr. Estergard was with the U.S. Army Corps of Engineers (Los Angeles and Rock Island Districts). During his tenure he served as a lead planner for numerous water resource studies including basin wide and site specific water resource projects. He has managed civil works projects from initiation to design and construction. Mr. Estergard has also completed environmental impact assessments, conducted Section 7 consultations, and prepared NEPA documents. Project experience includes watershed studies and feasibility studies addressing flood risk management, ecosystem restoration, groundwater recharge, stream bank stabilization, and navigation.

<p>Describe person's experience in performing services like those that are to be assigned:</p>	<p>South Maryland Creek Ranch Development, Silverthorne, CO, Project Hydraulic Engineer, Reviewer, and Construction Observer – Mr. Huiting was the lead engineer for the design, review, and resident observation of South Maryland Creek Ranch (Summit Sky Ranch); a 240-unit mountainside development in the Rocky Mountains. The project is divided into several phases and will ultimately include 12 miles of new sewers and force mains, 15 miles of new roadways, a new regional lift station, 10 miles of new water lines, booster pump station, a new storage tank, parks, and a 10-acre lake, along with other amenities.</p> <p>Mr. Huiting also served as resident observer, inspecting pipe, service, stormwater control features and roadways, lift station and force main construction, meetings with the town, and other inspection and review agencies.</p> <p>Water Treatment Project, Confidential Client, Hydraulic Engineer – Mr. Huiting was the lead hydraulic engineer for the design of a water treatment system incorporated into an existing refinery. The system utilizes existing and new tankage, activated sludge, membrane filters, and permeate pumps to treat contaminated water from various sources. The project included full dynamic hydraulic analysis for pressure and gravity systems, interfacing with client, completion of various databases, design, quality control, control strategies for pump and process control, isometric pipe profiles for offsite fabrication, specifications, procurement databases, scheduling and cost estimates, plans, and specifications.</p> <p>Bagdad Thickener, Bagdad Copper Mine Engineering, Procurement, and Construction Management (EPCM), Freeport-McMoRan; Phoenix, AZ, Project Hydraulic Engineer – Mr. Huiting was the lead hydraulic designer for a multi-infrastructure transmission and distribution system related to the addition of a thickener and new tailings area. The project included design, troubleshooting layout issues, procurement, and start-up of pipelines, pumps, and appurtenances for slurry and reclaim system on a fast-tracked project.</p> <p>Mountain Pass Rare Earth Mining and Treatment Facility, Moly Corp; Greenwood Village, CO, Project Manager – Mr. Huiting was the project manager for the design of a proposed multi-infrastructure underground distribution system. The project included interfacing with eight different consultants on an extremely fast-tracked project. Various infrastructures included potable water, fire water, reverse osmosis water, natural gas, electrical conduits, overflows, and brine lines. Pressures ranged widely over the mountain terrain where various facilities were located. The project also included pumping and pump systems, yard piping and valving, route selection, process selection, plant layout, hydraulics, product delivery and scheduling, cost estimates, plans, and specifications.</p> <p>Prairie Waters, Aurora Waters, Aurora, CO, Project Engineer – Mr. Huiting was the project engineer for the design of infrastructure for the North Campus well field and infiltration basins of the Prairie Waters Project to reuse South Platte River water. The project included layout, design, and start-up of well field</p>

Attachment 3-C
Proposed Subcontractors

RESERVED FOR AWARDED DESIGN PROFESSIONAL UPON SERVICE REQUEST

Check "NO" if you WILL NOT subcontract any portion of the Work and will therefore be carrying out all of the Work with your own personnel.

<input type="checkbox"/>	NO, the Offeror will not subcontract any portion of the Work.
--------------------------	---

If you WILL subcontract any portion of the Work, check "YES" below and list name of persons or companies you propose to use as subconsultants.

