The requirement for security must be included in the invitation for bids or request for proposals.

- B. The publication shall be not less than two weeks before bid opening and shall be circulated within the affected governmental jurisdiction. The notice may also be posted at a designated site on a worldwide public network of interconnected computers.
- D. Bids shall be opened publicly at the time and place designated in the invitation for bids. - G. The contract shall be awarded to the lowest responsible and responsive bidder whose bid conforms in all material respects to the requirements and criteria set forth in the invitation for bids. The amount of any applicable transaction privilege or use tax of a political subdivision of this state is not a factor in determining the lowest bidder. If all bids for a construction project exceed available monies as certified by the appropriate fiscal officer, and the low responsive and responsible bid does not exceed such monies by more than five per cent, the director may in situations in which time or economic considerations preclude resolicitation of work of a reduced

- I. If the price of a recycled paper product that conforms to specifications is within five per cent of a low bid product that is not recycled and the recycled product bidder is otherwise the lowest responsible and responsive bidder, the award shall be made to the bidder offering the recycled product. § 41-2540. Responsibility of bidders and offerors

- A. A written determination of nonresponsibility of a bidder or offeror shall be made in accordance with rules adopted by the director. A finding of nonresponsibility shall not be construed as a violation of the rights of any person.
- B. Information furnished by a bidder or offeror pursuant to this section shall not be disclosed outside of the office of the director or the purchasing agency without prior written consent by the bidder or offeror except to law enforcement agencies.

The contract file shall contain the basis on which the award is made.

§ 41-2539. Cancellation of invitation for bids or requests for proposals

An invitation for bids, a request for proposals or other solicitation may be cancelled or any or all bids or proposals may be rejected in whole or in part as may be specified in the solicitation if it is in the best interests of this state. Chapter 23
Arizona Procurement Code

As a guarantee that the contractor will enter into a contract, bid security is required for all construction procured pursuant to section 41-2533 and all construction services procured pursuant to section 41-2578, subsection F or section 41-2579, subsection F if the purchasing agency estimates that the budget for construction, excluding the cost of any finance services, maintenance services, operations services, design services, preconstruction services or other related services included in the contract, will be more than the amount established by section 41-2535, subsection D. Bid security shall be a certified check, cashier's check or surety bond.
- B. Bid security shall be submitted in the following amounts:
 - 1. For design-bid-build construction services, ten per cent of the contractor's bid.
 - 2. For design-build construction services awarded by competitive sealed proposals pursuant to section 41-2578, subsection F, ten percent of the purchasing agency's construction budget for the project as stated in the request for proposals, excluding finance services, maintenance services, operations services, design services, preconstruction services or any other related services included in the contract.
 - 3. For job-order-contracting construction services awarded by competitive sealed proposals pursuant to section 41-2578, subsection F or section 41-2579, subsection F, the amount prescribed by the purchasing agency in the request for proposals, but not more than ten per cent of the purchasing agency's reasonably estimated budget for construction that the purchasing agency believes is likely to actually be done during the first year under the contract, excluding any finance services, maintenance services, operations services, design services, preconstruction services or other related services included in the contract.
- C. Nothing in this section prevents a state governmental unit from requiring such bid security in relation to any construction contract. The surety bond shall be executed and furnished as required by title 34, chapter 2 or chapter 6, as applicable, and the conditions and provisions of the surety bond regarding the surety's obligations shall follow the form required by section 34-201 or 34-608, as applicable.
- D. If the invitation for bids or request for proposals requires security, noncompliance requires that the bid be rejected unless, pursuant to rules, it is determined that the bid fails to comply in a nonsubstantial manner with the security requirements.
- E. After the bids or proposals are opened, they are irrevocable for the period specified in the invitation for bids or request for proposals, except as provided in section 41-2533, subsection F, section 41-2578, subsection F and section 41-2579, subsection F. If a bidder is permitted to withdraw its bid before award, no action may be had against the bidder or the bid security.

R2-7-506. Bid Security

- A. The agency chief procurement officer shall include the bid security requirements of A.R.S. § 41-2573 in the solicitation.
- B. If an offeror fails to submit the bid security required by A.R.S. § 41-2573 with the offer, the agency chief procurement officer shall reject the offer.

