

Requisition documents in ProcureAZ allow users to place requests for goods and services. The type of Requisition will determine whether the request is for goods and services on- or off-contract, or for a reimbursement for funds already spent. Off-contract requests in ProcureAZ are referred to as "Open Market" Requisitions.

Logging In

Before you can create a new document, you must login to ProcureAZ. To login to ProcureAZ, input your email address into the "Login ID" field and the password you were given by an administrator into the **Password** field. Next, either hit **Enter** on your keyboard or click the **Login** button.

Creating a New Open Market Requisition

To start a new Requisition from scratch, hover your mouse over the Documents dropdown in the colored Navigation Bar along the top of the screen. Then, hover your mouse over **Requisitions** and select **New**. The General tab of your blank new Requisition document will display.

| Home Items * Documents * | Vendors Y | | | |

The process for completing all documents in ProcureAZ is the same - work through the tabs along the top of the document from left to right, starting with the General tab. As you go, complete all required fields, which are marked with an asterisk, save your work on each tab, then review and submit the document for approval via the Summary tab on the far right.

The General tab of the Requisition document is where you describe the Requisition, note which units in your agency the goods or services are for, and select the type of Requisition it signifies. If your default Department and Location are accurate, all you will need to input on this tab are a **Short Description** of what you will be requesting, and to select "Open Market" in the **Requisition Type** field. Click **Save & Continue** once complete.

Adding Items

Next, select the Items tab to add the Items you are requesting. From the Items tab, select the Add Open Market Item button.

| Requis | sition A | DSP010 | 0-0000054 | 5 | | | | | Status: 1RI - In Progress | |
|--------|------------------|--------|--------------------------|--------------|--------------------|----------|--------------------|--------------|---------------------------|--|

| | | | S | earch items | Add | Open Mar | ket item | Add RPA Ite | m | |

Selecting Add Open Market Item from the Items tab will display a screen within the Items tab that allows you to define every aspect of a new Item. To successfully add a new Normal Item to ProcureAZ, you must provide at least a Description, Quantity, an estimated Unit Cost, a Unit of Measure, and a 3-digit NIGP Class and 2-digit NIGP Class Item.

| Requisition ADSPO10-00000545 | | | | | | Status: 1RI - In Pr | ogress 🗎 |
|--|--|---------------------|------------------|------------|------------------------------|---------------------|---------------|
| General Items Address Accounting General Address Accounting | Routing Attachments Notes Rem Notes | inders Summary | | | | | |
| item #: Print Sequence*: Description *: ® | 1.0 | | Type: Status: | | lormal 👻 RI - In Progress | | |
| Dearlynni - 🔽 | | | | ۵. ج | | | |
| Quantity | Unit Cost | Net Unit Cost | UOM | Discount % | Total Disco | ount Amt. | Total |

| Commodity Code: | B | | | | Freight: Extended Amount: | s | 0.0 \$0.00 |
| | | , | | | | _ | |
| lanufacturer: | | Brand: Packaging | | Model: | | | |

When creating an Item, there are 2 ways to select a commodity code:

- If you already know the code you wish to use, you can simply type it into the **NIGP Class** and **NIGP Class Item** fields or you can select it from their associated dropdown boxes.
- If you do not know the appropriate code for the item, you can conduct a search by selecting
 the eyeglass icon next to the NIGP Class dropdown. Selecting this will open a pop-up
 window displaying the Commodity and Service Codes screen. You can conduct a search
 by typing information into the NIGP Keyword field and clicking Search. All commodity code
 descriptions containing the word(s) you've entered will appear. Once you select a code and
 click Save & Exit, the pop-up window will close and the selected code will automatically
 populate the NIGP Class and Class Item fields.

Note that unless your Organization uses the 11-digit commodity code, **you do NOT need to enter anything into the "Commodity Code" field or select the "Lookup Commodity Code" button**. Also note that the commodity codes selected for the items on your contract may be used by customers to search for the item, and

will be used in reporting to determine what items are available on contract, which are being ordered and in what quantities.

| | Quantity | Unit Cost | Net Unit Cost | UOM | | Discount % | Total Discount Amt. | Total |

Once you've entered data in the desired Item fields, including all required fields, you may select from the standard button options below, as well as a **Save & Add New** button. This button allows you to save the Item you've just created, then refreshes this screen to allow you define another new Item.