1. Fill in the information in the chart below for every proposed subcontractor – indicate the role and services work the subconsultant may provide in performing any of the services as outlined in the Requirements Document in the solicitation.
2. Offeror shall complete an Attachment 3-B Key Personnel Form in its entirety for each proposed subcontractor and submit with offer. The term "Subconsultant" shall be annotated in parenthesis after each subcontractor key personnel name typed in the "Name" section of the 3-B form.
3. State may demand additional information about proposed subcontractors as a precondition of award.

<input type="checkbox"/>	YES, the Offeror will use the Subcontractors listed below:

Attachment 3-E Israel Boycott Form

All materials submitted as part of a response to a solicitation are subject to Arizona public records law and will be disclosed if there is an appropriate public records request at the time of or after the award of the contract. Recently legislation has been enacted to prohibit the state from contracting with companies currently engaged in a boycott of Israel. To ensure compliance with A.R.S. §35-393.01. This form must be completed and returned with the response to the solicitation and any supporting information to assist the State in making its determination of compliance.

As defined by A.R.S. §35-393.01:

1. "Boycott" means engaging in a refusal to deal, terminating business activities or performing other actions that are intended to limit commercial relations with Israel or with persons or entities doing business in Israel or in territories controlled by Israel, if those actions are taken either:
 - (a) In compliance with or adherence to calls for a boycott of Israel other than those boycotts to which 50 United States Code section 4607(c) applies.
 - (b) In a manner that discriminates on the basis of nationality, national origin or religion and that is not based on a valid business reason.
2. "Company" means a sole proprietorship, organization, association, corporation, partnership, joint venture, limited partnership, limited liability partnership, limited liability company or other entity or business association, and includes a wholly owned subsidiary, majority-owned subsidiary, parent company or affiliate.
3. "Direct holdings" means all publicly traded securities of a company that are held directly by the state treasurer or a retirement system in an actively managed account or fund in which the retirement system owns all shares or interests.
4. "Indirect holdings" means all securities of a company that are held in an account or fund, including a mutual fund, that is managed by one or more persons who are not employed by the state treasurer or a retirement system, if the state treasurer or retirement system owns shares or interests either:
 - (a) together with other investors that are not subject to this section.
 - (b) that are held in an index fund.
5. "Public entity" means this State, a political subdivision of this STATE or an agency, board, commission or department of this state or a political subdivision of this state.
6. "Public fund" means the state treasurer or a retirement system.
7. "Restricted companies" means companies that boycott Israel.
8. "Retirement system" means a retirement plan or system that is established by or pursuant to title 38.

All offerors must select one of the following:

- XX My company **does not** participate in, and agrees not to participate in during the term of the contract a boycott of Israel in accordance with A.R.S. §35-393.01. I understand that my entire response will become public record in accordance with A.A.C. R2-7-C317.
- _____ My company **does** participate in a boycott of Israel as defined by A.R.S. §35-393.01. :

By submitting this response, proposer agrees to indemnify and hold the State, its agents and employees, harmless from any claims or causes of action relating to the State's action based upon reliance on the above representations, including the payment of all costs and attorney fees incurred by the State in defending such an action.

Attachment 5-A
Confidential Information Designation

All materials submitted as part of a response to a solicitation are subject to Arizona public records law and will be disclosed if there is an appropriate public records request at the time of or after the award of the contract. Recognizing there may be materials included in a solicitation response that are proprietary or a trade secret, a process is set out in A.A.C. R2-7-103 (copy attached) that will allow qualifying materials to be designated as confidential and excluded from disclosure. For purposes of this process the definition of "trade secret" will be the same as that set out in A.A.C. R2-7-101(52).

Complete this form return it with your Offer along with the appropriate supporting information to assist State in making its determination as to whether any of the materials submitted as part of your Offer should be designated confidential because the material is proprietary or a trade secret and therefore not subject to disclosure.

STATE WILL NOT CONSIDER ANY MATERIAL IN YOUR OFFER "CONFIDENTIAL" UNLESS DESIGNATED ON THIS FORM.

