

ProcureAz Alert

Date: July 13, 2016

To: State Agencies

From: ProcureAZ Help Desk

Re: ProcureAZ Alert: ****UPDATE**** Hotfixes for FY16 Payment Issues Will be Deployed Thursday Morning

Fixes for the following issues will be deployed to Production Wednesday **before 8:00a MST**. After that time:

- Change orders should process without errors on FY16 Purchase Orders in ProcureAZ, including-
 - Change orders generated when checking the Final Pay box on an invoice
 - Change orders created by cancel receipts
- The contents of the Misc and Freight fields on the General tab of FY16 Invoices should be sent to AFIS with the correct fiscal year and accounting period for processing

There may be an intermittent issue with cancelling FY16 invoices – this is still under investigation.

Thank you.
