Subject: ProcureAZ Alert - Invoice Batch

PROCUREAZ ALERT

Date: January 21, 2015
To: ProcureAZ Users
From: State Procurement Office
Re: Invoice Batch in ProcureAZ

Six invoices belonging to Department of Environmental Quality have inadvertently posted to 97 different agencies' AFIS IT files. GAO is in the process of developing a utility that will delete invalid invoice batches/lines from impacted agencies' IT files, but this will not process until tonight. A ticket has been submitted to Periscope and the issue is being worked on. Please be patient while GAO works through the deletion.