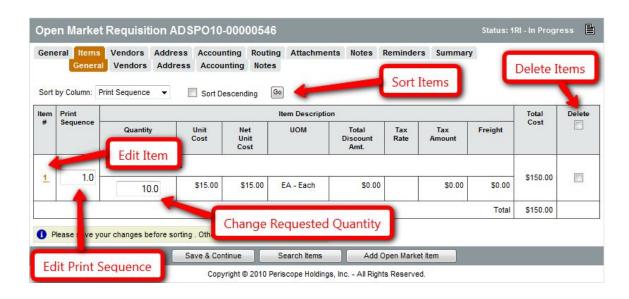

If there are any issues regarding the data you've entered, a pop-up window will let you know what needs to be corrected before you will be allowed to save. Once you've concluded adding Items and selected either the **Save & Exit** or **Cancel & Exit** button, the Items tab will display, listing each of the Items on your Requisition.

Once you have Items on your Requisition, from the Items tab you can edit the **Quantity** of each Normal Item, access each Item's details in order to edit them, delete Items, and change the **Print Sequence** of Items. If changes are made to an Item from the Items tab, select the **Save & Continue** button along the bottom of the screen. To view an Item's detail screen and be able to edit all aspects of an Item, click the link next to the Item in the **Item #** column on the far left.

Recommending Vendors

Once you have finished adding Items, proceed to the Vendors tab.. When requesting off-contract goods/services, you are able to search for and select vendors for your Requisition Items. If your Organization has enabled Informal Quotes, you will also be able to solicit price quotes from vendors for your Items through ProcureAZ.

If you are completing a Requisition for Items that are not on-contract, the Vendors tab will allow you to choose any vendor to associate with the Items you're requesting. If it is an Open Market Requisition, you can recommend the vendor(s) you select for the Items being requested, however a Basic Purchasing user will ultimately decide whether to use your recommended vendor, to choose an alternate vendor, or to competitively solicit the Items. You may also choose to not recommend a vendor. While you will receive a yellow Validation Warning about this – you can ignore this if desired.

To recommend a vendor, from the Header-level Vendors tab, select the **Lookup & Add Vendors** button along the bottom of the screen to display **Lookup & Add Reference Vendors** pop-up window.

From here, you can search for a specific vendor by name or ID, or you can search for all vendors that are registered with specific commodity codes. The easiest approach is to use the **Find Vendors for All Commodity Codes on the Req** button along the bottom of the screen. Selecting this button will return a list of all vendors registered with the commodity codes associated with your Requisition Items.

Upon conducting your vendor search, any vendors matching your search criteria will appear below. To recommend a vendor, you will first need to click the check box in the **Select** column next to the vendor. If you wish to recommend different vendors for different Items on your Requisition, you will need to select each of the vendors you want to recommend. Selecting multiple vendors here will also have the effect of giving procurement the opportunity to easily choose amongst any of them. If necessary, you can conduct as many vendor searches as needed by returning to the top of the screen, changing your search criteria and clicking **Find It** again.

Once you've selected a vendor or vendors and returned to the Header-level Vendors tab, you can recommend a vendor for all Items on the Requisition by clicking the check box in the **Recommended** column next to the vendor, followed by **Save & Continue** along the bottom of the screen.

If you wish to recommend different vendors for different Items on the Requisition, you will need to navigate to the Items-level Vendors tab. Each of the Items on your Requisition will be listed. You can recommend a vendor for each Item individually by selecting a vendor in the **Recommended Vendor** column next to that Item. All vendors that were added on the Header-level Vendors tab will display in the dropdown box. To recommend a vendor for multiple Items, select the vendor to be recommended in the **Recommended Vendor** dropdown along the bottom of the screen, then click the check box in the **Select All** column next to each Item you will be recommending that vendor for. Finally, click the **Apply to Selected** button along the bottom of the screen.