 2. A certified or cashier check.
- D. The state procurement administrator or, in the case of construction on state property, the Assistant Director of General Services, may issue a written determination to accept the bid security if the bid security fails to comply in a nonsubstantial manner when:
1. Only one offer is received and there is not sufficient time to re-solicit;
 2. The amount of the bid security submitted, although less than the amount required by the solicitation, is equal to or greater than the difference between the apparent low offer and the next higher acceptable offer; or
 3. The bid security is inadequate as a result of correcting or modifying an offer in accordance with R2-7-B310, if the offeror increases the amount of the security to required limits within two days after notification.
- E. The state procurement administrator or, in the case of construction on state property, the Assistant Director of General Services, shall determine if the bid security may be released without penalty under § 41-2573(E).

 - (b) For construction-manager-at-risk construction services and design-build construction services, the amount of the performance bond shall be the price of construction and shall not include the cost of any design services,

Chapter 23
Arizona Procurement Code

preconstruction services, finance services, maintenance services, operations services and other related services included in the contract. This bond is solely for the protection of this state. The conditions and provisions of the performance bond regarding the surety's obligations shall follow the form required under section 34-222, subsection G or section 34-610, subsection G, as applicable.

2. A payment bond that is executed and furnished as required by title 34, chapter 2, article 2 or chapter 6, as applicable, in an amount equal to one hundred per cent of the price specified in the contract for the protection of all persons supplying labor or material to the contractor or its subcontractors for the performance of the construction provided for in the contract, except that:
 - (a) For job-order-contracting construction services, the payment bond shall cover the full amount of construction under the job-order-contracting construction services contract, shall not include any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract, may be a single bond for the full term of the contract, a separate bond for each year of a multiyear contract or a separate bond for each job order, as determined by the purchasing agency, and, if a single bond for the full term of the contract or a separate bond for each year of a multiyear contract, shall initially be based on the purchasing agency's reasonable estimate of the amount of construction that the purchasing agency believes is likely to actually be done during the full term of the contract or during the particular year of a multiyear contract, as applicable.
 - (b) For construction-manager-at-risk construction services and design-build construction services, the amount of the payment bond shall be the price of construction and shall not include the cost of any design services, preconstruction services, finance services, maintenance services, operations services or other related services included in the contract. The conditions and provisions of the payment bond regarding the surety's obligations shall follow the form required under section 34-222, subsection F or section 34-610, subsection F, as applicable.
- B. For design-bid-build construction, the bonds prescribed in subsection A of this section shall be provided on and at the same time as execution of the construction contract. For construction-manager-at-risk, design-build and job-order-contracting construction services, the bonds prescribed in subsection A of this section shall be provided only on and at the same time as execution of a contract or an amendment to a contract that commits the contractor to provide construction for a fixed price, guaranteed maximum price or other fixed amount within a designated time frame.
- C. If the prime contract or specifications require any persons supplying labor or materials in the prosecution of the work to furnish payment or performance bonds, these bonds shall be executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the director of the department of insurance pursuant to title 20,

Chapter 23
Arizona Procurement Code

chapter 2, article 1. Notwithstanding the provisions of any other statute, the bonds shall not be executed by an individual surety or sureties, even if the requirements of section 7-101 are satisfied.

R2-7-508. Performance and Payment Bonds

- A. The agency chief procurement officer shall ensure that performance and payment bonds are executed solely by a surety company or companies holding a certificate of authority to transact surety business in this state issued by the Department of Insurance under A.R.S. Title 20, Chapter 2, Article 1 and in a format prescribed by A.R.S. § 41-2574.
- B. The contractor shall submit to the state the performance bond and the payment bond upon request of the agency chief procurement officer. If a contractor fails to deliver the required performance bond or payment bond by the designated date, the contractor's offer shall be rejected, its bid security shall be enforced, and award of the contract shall be made as prescribed in this Chapter.

