Description of Services

These contracts replace the contracts below:

ADSP013-054356
ADSP013-054357
ADSP013-054359
ADSP014-054367
ADSP017-160815

Transition Process

The current contracts expire on August 14th, 2018. The new contracts are effective July 12th to account for the lead time required. The lead time for a fully trained guard in a long term position is up to 30 days, so please prepare your task orders as soon as possible with begin dates of 30 days into the future. If you cannot plan for a 30 day lead time, you will need to work with the vendor to negotiate a date and a plan for when guards must meet the initial training requirements.

US Securities is an incumbent vendor that did not receive an award. If you have employees with US Securities, the other vendors are willing to onboard those employees if requested. Please give the employees this information in case they are trying to stay at their current posts. Those employees should make sure that they did not sign a non-compete agreement with US Securities.