Check one of the following – if neither is checked, State will assume that as equivalent to "DOES NOT":

<input checked="" type="radio"/>	This response DOES NOT contain proprietary or trade secret information. I understand that my entire response will become public record in accordance with A.A.C. R2-7-C317.
<input type="checkbox"/>	This response DOES contain trade secret information because it contains information that: <ol style="list-style-type: none"> Is a formula, pattern, compilation, program, device, method, technique or process, AND Derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; AND Is the subject of efforts by myself or my organization that are reasonable under the circumstances to maintain its secrecy.

NOTE: Failure to attach an explanation may result in a determination that the information does not meet the statutory trade secret definition. All information that does not meet the definition of trade secret as defined by A.A.C. R2-7-101(52) will become public in accordance with A.A.C. R2-7-C317. State may make its own determination on materials in accordance with A.A.C. R2-7-103.

If State agrees with Offeror's designation of trade secret or confidentiality and the determination is challenged, the undersigned hereby agrees to cooperate and support the defense of the determination with all interested parties, including legal counsel or other necessary assistance.

By submitting this response, Offeror agrees that the entire Offer, including confidential, trade secret and proprietary information may be shared with an evaluation committee and technical advisors during the evaluation process. Offeror agrees to indemnify and hold State, its agents and employees, harmless from any claims or causes of action relating to State's withholding of information based upon reliance on the above representations, including the payment of all costs and attorney fees incurred by State in defending such an action.

***Copy of A.A.C. R2-7-103 [Confidential Information]
as was current at time of Solicitation issuance***

PROVIDED FOR REFERENCE ONLY

- A. *If a person wants to assert that a person's offer, specification, or protest contains a trade secret or other proprietary information, a person shall include with the submission a statement supporting this assertion. A person shall clearly designate any trade secret and other proprietary information, using the term "confidential". Contract terms and conditions, pricing, and information generally available to the public are not considered confidential information under this Section.*
- B. *Until a final determination is made under subsection (C), an agency chief procurement officer shall not disclose information designated as confidential under subsection (A) except to those individuals deemed by an agency chief procurement officer to have a legitimate state interest.*
- C. *Upon receipt of a submission, an agency chief procurement officer shall make one of the following written determinations:*
 - 1. *The designated information is confidential and the agency chief procurement officer shall not disclose the information except to those individuals deemed by the agency chief procurement officer to have a legitimate state interest;*
 - 2. *The designated information is not confidential; or*
 - 3. *Additional information is required before a final confidentiality determination can be made.*
- D. *If an agency chief procurement officer determines that information submitted is not confidential, a person who made the submission shall be notified in writing. The notice shall include a time period for requesting a review of the determination by the state procurement administrator.*
- E. *An agency chief procurement officer may release information designated as confidential under subsection (A) if:*
 - 1. *A request for review is not received by the state procurement administrator within the time period specified in the notice; or*
 - 2. *The state procurement administrator, after review, makes a written determination that the designated information is not confidential.*

Attachment 5-B Conformance Statements

STATE WILL NOT CONSIDER ANY EXCEPTIONS UNLESS DESIGNATED ON THIS FORM.

READ THE INSTRUCTIONS TO OFFERORS BEFORE TAKING ANY EXCEPTIONS – TAKING EXCEPTIONS CAN BE
GROUNDS FOR STATE REJECTING YOUR OFFER IN EVALUATION.

CONFORMANCE TO THE INSTRUCTIONS: (PART 1 OF THE SOLICITATION)

Check one of the following – if neither is checked, State will assume that as equivalent to “YES”:

- ☒ YES – Offeror acknowledges that it has read and understands the Solicitation Summary in Section 1-A of the Solicitation Documents and the Instructions to Offerors in Section 1-B of the Solicitation Documents and the and attests that its Offer complies with both.
- ☐ NO – Offeror acknowledges that it has read and understands the Solicitation Summary in Section 1-A of the Solicitation Documents and the Instructions to Offerors in Section 1-B of the Solicitation Documents, and attests that its Offer complies with both EXCEPT FOR the exceptions listed in **Attachment 5-B Supplement 1**.