§ 41-2576. Contract payment retention; partial payment

- A. Ten per cent of all construction contract payments shall be retained by this state as insurance of proper performance of the contract or, at the option of the contractor, a substitute security may be provided by the contractor in an authorized form pursuant to rules adopted by the director. The contractor is entitled to all interest from any such substitute security.
- B. When the contract is fifty per cent completed, one-half of the amount retained or securities substituted pursuant to this section shall be paid to the contractor upon the contractor's request provided the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a greater amount to be retained. After the contract is fifty per cent completed, no more than five per cent of the amount of any subsequent progress payments made under the contract shall be retained providing the contractor is making satisfactory progress on the project, except that if at any time the state determines satisfactory progress is not being made ten per cent retention shall be reinstated for all progress payments made under the contract subsequent to the determination.
- C. Any retention shall be paid or substitute security shall be returned to the contractor within sixty days after final completion and acceptance of work under the contract. Retention of payments by a purchasing agency longer than sixty days after final completion and acceptance requires a specific written finding by the purchasing agency of the reasons justifying the delay in payment. No purchasing agency may retain any monies after sixty days which are in excess of the amount necessary to pay the expenses the purchasing agency reasonably expects to incur in order to pay or discharge the expenses determined by the finding justifying the retention of monies.
- D. This state shall not accept any substitute security unless accompanied by a signed and acknowledged waiver of any right or power of the obligor to set off any claim against either the state governmental unit or the contractor in relationship to the security assigned. In any instance in which this state accepts substitute security as provided in this section, any subcontractor undertaking to perform any part of the contract is entitled to provide such security to the contractor.

Chapter 23
Arizona Procurement Code

- E. Notwithstanding anything to the contrary in this section or in any other law:
1. There shall be no retention for job-order-contracting construction services contracts and the purchasing agency may elect to have no retention for construction-manager-at-risk and design-build construction services contracts.
 2. This section applies only to amounts payable in a construction services contract for construction and does not apply to amounts payable in a construction services contract for design services, preconstruction services, finance services, maintenance services, operations services or any other related services included in the contract.

R2-7-509. Conditions for Use of Substitute Security in Lieu of Retention

A contractor may submit substitute security to replace contract payment retention if:

1. The contractor requests the use of substitute security before the first progress payment;
2. The contractor submits an invoice with each progress payment in an amount of no less than 10% of the progress payment, or the contractor submits an invoice once at the beginning of the project in an amount no less than 5% of the total contract amount;
3. The interest earned on the security shall accrue to the benefit of the contractor but shall be retained by the contractor until the agency chief procurement officer has approved completion and acceptance of all work to be performed under the contract; and
4. The contractor ensures that the date of maturity of the security is after the estimated contract completion date, but no later than one year after the estimated contract completion date.

R2-7-510. The Form of Substitute Security in Lieu of Retention

If the conditions identified under R2-7-506 are met, the agency chief procurement officer shall accept a substitute security from a contractor in the form of one of the following:

1. An assignment of a time certificate of deposit by a financial institution licensed by this state;
2. Share certificates of a financial institution or credit union authorized to transact business in this state; or
3. Security issued or guaranteed as to principal and interest by:
 - a. The United States;
 - b. The state; or
 - c. Counties, municipalities, and school districts within this state.

§ 41-2577. Progress payments

- A. Progress payments may be made by this state to the contractor on the basis of a duly certified and approved estimate of the work performed during a preceding period of time as set by rule, except that a percentage of all estimates shall be retained as provided in section 41-2576. The progress payments shall be paid on or before fourteen days after the estimate of the work is certified and approved. The estimate of the work shall be deemed received by the owner on submission to any person designated by the owner for the submission, review or approval of the estimate of the work. An estimate of the work submitted under this section shall be deemed approved and certified after seven days from the date of submission unless before that time the owner or owner's agent prepares and issues a specific written finding detailing those items in the estimate of the work that are not approved and certified under the contract. The owner may

Chapter 23
Arizona Procurement Code

withhold an amount from the progress payment sufficient to pay the expenses the owner reasonably expects to incur in correcting the deficiency set forth in the written finding. On completion and acceptance of separate divisions of the contract on which the price is stated separately in the contract, payment may be made in full including retained percentages, less deductions, unless a substitute security has been provided pursuant to section 41-2576. No contract for construction may materially alter the rights of any contractor, subcontractor or material supplier to receive prompt and timely payment as provided under this section.

