

Withdrawing or Amending an Offer

This document is a quick-reference guide for suppliers who would like to amend or withdraw an offer in the Arizona Procurement Portal (APP). If you have any questions, please contact the APP Help Desk at app@azdoa.gov. Additional resources are also available on the SPO Website: <https://spo.az.gov/>.

Amending an Offer

If the State issues an amendment (i.e., new round), the supplier will be notified via email and will be **required to acknowledge receipt of the amendment and re-submit a bid to remain** under solicitation consideration (refer to the Submitting an Offer quick-reference guide for further information on RFP acknowledgement and offer submission). While submitting a response to an amendment, the supplier has the ability to copy forward previous offer responses to streamline the submission process.

Similarly, if the supplier wants to modify an offer after it has been submitted without completely withdrawing themselves from the solicitation process, they can retract the offer, make edits, and submit a replacement offer.

Recover an Offer

1. Log into app.az.gov.
2. Navigate to the **Sourcing** tab on the top of the screen.
3. Select **Manage my Proposals**
4. Click the **pencil** next to the offer that requires a re-submitted response or modification.
5. Select **Copy last submitted proposal** from the Other Action dropdown.
6. The fields now become editable and populate with the most recent RFx responses.
7. Edit the fields as required, then click **Validate & Submit Proposal**.