CONFORMANCE TO THE CONTRACT TERMS AND CONDITIONS: (PART 2 OF THE SOLICITATION)

Check one of the following – if neither is checked, State will assume that as equivalent to “YES”:

- ☒ YES – Offeror acknowledges that it has read and understands the Special Terms and Conditions and the Uniform Terms and Conditions, along with their respective Exhibits and Appendices, in Part 2 of the Solicitation Documents and attests that its Offer complies with both.
- ☐ NO – Offeror acknowledges that it has read and understands the Special Terms and Conditions and the Uniform Terms and Conditions, along with their respective Exhibits and Appendices in Part 2 of the Solicitation Documents and attests that its Offer complies with both EXCEPT FOR the exceptions listed in **Attachment 5-B Supplement 2**.

CONFORMANCE TO THE TECHNICAL DOCUMENTS: (PART 3 OF THE SOLICITATION)

Check one of the following – if neither is checked, State will assume that as equivalent to “YES”:

- ☒ YES – Offeror acknowledges that it has read and understands the Requirements Document and the Compensation Document in Part 3 of the Solicitation Documents and attests that its Offer complies with both.

Acoustics, Noise Abatement				Land Surveying			
Activity Centers				Landscape Architecture			
Aerial Photography; Airborne Data and Imagery Collection and Analysis				LEED Accredited A/E			
Agricultural Development; Grain Storage; Farm Mechanization				LEED Independent 3rd Party Building Commissioning			
Air Pollution Control				Libraries; Museums; Galleries			
Airports; Navajds; Airport Lighting; Aircraft Fueling				Lighting (Exteriors; Streets; Memorials; Athletic Fields, Etc.)			
Airports; Terminals and Hangars; Freight Handling				Lighting (Interior; Display; Theater, Etc.)			
Animal Facilities				Lighting (Cave; Cavern)			
Anti-Terrorism/Force Protection				Mapping Location/Addressing Systems			
Area Master Planning				Materials Handling Systems; Conveyors; Sorters			
Auditoriums and Theaters				Materials Testing			
Automation; Controls; Instrumentation				Measurement / Verification / Conservation Water Consumption			
Barracks; Dormitories				Medical Related			
Bridge Design: Bridges				Metallurgy			
Cartography				Mining and Mineralogy			
Cemeteries (Planning and Relocation)				Modular Systems Design; Pre-Fabricated Structures or Components			
Chemical Processing and Storage				Mold Investigation			
Child Care/Development Facilities				Museums			
Codes; Standards; Ordinances				Nuclear Facilities; Nuclear Shielding			
Cold Storage; Refrigeration and Fast Freeze				Office Buildings; Industrial Parks			
Commercial Building (Low Rise); Shopping Centers				Outdoor Recreation			
Communications Systems; TV; Microwave				Petroleum and Fuel (Storage and Distribution)			
Community Facilities				Phase I Environmental			
Computer Facilities				Photogrammetry			
Conservation and Resource Management				Pipelines (Cross-Country - Liquid and Gas)			
Construction Management				Plumbing and Piping Design			
Construction Materials Testing				Pneumatic Structures, Air-Support Buildings			
Construction Surveying				Power Generation, Transmission, Distribution			
Controls and Electronics Engineer				Prisons and Correctional Facilities			
Corrosion Control; Cathodic Protection Electrolysis				Product, Machine Equipment Design			
Cost Estimating; Cost Engineering and Analysis; Parametric Costing; Forecasting				Public Safety Facilities			
Cryogenic Facilities				Radar; Sonar; Radio and Radar Telescopes			
Dams (Concrete; Arch)				Radio Frequency Systems and Shieldings			
Dams (Earth; Rock); Dikes; Levees				Railroad; Rapid Transit			
Desalinization (Process and Facilities)				Recreation Facilities (Parks, Marinas, Etc.)			
Design & Planning Structured Parking Facilities				Refrigeration Plants/Systems			
Design-Build - Preparation of Requests for Proposals				Rehabilitation (Buildings; Structures; Facilities)			
Detention Security Systems				Research Facilities			
Digital Elevation and Terrain Model Development				Resources Recovery; Recycling			