- B. The contractor shall pay to the contractor's subcontractors or material suppliers and each subcontractor shall pay to the subcontractor's subcontractor or material supplier, within seven days of receipt of each progress payment, unless otherwise agreed in writing by the parties, the respective amounts allowed the contractor or subcontractor on account of the work performed by the contractor's or subcontractor's subcontractors, to the extent of each such subcontractor's interest therein, except that no contract for construction may materially alter the rights of any contractor, subcontractor or material supplier to receive prompt and timely payment as provided under this section. These payments to subcontractors or material suppliers shall be based on payments received pursuant to this section. Any diversion by the contractor or subcontractor of payments received for work performed on a contract, or failure to reasonably account for the application or use of such payments, constitutes grounds for disciplinary action by the registrar of contractors. The subcontractor or material supplier shall notify the registrar of contractors and the purchasing agency in writing of any payment less than the amount or percentage approved for the class or item of work as set forth in this section.
- C. A subcontractor may notify the purchasing agency in writing requesting that the subcontractor be notified by the purchasing agency in writing within five days from payment of each progress payment made to the contractor. The subcontractor's request remains in effect for the duration of the subcontractor's work on the project.
- D. Nothing in this chapter prevents the contractor or subcontractor, at the time of application and certification to the owner or contractor, from withholding such application and certification to the owner or contractor for payment to the subcontractor or material supplier for unsatisfactory job progress, defective construction work or materials not remedied, disputed work or materials, third party claims filed or reasonable evidence that a claim will be filed, failure of a subcontractor to make timely payments for labor, equipment and materials, damage to the contractor or another subcontractor, reasonable evidence that the subcontract cannot be completed for the unpaid balance of the subcontract sum or a reasonable amount for retention that does not exceed the actual percentage retained by the owner.
- E. If any payment to a contractor is delayed after the date due interest shall be paid at the rate of one per cent per month or a fraction of the month on such unpaid balance as may be due.
- F. If any periodic or final payment to a subcontractor is delayed by more than seven days after receipt of periodic or final payment by the contractor or subcontractor, the contractor or subcontractor shall pay the contractor's or subcontractor's subcontractor or material supplier interest, beginning on the eighth day, at the rate of one per cent per calendar month or a fraction of a calendar month on such unpaid balance as may be due.

Except as authorized by sections 41-2535, 41-2536, 41-2537 and 41-2581, a single contract for architect services, assayer services, construction-manager-at-risk construction services, design-build construction services, engineer services, job-order-contracting construction services, geologist services, landscape architect services and land surveying services shall be procured as provided in this section.
- B. This state shall provide notice, in accordance with rules, of each procurement of a single contract for professional services or construction services specified in this section and shall award the single contract on the basis of demonstrated competence and qualifications for the type of professional services or construction services pursuant to procedures prescribed in this section.
- C. In the procurement of a single contract for professional services or construction services pursuant to this section:
1. The following requirements apply:
 - (a) The purchasing agency and the selection committee shall not request or consider fees, price, man-hours or any other cost information at any point in the selection process under this subsection or under subsection D of this section, including the selection of persons or firms to be interviewed, the selection of persons or firms to be on the final list, in determining the order of preference of persons or firms on the final list or for any other purpose in the selection process.
 - (b) In determining the persons or firms to participate in any interviews and in determining the persons and firms to be on the final list and their order on the final list, the selection committee shall use and shall consider only the criteria and weighting of criteria specified by the purchasing agency for that purpose as provided in this subsection. No other factors or criteria may be used in the evaluation, determinations and other actions.
 - (c) A purchasing agency is limited to one contract in each procurement under this section. Alternatively:
 - (i) For construction-manager-at-risk construction services, a purchasing agency may elect separate contracts for preconstruction services during the design phase, for construction during the construction phase and for any other construction services.