Adding Ship-to and Bill-to Addresses

The next tab to view and select is the Address tab. From the Header-level Address tab, you can apply one shipto address and one bill-to address to all Items. If you have been assigned default addresses, they will already appear on this tab. If you intend to use your default addresses for all Items on your Requisition, then you do not need to visit this tab.

If you need to change the addresses that will apply to all Items, then you can select from the addresses you have access to in the dropdown boxes within the **Ship-to Address** and **Bill-to Address** columns. If you have access to many addresses, then you will be able to search by selecting an eyeglass icon. After selecting a new address, you will need to first select **Save & Continue**. Then, if you changed the ship-to address, you will need to select **Apply Ship-to to All Items**. If you changed the bill-to address, then you will need to select **Apply Bill-to to All Items**.

From the Items-level Address tab, you can pick different addresses for each Item on your Requisition. If you need to ship different Items to different addresses, or have vendors send invoices to different addresses for different items, then you will need to use the Items-level Address tab. Upon selecting the Items-level Address tab, you will see each of your Requisition items listed. Within the **Ship-to Address** and **Bill-to Address** columns, you can select different addresses for each Item.

Indicating Funding Sources

All State agency Requisitions require that all items be charged to an account code consisting of at least an Appropriation Year, Index or PCA, and Comp Object. You may be assigned default accounting that will automatically populate your new Requisitions, so that if you don't know the appropriate accounting, you will not need to worry about entering it. However, even if you will not change your default accounting, you will still need to visit the Accounting tab and select "Rebuild for All Items."

The Header-level Accounting tab allows you to provide the account code(s) that will apply to all Items on your Requisition. If you have default accounting setup, an account code will already appear on this tab when you select it. To add or change accounting, simply click into a field for the account segment you would like to add or change (e.g. PCA, Index, etc.) and type in the proper code. Once you've entered the desired codes, in the two far right fields, enter either the percentage of the total cost of the Requisition to charge this account string, or a dollar amount to charge to this account string.

If you need to enter different accounting information for each item on the Requisition, proceed to the Items-level Accounting tab. Selecting this tab will display a screen listing each Item on your Requisition. Within the (**Account Distribution**) **Item Description** column, the percentage of each Item that has been charged to an account string displays. All Items must be 100% accounted for before you are able to submit the Requisition.

To enter accounting information for an Item, select the link in the **Item #** column for that Item. The same screen that appears on the Header-level Accounting tab will display, however the accounting entered here will apply only to the Item selected. The Item description appears directly above the row of account segments.

Optional Tabs

Once you've added your items, addresses, and accounting information, you have completed all the required information for a Requisition to be submitted within ProcureAZ. The remaining tabs allow you to input additional information about the Requisition if desired. These tabs include:

- **Routing** displays the approval path information for the Requisition, but not until the document has been submitted for approval.
- Attachments enables attaching any additional documentation needed for the Requisition.
- **Notes** enables you to note something about the document that is visible only to users from your agency.
- **Reminders** enables you to setup an alert for someone from your agency regarding the document.

Submitting for Approval

Once you have completed each of the necessary tabs and are ready to submit the Requisition for approval, you'll first want to review all of the information you've entered on the Summary tab. If there are any issues with the information you've provided, validation warnings and/or errors will display along the top of the Summary tab. Yellow warnings do not require action on your part, but red errors require that you fix the issue before you are allowed to submit the Requisition for approval.

Once you have corrected any issues and completed your review, clicking the **Submit for Approval** button on the bottom of the Summary tab will trigger approval of the document.

Upon clicking **Submit for Approval**, the approval path that's been triggered by the document will appear. This displays the users that must approve the document and in what order. Upon clicking **Continue**, the approvers will be notified once it is their turn to approve.

If no approval path is triggered by the document, you can manually add approvers to the document by selecting a user in the **Approver** dropdown and clicking the **Add Approver** button. Once you are ready to notify the

approvers, click **Save & Continue**. You will also be given the option to select **Automatic Approval**. Selecting this option automatically approves the document.