Digital Orthophotography				Rivers; Canals; Waterways; Flood Control			
Dining Halls; Clubs; Restaurants				Roof Infrared Imaging to Identify Water Leaks			
Disability / Special Needs				Roofing			
Dredging Studies and Design				Safety Engineering; Accident Studies; OSHA Studies			
Ecological and Archeological Investigations				Security Systems; Intruder and Smoke Detection			
Educational Facilities; Classrooms				Seismic Designs and Studies			
Electrical Studies and Design				Sewage Collection, Treatment and Disposal			
Electronics				Soils and Geologic Studies; Foundations			
Elevators; Escalators; People-Movers				Solar Energy Utilization			
Energy / Water Auditing Savings				Solid Wastes; Incineration; Landfill			
Energy Conservation; New Energy Sources				Special Environments; Clean Rooms, Etc.			
Environmental Impact Studies, Assessments or Statements				Specifications Writing			
Fallout Shelters; Blast-Resistant Design				Storm Water Handling and Facilities			
Fire Protection				Structural Design; Special Structures			
Fisheries; Fish Ladders				Surveying; Platting; Mapping; Flood Plain Studies			
Forensic Engineering				Sustainable Design			
Garages; Vehicles Maintenance Facilities; Parking				Swimming Pools			
Gas Systems (Propane; Natural, Etc.)				Testing and Inspection Services			
Geodetic Surveying: Ground and Airborne				Topographic Surveying and Mapping			
Heating; Ventilating; Air Conditioning				Towers (Self-Supporting and Guyed Systems)			
Highways; Streets; Airfield Paving; Parking Lots				Toxicology			
Historical Preservation				Traffic and Transportation Engineering			
Hospital and Medical Facilities				Traffic Studies			
Hotels; Motels				Transportation			
Housing (Residential, Multi-Family; Apartments; Condominiums)				Tunnels and Subways			
Hydraulics and Pneumatics				Urban Renewals; Community Development			
Hydrographic Surveying				Utilities (Gas and Steam)			
Industrial Buildings; Manufacturing Plants				Value Analysis; Life-Cycle Costing			
Industrial Processes; Quality Control				Warehouse and Depots			
Industrial Waste Treatment				Waste Water Treatment Facility			
Intelligent Transportation Systems				Water Resources; Hydrology; Ground Water			
Infrastructure				Water Supply; Treatment and Distribution			
Irrigation; Drainage				Water Well Rehabilitation; Water Well Work			
Judicial and Courtroom Facilities				Wind Tunnels; Research/Testing Facilities Design			
Laboratories; Medical Research Facilities				Zoning; Land Use Studies			
Labs - General							
Labs - Research - Dry							
Labs - Research - Wet

STATE OF ARIZONA

Office of the CORPORATION COMMISSION

CERTIFICATE OF GOOD STANDING

To all to whom these presents shall come, greeting:

I, Ted Vogt, Executive Director of the Arizona Corporation Commission, do hereby certify that

*****TETRA TECH, INC.*****

a foreign corporation organized under the laws of Delaware did obtain authority to transact business in the State of Arizona on the 24th day of June 1998.

I further certify that according to the records of the Arizona Corporation Commission, as of the date set forth hereunder, the said corporation has not had its authority revoked for failure to comply with the provisions of the Arizona Business Corporation Act; and that its most recent Annual Report, subject to the provisions of A.R.S. sections 10-122, 10-123, 10-125 & 10-1622, has been delivered to the Arizona Corporation Commission for filing; and that the said corporation has not filed an Application for Withdrawal as of the date of this certificate.

This certificate relates only to the legal authority of the above named entity as of the date issued. This certificate is not to be construed as an endorsement, recommendation, or notice of approval of the entity's condition or business activities and practices.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the Arizona Corporation Commission. Done at Phoenix, the Capital, this 5th day of January, 2018, A. D.

Ted Vogt, Executive Director