Arizona Procurement Code

- (iii) For professional services, a purchasing agency may enter into multiple contracts for different phases of a single project.
- (d) All construction-manager-at-risk construction services or design-build construction services included in a procurement under this section shall be limited to construction services to be performed at a single location, a common location or, if the construction services are all for a similar purpose, multiple locations. For construction-manager-at-risk construction services and design-build construction services to be performed at multiple locations:
 - (i) At the time the request for qualifications is issued, the purchasing agency must intend to commence all construction at each location within thirty months after execution of the first contract for preconstruction services or other construction services at any of the locations.
 - (ii) The request for qualifications must include the information described in paragraph 2, subdivision (g) of this subsection.
- (e) If the purchasing agency enters into the first contract for preconstruction services, construction services or professional services as the result of the procurement, the procurement under this section ends. After execution of that first contract the purchasing agency may not use the procurement or the existing final list in the procurement as the basis for entering into a contract with any other person or firm that participated in the procurement.
- (f) Notwithstanding any other provision of this section specifying the number of persons or firms to be interviewed, the number of persons or firms to be on a final list or any other numerical specification in this section:
 - (i) If a smaller number of persons or firms respond to the request for qualifications or if one or more persons or firms drop out of the procurement so that there is a smaller number of persons or firms participating in the procurement, the purchasing agency, as the purchasing agency determines necessary or appropriate, may elect to proceed with the procurement with the participating persons or firms if there are at least two participating responsive and responsible persons or firms. Alternatively, the purchasing agency may elect to terminate the procurement.
 - (ii) As to a request for qualifications for professional services or construction services to be negotiated pursuant to subsection E of this section only, if only one responsive and responsible person or firm responds to the request for qualifications or if one or more persons or firms drop out of the procurement so that only one responsive and responsible person or firm remains in the procurement, the director may elect to proceed with the procurement with only one person or firm if the director determines in writing that the fee negotiated pursuant to subsection E of this section is fair and reasonable and that either other prospective persons or firms

had reasonable opportunity to respond or there is not adequate time for a resolicitation.

- (iii) If a person or firm on the final list withdraws or is removed from the procurement and the selection committee determines that it is in the best interest of the state, the selection committee may replace that person or firm on the final list with another person or firm that submitted qualifications in the procurement and that is selected by the selection committee as the next most qualified.
2. The purchasing agency shall issue a request for qualifications for each procurement and give adequate public notice of the request for qualifications in the same manner as provided in section 41-2533. The request for qualifications shall:
- (a) State that one contract may or will be awarded, describe the services to be performed under the contract and state that one person or firm may or will be awarded the contract.

In a procurement in which the contract will be awarded under subsection F of this section, state that there will be a single final list and that the number of persons or firms on the final list will be three.
 - (c) As prescribed below, state the selection criteria and relative weight of the selection criteria to be used by the selection committee, except that for construction services one of the criteria shall be the person's or firm's subcontractor selection plan or procedures to implement the purchasing agency's subcontractor selection plan. All selection criteria under this subsection shall be factors that demonstrate competence and qualifications for the type of professional services or construction services included in the procurement. If:
 - (i) Interviews will be held, the request for qualifications shall state the selection criteria and relative weight of the selection criteria to be used in selecting the persons or firms to be interviewed and the request for qualifications may state the selection criteria and relative weight of the selection criteria to be used in selecting the persons or firms on the final list and in determining their order on the final list. The final list selection criteria and relative weights may be different than the selection criteria and relative weights used to determine the persons or firms to be interviewed. The request for qualifications also shall state whether the purchasing agency will select the persons or firms on the final list and their order on the final list solely through the results of the interview process or through the combined results of both the interview process and the evaluation of statements of qualifications and performance data submitted in response to the purchasing agency's request for qualifications.

Chapter 23
Arizona Procurement Code

- (ii) Interviews will not be held, the request for qualifications shall state the selection criteria and relative weight of the selection criteria to be used in selecting the persons or firms on the final list and in determining their order on the final list.
 - (d) If the purchasing agency will hold interviews as part of the selection process, state that interviews will be held and that the interviews will be with at least three and no more than five persons or firms.
 - (e) For procurements of construction services, include either:

3. The director or head of a purchasing agency shall initiate an appropriately qualified selection committee for each request for qualifications in accordance with rules adopted by the director. The director or head of a purchasing agency shall ensure that the selection committee members are competent to serve on the selection committee. If procuring professional services, the purchasing agency shall determine the number and qualifications of the selection committee members. A selection committee for the procurement of construction services shall not have more than seven members and shall include at least one person who is a senior management employee of a licensed contractor and one person who is an architect or an engineer who is registered pursuant to section 32-121. These members may be employees of the purchasing agency or outside consultants. Outside contractors, architects and engineers serving on a selection committee shall not receive compensation from the purchasing agency for performing this service, but the purchasing agency may elect to reimburse outside contractors, architects and engineers for travel, lodging and other expenses incurred in connection with service on a selection committee. A person who is a member of a selection committee shall not be a contractor under a contract awarded under the procurement or provide any professional services, construction, construction services, materials or other services under the contract. The selection committee and the purchasing agency shall do the following:

