Re: ProcureAZ Alert: ProcureAZ Restored

As technical support karma always has a way of saying hahaha... As soon as I sent out the alert regarding the delay, ProcureAZ access has been restored.

Once again, we thank you for your patience.

Again, for those of you creating invoices, double check your invoices created this morning to ensure they are still in place. The work that was done required a restoration of the invoices table within the database, so there is a possibility the invoices from today will need to be recreated.
