From: State Procurement Office

Re: AD020193 Cabling Communication

The above referenced contract set has been extended through March 31, 2011. The contract has been amended to both extend the contract and to change the eligible user status for State agencies from mandatory users to permissive users (same as the Coop partners). This change was made to provide an opportunity for non-AD020193 contractors to sell to State agencies, while still continuing available contractual coverage for these goods and services. By the expiration of this contract set, these services are expected to be available contractually under a Job Order Contract. If you have any questions regarding AD020193, please contact the Procurement Officer identified below.
