Re: ProcureAZ System Performance Issues

In an effort to alleviate the performance issues, beginning at 12:00PM AZ time Periscope will conduct a rolling restart of the ProcureAZ servers. What this means is that we should not experience any downtime however, you may get kicked out of ProcureAZ. If this happens, you should be able to immediately log back in to continue working. The total process time will be approximately 30 minutes. Please distribute to all persons who work in ProcureAZ this is happening.

As always, please contact us if there are any issues or concerns.

Thank you,
