Re: Vendor Quote Access Issues

Periscope has a solution for the vendor quote access issues that have been occurring since the upgrade (most vendors are unable to access existing quotes; quotes created after the upgrade was are not an issue). In order to deploy the fix ProcureAZ must be taken offline for several hours. This will happen after COB of business today. The State Procurement Office strongly recommends pushing bid opening dates to next week.

The Help Desk will send out another update as more information becomes available.