- (a) If interviews are specified in the request for qualifications:

 - (ii) If the selection criteria and relative weight of the selection criteria to be used by the selection committee to select the persons or firms on the final list and to determine their order on the final list are not included in the request for qualifications, before the interviews are held the purchasing agency shall distribute to the persons or firms to be interviewed the selection criteria and relative weight of the selection criteria to be used to select the persons or firms on the final list and to determine their order on the final list. These selection criteria and relative weight may be different than the selection criteria and relative weight used to determine the persons or firms to be interviewed.
 - (iii) The selection committee shall conduct interviews with at least three but not more than five persons or firms as specified in the request for qualifications regarding the professional services or construction services and the relative methods of approach for furnishing the required professional services or construction services.
- (b) Based only on the selection criteria and relative weight of the selection criteria specified as provided in this subsection for selection of the persons or firms on the final list and their order on the final list, the selection committee shall select

Chapter 23
Arizona Procurement Code

the persons or firms for the final list and, in the case of a final list for a contract that will be negotiated under subsection E of this section, rank the three persons or firms on the final list in order of preference.

- (c) If the contract will be negotiated under subsection E of this section, before or at the same time as the purchasing agency notifies the highest ranking person or firm on the final list that it is the highest ranking person or firm, the purchasing agency shall send actual notice to each of the following that it is not the highest person or firm on the final list or that another person or firm is the highest ranking person or firm on the final list:

 - 3. The procurement officer shall enter into negotiations with the highest qualified person or firm on the final list.
 - 4. If the procurement officer is not able to negotiate a satisfactory contract with the highest qualified person or firm on the final list, at compensation and on other contract terms the procurement officer determines to be fair and reasonable to this state, the procurement officer shall formally terminate negotiations with that person or firm. The procurement officer shall then undertake negotiations with the next most qualified person or firm on the final list in sequence until an agreement is reached or a determination is made to reject all persons or firms on the final list.
 - 5. If, in a procurement under this section, the procurement officer terminates negotiations with a person or firm on the final list and commences negotiations with another person or

Chapter 23
Arizona Procurement Code

firm on the final list, the procurement officer shall not in that procurement recommence negotiations or enter into a contract for the construction services or professional services covered by the final list with any person or firm on the final list with whom the procurement officer has terminated negotiations.

 - (vi) For design-build construction services if the request for proposals does not contain the specifications prescribed in item (v) and for job-order-contracting construction services, the price or life cycle price for procurements that include maintenance services, operations services or finance services.

 5. If determined by the purchasing agency and included by the purchasing agency in the request for proposals, the selection committee shall conduct discussions with all offerors that submit preliminary technical proposals. Discussions shall be for the purpose of clarification to ensure full understanding of, and responsiveness to, the solicitation requirements. Offerors shall be accorded fair treatment with respect to any opportunity for discussion and for clarification by the owner. Revision of preliminary technical proposals shall be permitted after submission of preliminary technical proposals and before award for the purpose of obtaining best and final proposals. In conducting any discussions, information derived from proposals submitted by competing offerors shall not be disclosed to other competing offerors.

In consideration for paying the stipulated fee, the procurement officer may use any ideas or information contained in the proposals in connection with any contract awarded for the project, or in connection with a subsequent procurement, without any obligation to pay any additional compensation to the offerors. Notwithstanding the other provisions of this paragraph, an offeror may elect to waive the stipulated fee. If an offeror elects to waive the stipulated fee, the purchasing agency may not use ideas and information contained in the offeror's proposal, except that this restriction does not prevent the purchasing agency from using any idea or information if the idea or information is also included in a proposal of an offeror that accepts the stipulated fee.

If in a procurement under this section the procurement officer terminates negotiations with a person or firm on a final list and commences negotiations with another person or firm on that final list, the procurement officer shall not in that procurement recommence negotiations or enter into a contract for the job-order-contracting construction services or professional services covered by that final list with any person or firm on that final list with whom the procurement officer has terminated negotiations. If the procurement is for:

If the procurement officer is not able to negotiate a satisfactory contract with the highest qualified person or firm on the final list, at compensation and on other contract terms the procurement officer determines to be fair and reasonable, the procurement officer shall then undertake negotiations with the next most qualified person or firm on the final list in sequence until an agreement is reached or a determination is made to reject all persons or firms on the final list.
